

Moderation of Social Media Pages and Groups, Websites, Blogs, Online Forums and other Online Assets of the Libertarian Party of Nevada

The Libertarian Party of Nevada (LPNevada) owns the rights to our social media pages and groups, as per their respective Terms of Service.

LPNevada unconditionally owns our website, blog, forums, and other internet content.

LPNevada views social media and internet content as marketing assets, much like billboards, print, or other media advertising.

The topics of conversation should be aligned with the goals and objectives set forth by party leadership. Off topic posts, personal attacks, spam, or other content which the admins do not believe is productive to promoting libertarianism will be considered vandalism, and deleted. Repeated violations will lead to banning.

Our content is for the benefit of members of LPNevada, prospective members, libertarians and Nevadans first. Users from outside of Nevada will not be given as much consideration as in state users.

As adopted on August 12, 2015
