

# Scottish Young Liberals

Jack Clark

---

## My objectives

My main priority is to make Scottish Young Liberals more effective at campaigning and winning people over. I will:

- Make our social media presence more effective
- Organise action days and campaign days across Scotland to get young Liberals known and supported
- Encourage more young people to move away from the SNP and Labour and join us as the party which wants to build a progressive Scotland
- Maintain our commitment to a Scotland inside the United Kingdom and a United Kingdom inside the European Union

## My experience

I am currently a student at the University of the West of Scotland in Paisley, studying Society Politics and Policy. I am currently trying to set up a Young Liberals Society there and have been an active campaigner there since November 2016.

I have been involved in several election campaigns, including Cllr Eileen McCartin's reelection last year, and Christine Jardine's General Election campaign to become the MP for Edinburgh West.

As well as being an activist, I have stood twice for election myself. Firstly in the 2017 Scottish local elections in Renfrewshire's Paisley Northwest ward, and subsequently in the 2018 Selkirkshire by election.
