MISSION

To work towards the sustainability of Lesser Slave Lake and its Watershed for the economic, social and environmental benefit of future generations.

GOALS

1. Improve the quality of water in the lake and its tributaries for domestic, fishery, recreation and other beneficial uses.
2. Improve the health of aquatic environments in the watershed.
3. Minimize lake sedimentation from human sources.
4. Improve the health of the watershed.
5. Increase public awareness and understanding of the watershed.

WHY BECOME A MEMBER??

The LSWC would like to encourage people to play a more active role in becoming stewards of their watershed.

By becoming a member of the LSWC you will receive newsletters, updates and annual reports electronically which will keep you up to date on watershed issues and projects that the LSWC is undertaking.

The LSWC often looks to members to volunteer some of their valuable time to help with projects like water sampling, workshops, awareness, and educational activities.

If you share a passion for the environment and our watershed and would like to play a role in keeping it healthy and beautiful for future generations then becoming a member of the LSWC and keeping up with local issues and projects is a good way to start!
