

It's time you had a **real choice** in North Carolina's important issues.

	Libertarians...	vs.	Democrats...	vs.	Republicans...
Respect for every person's opportunity to define and pursue their own happiness	☺ Believe you should make choices about your life and your happiness.		☹ Believe government should enforce social standards and manipulate your personal economic activity.		☹ Believe government should enforce traditional social values and limit your individual civil liberties.
Respect for your personal privacy and integrity	☺ Require substantial, transparent, impartial safeguards before government can invade your privacy, collect your personal data, or limit your freedom of association or movement.		☹ Create a surveillance state to monitor individuals.		☹ Create a police state to intimidate individuals.
Respect for your labor and financial security	☺ Embrace opportunities for you to build a prosperous life for yourself, your family while strengthening your community.		☹ Enforce a regulatory environment that stifles innovation and opportunity.		☹ Promote a business environment that limits economic mobility.
Respect for education and educators	☺ Promote 21 st -century education options—giving your children the best opportunities for success while offering our talented, hard-working teachers a fair market wage.		☹ Impose a standardized, centralized system that does not recognize individual students' needs or achievements.		☹ Impose an unresponsive, antiquated system that does not prepare children for the challenges of tomorrow.
Respect for the environment	☺ Utilize property rights to create strong incentives for individuals and corporations to act responsibly—with a legal framework for redress if they do not.		☹ Funnel resources to select programs favored by special interests, regardless of negative effects.		☹ Create legal frameworks that excuse poor behavior and encourage abuse by powerful corporations.
Respect for others in need	☺ Harness the power of all of us to address issues in ways that work effectively in our communities.		☹ Create vast bureaucracies for politically motivated purposes.		☹ Favor select organizations based on political sympathies.
Respect for our military	☺ Reserve a capable military to defend our country should we be attacked.		☹ Engage in countless interventions to manipulate other societies.		☹ Engage in endless wars to manipulate global politics.
Respect for your personal defense and safety	☺ Recognize the right of all responsible Americans to defend themselves and their families.		☹ Disarm individuals in favor of state-sponsored control.		☹ Show tepid support when it is politically advantageous.

Are you tired of supporting the same two parties, only to watch the same bad policies continue to make things worse? Are you looking for a better way for people to live together while promoting a free, peaceful and prosperous community? If you want representatives who respect people, and don't just "play politics," it's time to consider the Libertarian Party.
