

## REPLACE WELFARE: CUT TAXES

The bulk of your welfare tax dollars go to pay the handsome salary of well-educated welfare workers. The poor get little from government welfare except meager hand-outs and a cycle of despair. Let's get government out the charity business. Private charities and groups do a better and more efficient job of helping the truly needed get back on their feet.

## WHY AN INCOME TAX?

The U.S. government did not try to police the world or play "nanny" to everyone from cradle to grave. People took responsibility for themselves, their families, and their communities. That is how the founders of America thought it should be. And it worked! It can again!

Before 1913, federal income taxes were rare and short-lived. America became the most prosperous nation on earth.

## IT'S TIME FOR ACTION

Republican and Democrat politicians have refused to reduce the size or cost of government. So we need your help to build a powerful new political party to get the job done - the Libertarian Party! If you agree, please use the attached form to join the Libertarian Party or to request more information.

YOUR NEW CHOICE IN POLITICS

# JOIN THE LIBERTARIAN PARTY!

**YES**, sign me up as a member of the Libertarian Party. To validate my membership, I certify that I oppose the initiation of force to achieve political or social goals.

## WORKING TO SLASH YOUR TAXES

The Libertarian Party is working every day to cut your taxes. By contrast, professional politicians from the other parties just want more of your money, and are busy increasing the size of government.

No area of your life or business is free from the meddling of politicians - especially your wallet. It doesn't have to be that way. With less government and lower taxes, you could keep more of what you earn.

In the last few decades, the federal government has exploded in size.

## JUST DEFEND OUR RIGHTS

Libertarians believe that if government's role were limited to protecting our lives, rights and property, America would prosper and thrive as never before. Then the federal government could concentrate on protecting our Constitutional rights and defending us from foreign attack. A federal government that did only those two things could do them better and at a small fraction of the cost

... the fact is, every service supplied by the government can be provided **better and cheaper** by private business!

## HOW CAN WE CUT TAXES?

Instead of tending to the basics, government has grown into a bloated conglomerate of political services that gets larger every year - with no end in sight.

For example, politicians spend millions of dollars to urge people not to smoke - while spending more millions to subsidize tobacco farmers. They send billions overseas for foreign aid - while the federal deficit swells. They spend millions to subsidize public art - while working families struggle to pay their taxes.

Politicians also run trains, bail out savings and loans, construct houses, sell insurance, print books, and build basketball courts - you name it! But the fact is, every service supplied by the government can be provided better and cheaper by private business!

# THE LIBERTARIAN PARTY

Works every day towards lowering your taxes.

## PRIVATIZE AND CUT TAXES

All over the world, governments are busy selling airlines, power plants, housing and factories to private owners. Where inefficient government bureaucrats lost money and squandered tax dollars, hard-working private owners now make a profit and create new jobs. Why can't we do the same thing in America?

## DEFEND AMERICA: CUT TAXES

Military expenses are over \$450 billion a year. A large percentage of this is spent overseas to defend wealthy countries like Germany and Japan - who then wallop us in international trade.

Let's take them off military welfare. We can defend America better and save at least \$100 billion a year in taxes.

## STOP BAILING OUT INDUSTRY

No one has the right to cover his losses at taxpayer expense - and yet wealthy corporations demand exactly that. The federal government has bailed out railroads, banks, and other corporations with our dollars. This must stop!
