The League of Women Voters: Celebrating 100 Years

The League was officially founded in Chicago in February 1920, just six months before the 19th amendment was ratified and women won the vote. Formed by the suffragists of the National American Woman Suffrage Association, the League began as a “mighty political experiment” designed to help 20 million women carry out their new responsibilities as voters.

In her address to the National American Woman Suffrage Association’s (NAWSA) 50th convention in St. Louis, Missouri, in 1919, President Carrie Chapman Catt proposed the creation of a league of women voters to “finish the fight” and aid in the reconstruction of the nation. And so a League of Women Voters was formed within NAWSA, composed of the organizations in the states where women suffrage had already been attained.

Since its inception, the League has helped millions of women and men become informed participants in government. In fact, the first league convention voted to separate items as statements of principle and recommendations for legislation. Among them were protection for women and children, rights of working women, food supply and demand, social hygiene, the legal status of women, and American citizenship. The League’s first major national legislative success was the passage of the Sheppard-Towner Act providing federal aid for maternal and child care programs. In the 1930s, League members worked successfully for enactment of the Social Security and Food and Drug Acts. Due at least in part to League efforts, legislation passed in 1938 and 1940 removed hundreds of federal jobs from the spoils system and placed them under Civil Service.

During the postwar period, the League helped lead the effort to establish the United Nations and to ensure U.S. participation. The League was one of the first organizations in the country officially recognized by the United Nations as a non-governmental organization; it still maintains official observer status today.

THE LEAGUE OF WOMEN VOTERS IN FREDERICK COUNTY

In Frederick, it started with a woman named Ruth Hallo Landman. An excellent student, she graduated Phi Beta Kappa from Vassar College at age 20, studying anthropology under Ruth Benedict and Margaret Mead. She married another refugee from Germany, Otto Landman, in 1948, and joined him at Yale for graduate study. Landman earned a master’s degree and doctorate in anthropology while her husband earned graduate degrees in chemistry and microbiology. The family moved to Frederick when Otto accepted employment at Fort Detrick as a geneticist.

While living in Frederick, Landman, then a mother of three, helped to found Frederick’s chapter of the League of Women Voters. She served as the chapter’s first provisional president from 1959-1960. She was a “Fort Detrick wife,” one of many women who moved to Frederick County because of their husbands’ work at the Army base. Many of the wives were young mothers and participated in civic organizations to improve the education of their children.

Frederick’s League was formally founded on March 31, 1960. Men became members in 1974 and Lord Nickens, the noted civil rights leader in Frederick, was the first African-American to join the League. Today, Frederick’s League has approximately 100 members. One of the Frederick League’s earliest initiatives focused on improving voter services, such as lobbying the county to offer locations beyond downtown Frederick to register to vote. The League continues to emphasize the importance of voting by registering voters at high schools and colleges by publishing a voters’ guide for every election.

In 1973, Frederick Community College’s faculty and the county Board of Education were deadlocked in contract negotiations. The faculty declared a work stoppage and were fired. The League hosted public forums to inform the public, and reached out to the faculty and members of the board. At that time, the Board of Education oversaw the entire public system of education, including the community college. The League conducted a study and determined that Frederick Community College should have its own board of trustees. Its recommendation was accepted.

Victims of sexual assault have access to health care in Frederick in part because of the leadership role the League played in pressuring Frederick Memorial Hospital to change its policies. In 1977, a rape victim had gone to the hospital for treatment but had been denied an examination to gather legal evidence. Instead, she was taken to Washington County.

The denial of care led to months of public opposition with many groups protesting hospital policy. At the forefront of the protest was the League of Women Voters of Frederick County, which lobbied the hospital’s board and published materials in the local newspaper. The hospital changed its policy and began to provide the specialized training that was required.

Recently, the League focused on issues such as the privatization of Citizens Care and Rehabilitation Center and Montevue Assisted Living, changes by county government in land use development policies, immigration and ethics in government. For decades the Frederick League has monitored public officials for unethical behavior, promoted greater transparency and decreed the weak supervision of ethics in politics. It pushed for a stronger code of ethics for public officials.

The League recommended the formation of a nonpartisan Ethics Commission whose members would periodically evaluate the adequacy of the ethics law and distribute information to employees and officials.

**PRESIDENT OF THE UNITED STATES**

Ground Rules for Presidential Candidates

Criteria for Participation in VOTE411.org: All presidential candidates who will appear on Maryland’s ballot are listed below. The League of Women Voters of the United States, through the League of Women Voters Education Fund (LWVEF), established criteria to determine which candidates to invite to respond to questions for the Voters’ Guide.

- Candidates qualified for invitations from LWVEF to provide responses to specific questions if they met the following criteria: 1. The candidate must have made a public announcement of her/his intention to run for President; 2. The candidate must have met the Presidential Election Campaign Fund Act’s minimum contribution threshold requirements for qualifying for matching funds, based on the most recent data publicly available on the Federal Election Commission’s website.
- Responses were limited to a specific number of characters and were truncated thereafter.
- If a candidate did not respond by the date of publication, “No response received by deadline” is printed.

