Petition: For the Love of Queensland

The Queensland election is likely sometime in the next few months. But political parties in Queensland still aren't standing up for our food and water, our health, or our thriving agricultural industries. If you love Queensland, join us to make sure the mining and gas giants don't wreck it for the rest of us. Sign the petition asking your state candidates and state political party leaders to:

1. Protect our food and water.
2. Stop risking people's health.
3. Make the miners clean up their mess.
4. Ensure a sustainable economy.
