## Current Map

These cross-filed bills reflect the work of the [Emergency Commission on Sixth Congressional District Gerrymandering](#) which was tasked with redrawing the Sixth Congressional District after Maryland's Federal District Court found unanimously that the district had been gerrymandered for partisan gain in a way that violated citizen's rights to express their political views through their vote.

We agree and believe this suppression of voters is wrong.

We support the work of this multi-partisan commission to restore these rights and ask you to tell your legislators to SUPPORT SB 1050 and HB 1430 TODAY!
