

Naloxone Kits

- **There is a new program out called N-CAP. It is designed to make getting Naloxone kit easier to prevent an opioid overdose. People can go to a pharmacy and get the kit. Below is a link to the list of pharmacies.**

- **(10am) Office of Drug User Health - Naloxone Co-payment Assistance Program (N-CAP)**
 - Co-pays up to \$40 per prescription will be billed to N-CAP, not to the individual getting naloxone.
 - No individual enrollment is necessary.
 - Pharmacies participating in the New York State AIDS Drug Assistance Program are eligible to participate in N-CAP.
 - Only the following naloxone formulations are eligible:
 - Narcan® nasal spray (4mg/0.1 mL); NDC 69547-0353-02
 - Naloxone used for intranasal administration (1 mg/1 mL in 2 mL Luer-Jet™ pre-filled glass syringes); NDC 76329-3369-01
 - Naloxone for intramuscular injection (0.4 mg/mL in 1 mL single-dose vials); NDCs 00409-1215-01 , 67457-0292-02, and 00641-6132-25
 - Your primary health care coverage may limit the monthly amount of naloxone that will be covered.
