

New! Changes to the Immunization Statement of Conscience Affidavits

The revised *Immunization of School Pupils Act* has recently been passed in the Provincial Legislature. There is a significant change to the non-medical exemption requirements. Parents wishing to submit a non-medical exemption (Statement of Conscience) are now required to:

1. attend an immunization information session provided by Toronto Public Health
2. and submit the notarized form to the Vaccine Preventable Diseases Program

For families seeking non-medical exemptions:

- Please refer parents to our Immunization Information Line at 416-392-1250
- Do not give any Statement of Conscience forms to the parents. The form has now changed and old forms are no longer accepted
- Destroy any outdated exemption forms you may have in your school

To expedite the immunization reporting process, there is a new online system. Parents or students report online at: **toronto.ca/health**
