ABOUT LOCAL MOTION AND ITS PROGRAMS

Local Motion (localmotion.org) is Vermont's statewide advocate for active transportation, vibrant communities, and safe streets. Based in Burlington Vermont, we work at the local and state levels to advocate for better roads and trails for biking and walking, teach bike skills training programs for children and adults, collaborate with government to improve on-road safety, and inspire and support local advocates across Vermont to become leaders for better biking and walking in their communities. We also rent bikes from our Trailside Center and operate the Island Line Bike Ferry connecting the Burlington area to the Champlain Islands.

Safe Routes for All (SRFA) is a program designed by Local Motion as a holistic approach that starts with schools, and is translated into the broader community. Beginning with students and school programming around walking and biking, school travel plans, activities, and competitions, SRFA strengthens and targets this student-based work in a way that engages teachers, parents, and ultimately community decision-makers. In doing so, the broader community becomes engaged in identifying, planning, testing, and creating the infrastructure and culture that will allow a community to safely choose walking and biking. Integrating this work beyond schools means that biking and walking can become an integral part of a community now and for life.

SRFA operates as a distributed leadership model, with Local Motion at the center offering a menu of resources, services, and assistance to communities. In time, a network of advocates across the state, assisted by Regional Coordinators, will be trained and supported to lead local initiatives and make change in their towns. SRFA will also connect advocates from across Vermont to learn from each other and advance their work in a peer-supported environment, with Local Motion providing structure, opportunities to convene and learn, as well as materials and tools.
