PETER BANKS

FOR INTERNATIONAL OFFICER

ABOUT ME

My name's Peter, and I'm originally from the Meon Valley in Hampshire. I'm currently in my 3rd year of study at Universiteit Leiden in The Netherlands.

I have been involved with YL International for nearly five years, representing YL around the world, from attending Congresses of our sister parties to observing elections in Azerbaijan.

I've seen YL's international influence grow hugely over my time on International Committee. Now I'm ready to build on that foundation, and take YL to new heights internationally.

Let's get to work.

MY KEY PLEDGES

COMMUNICATION.

It's important that the International Office is open and accountable to all Young Liberals. We need to make sure Young Liberals are always involved in the wide range of events hosted by our international colleagues, and that all members are aware of the great work done by International. Externally, I'm ready to hit the ground running, preparing YL for the upcoming LYMEC Congress, and opening calls for candidates for several international opportunities coming up.

COOPERATION.

Cooperation is as important within the Executive as it is on the international stage. While representing YL's interests internationally, I will continue to work closely with the Committee, the Executive, and the whole membership to make YL an inclusive and welcoming movement with a united leadership.

VISION.

I have been a member of YL for nearly seven years, five of which I have spent working on the International Committee. I have worked closely with dozens of sister parties from across the world, and I know how to get YL's voice heard. I am ready to get to work, maintaining YL's place at the heart of the global young liberal movement.
