

# ITS TIME FOR A NEW POLITICS.

Politicians backed by big money won't solve the problems we face:

- Skyrocketing medical costs and job losses leaving millions without health care
- Climate crisis threatening human survival
- Endless costly, destructive wars that don't make the world safer.
- Politics dominated by corporate interests as inequality grows.

*Lisa Savage is the ONLY Senate candidate for:*

- Medicare for All
- A Green New Deal
- Ending endless wars
- Big money out of politics

WANT REAL CHANGE?

**#RankLisaFirst**

*For too long, the established two-party system has **strong-armed** people to vote for the “lesser of two evils.” We’re told that voting for the best candidate may allow the worst to win.*

*Ranked-Choice Voting changes all that. With RCV, you can consider all the candidates, and vote for the ones you like most, in the order you prefer. **You can vote your hopes, not your fears.***
