

South Massachusetts Avenue Corridor Safety Improvements Project

COMMUNITY MEETING #2

Tuesday, June 19, 2018

To improve safety and reliability for users of the street, the City of Cambridge is proposing “quick build” changes to Massachusetts Avenue from Sidney Street to Memorial Drive with an emphasis on increasing the comfort and convenience of people walking, biking and riding buses. This project supports the City’s Vision Zero goal to reduce and eliminate serious injuries/fatalities from crashes, as well as City policies that promote the use of sustainable ways to travel in Cambridge.

We encourage you to attend this second public meeting to learn about the plan which includes separated bicycle lanes, sections of bus priority lanes and a new crosswalk.

COMMUNITY MEETING #2

Tuesday, June 19, 2018, 6:00 - 8:00 PM

MIT – Room 32-124

32 Vassar Street, MIT Building 32 (Stata Center)

Directions may be found here: <https://whereis.mit.edu/?go=32>

After a brief presentation on the project background and design progress, there will be extended time where attendees will have a chance to discuss the plan details and issues and concerns about the corridor. Staff will be available to take input and answer questions.
