

DO YOU WANT GASFIELDS IN OUR SOUTH WEST?

The State Government has approved a new gas exploration permit (EP 496) for the South West, covering the shires of Capel, Dardanup, Donnybrook-Balingup and parts of the cities of Bunbury and Busselton (see map).

If this project gets the go-ahead we could see the region transformed into an industrialised gasfield. Our precious groundwater and existing industries like farming and tourism could be damaged forever by this dirty and risky industry.

Landholders have no right to say No to gas companies accessing their land and disrupting their livelihoods.

Let the Government know what you think.

Join us:

- **Sunday November 5** for a **Peaceful Protest** outside the community meeting of the Regional Cabinet in Bunbury. Meet at the **Bunbury Regional Entertainment Centre** at **2pm** for a march and rally.
- **Public Meeting** to protect our land, water and health.
Tuesday, November 21, Dardanup Sporting & Community Centre, Ferguson Rd, Dardanup, 6pm.

Further information: Jane Hammond, Lock the Gate 040 392 6467

Gas leases cover a large swath of the South West and Peel from just south of Mandurah to Margaret River. The government also revealed in June that it would reopen the area near Brunswick to gas exploration and mining in 2020-21.
