

# Vote Jess Insall for Policy Officer

for a pragmatic liberal voice working to represent youth.

I believe that every young member in this party should have a real say in Scottish Liberal Democrat policy. This is why, as policy officer, I will:

- Develop policy with underrepresented groups such as women, BAME, LGBTQ+, and low-income people, to empower them to make the changes they want to see.
- Ensure any SYL member wanting to bring policy to conference is supported, in a critical but non-judgemental way, through all stages from creating the first draft through to summation, regardless of my personal opinion of the issue they bring forwards.
- Fight to keep youth issues at the heart of the Scottish Liberal Democrats policy, and empower young members to make a real impact in our party.

Why can you trust Jess to deliver?

- I have passed a hugely successful policy on gender neutral school uniforms through both Scottish and Federal conferences, and featured on the cover of the "i" newspaper when this policy received Scottish Government backing.
- I passed a motion that supports full decriminalisation of abortion, and ensures Scottish Liberal Democrats base their abortion policy on facts, not philosophy.
- I am passionate about diversity, and believe our party can and should be doing better to listen to the voices of underrepresented groups.
- I believe that facts and evidence should always come before emotions and ideology, so I can offer a realistic and pragmatic approach to policy.
