Talks & Training

My Manifesto:

- Strive for diverse panels - we as a party value diversity and a wide range of experience is paramount for a good panel
- Work closely with our Accessibility Officer- create a checklist and ensure venues are accessible to those with mobility issues
- Give ample notice for YL conference- I will aim for at least 2 months, allowing people to book time off and organise travel and accommodation
- Explore the idea of a hybrid conference- having digital attendees would widen accessibility without losing valuable in-person training, networking and debate
