Dear Local Motion,

Thank you so much for allowing my class to have the memorable experience of biking during Language Arts. Thanks to you providing bikes and helmets for our class we were able to witness some beautiful natural art. This field trip was one that we will all remember, all because you made it possible. I know that everyone in my class was incredibly grateful for your contribution to our Journalism field trip, and it's thanks to you that we have lots of stories to report on!

Along with being a great experience it was also great exercise for everyone. Thanks again for allowing us this unforgettable experience!
Dear Local Motron,

Thank you so much for bringing the bike trailer to my school PHTMS. Although I didn't use a bike or helmet from the trailer, as I had my own, I know so many people that were very happy with giving them the opportunity to ride a bike even if they were not very good or they did not have one. I think it is a very important skill to learn/know, and generous of you to give a lot of kids that opportunity.
Dear Local Motion
Thank you for coming to our school and letting us use your bikes. I really enjoyed riding a bike up to the UVM field because it's something I don't normally do. I also really liked that you had helmets for kids that don't have any. I also liked that you had different bike sizes and types of bikes. I also really like that you come around to schools to get kids out of classrooms.
Dear Local Motion,

Thank you so much for providing bikes for my 8th grade team. Your bikes worked perfectly. We are very grateful you brought your bikes. We loved using them for our field trip. Your bikes really added a touch of exercise, independence and fun to our trip. Hope to use them again in the future.
Dear Local Motion,

I want to thank you for allowing and enabling us to get out of school and do some outside activities. It's not often that we can get out of the classroom and do things other than fire drills. I really liked the bike trip because I got to bike with kids that go to my school that I normally don't do things with. I enjoyed having a bike trip and racing my friends down the hills. I found this bike trip worth while because we were able to leave the school and do activities and learn at the same time. Thank you for letting us have this opportunity.
Dear Local Motion,

Thank you so much for the bikes. I know everyone was thankful for the bikes. I was especially thankful because we got out of school and I got to use up some of the energy that I have stored. The bikes were really good shape too. Overall I thought it was really cool that you came to our school.
Dear Local Motion,

Thank you for lending Fhtms your bikes!
As a student I spend a lot of time indoors at a desk. At home, I like to go for bike rides almost every day, and as school starts and the weather gets colder, I find myself going out less and less.

I know that some people in my grade don't own a bike or get it to school easily, and if you didn't lend us your bikes we wouldn't be able to bike to our field trip. Personally, I would rather bike than take the bus, and it got many people out of the school and exercising, who might not have otherwise.

Thank you and keep up the good work!
Dear Local Motion, I would like to thank you guys for allowing FATMS to use your bike trailer Oct. 20-25th. I think it's really awesome that you're doing this. I know a lot of kids really enjoyed the bike ride, it was fun doing something that some of us may not have had time to do this summer. Some of us hadn't gone this route before and it was super fun, zooming down Dorset Hill! I really like biking with other people and my family didn't bike much this summer as much as I would have liked. It was nice biking with others Friday. I hope you guys continue what you're doing and give others chances to do this too.
Dear Local Motion,

Thanks for bringing the bike trailer to FHMS. It was very fun to get out of school and bike. My favorite part of the bike ride was being able to go away from school & glide along the ground on a bike.

Thanks.

PS Come back here a couple times in the spring.
Dear Local Motion,

Thank you for bringing the bike trailer to FITMS and letting us use the bikes as well as helmets. We used the bikes to go on a small field trip to see art in a corn field. I personally enjoyed riding bikes as well as my peers. It let us take a break during the day and be active which I like doing. It was better to bike to the spot than just take the bus because it was like a brain break before and after the observations and notes we took and a chance to get some fresh air. Something that I remembered was biking up all of the hills on Dorset Street and when we were finished going back and going fast down all the hills without barely having to pedal. It was a fun bike ride for me.
Dear Local motion,

Thank you for giving us the opportunity to get to ride yours bikes. It was a fun experience to get to ride a bike around to school. I also got to explore new places around the school.