**NOTE:** In addition, please note that voters cast a ballot for candidates in only one party during the primary season. LWVEF is required to have at least two candidates for President from the same party meet the above criteria before launching a Voters’ Guide covering that party. At this time, only one candidate running for the Republican Party’s nomination for President has met the LWVEF criteria listed above. Therefore, no Republican presidential candidates have yet been invited to participate. As soon as any two Republican candidates meet the criteria or the party’s national nominating convention occurs, LWVEF will invite the qualified candidate(s).

The list of all candidates who will be on the ballot in Maryland is printed below. Candidates’ responses can be found at VOTE411.org.

**ABOUT THE OFFICE OF U.S. PRESIDENT**

**Term:** Four years. Limit of two terms.

**Base Salary:** $400,000 per year.

**Duties:** The President is: the head of state of the United States of America; the Chief Executive Officer; and, the Commander in Chief of all military forces. The powers of the President are prescribed in the Constitution and federal law. The President appoints the members of the Cabinet, ambassadors to other nations and the United Nations, Supreme Court Justices, and federal judges, subject to Senate approval. The President, along with the Cabinet and its agencies, is responsible for carrying out and enforcing the laws of the United States. The President may also recommend legislation to the United States Congress.

**CANDIDATES WHO WITHDREW OR WHOSE CAMPAIGNS WERE SUSPENDED:**

Michael Bennet, Michael Bloomberg, Cory Booker, Pete Buttigieg, Julian Castro, Tulsi Gabbard, Amy Klobuchar, Deval Patrick, Bernie Sanders, Tom Steyer, Elizabeth Warren, Marianne Williamson, Bill Weld and Andrew Yang.

**CANDIDATES IN MARYLAND**

The League of Women Voters of Frederick County produce this guide in partnership with The Frederick News-Post for use in the upcoming Frederick County Primary Election to be held June 2, 2020.

The League of Women Voters is a nonpartisan organization that works to promote political responsibility through the informed and active participation of citizens in government. The League neither supports nor opposes any party or candidate. Nothing in this guide should be interpreted as an endorsement of the League of Women Voters.

The Voters Guide contains only the names of the candidates on the official ballots as certified by local election officials. All candidates for office were sent identical questionnaires. Candidates’ answers appear as submitted and have not been edited by the League or the News-Post. Although the utmost effort is made to ensure accuracy, the League of Women Voters and The News-Post can assume no liability for errors or omissions.

To read all candidate statements, including those not available in this guide, visit www.vote411.org.

**PARTY PRIMARIES IN MARYLAND**

Party Primaries in Maryland are “closed” primaries. You must be registered to a political party to participate in that party’s primary election, though all voters may vote for the non-partisan race of Board of Education.

If you have not previously registered to vote, or wish to register with a party in order to vote in that party’s primary, you may do so online until Tuesday, May 27.

**MAILING OF BALLOTS**

All registered voters will be mailed a ballot in early May and must mail it with a postmark of June 2, 2020 in order to be counted. The postage on the ballot return envelope is already paid; no stamps are needed. You also have the option of returning it to a Frederick County Vote Center between May 21- June 2. There will be a drop box for you to deposit your ballot at both locations.

**ELECTION DAY**

Due to social distancing restrictions, voters are highly encouraged to return ballots by mail or to a county vote center drop box. There will only be very limited in-person voting. If you have a disability and need assistance to vote, vote centers will be available from 7 am to 8 pm at:

- Talley Recreation Center, 121 N Bentz Street Frederick, MD 21701
- Urbana Library, 9020 Amelung St, Frederick, MD 21704

**NOTE:** Due to candidates withdrawing from the election, your ballot will have more names on it than are currently seeking office. All candidates who will appear on your state’s ballot are listed, but only those that meet the criteria shown opposite were invited to respond to the League’s questions in this guide.
U.S. REPRESENTATIVE
District 6

Term: Two years
Base Salary: $174,000 per year.
Duties: Representatives make laws along with the members of the Senate, and may conduct investigations on issues of national importance. Laws that impose taxes always begin in the House of Representatives. Representatives can recommend that the Senate remove from office a public official accused of a crime.

How Elected: Elected by voters in each congressional district. Maryland has eight of the 435 Representatives, based on the state’s population in the 2010 Census.
Website: www.house.gov

QUESTIONS

GOALS: Why are you running for this office?
IMMIGRATION: What, if anything, would you change regarding immigration policy?
HEALTH CARE: Would you vote to continue the Affordable Care Act as it is, expand it, or eliminate it? Please explain.
ENVIRONMENT: What should be the federal government’s role in addressing national and global environmental concerns?
GUN SAFETY: What policies do you propose to reduce gun violence?
ECONOMY: How would you address the growing income gap in our society?
DISCRIMINATION: What initiatives would you propose to address bias based on race, gender identification, sexual orientation, religion, or disability?
STUDENT LOANS: What actions would you support to reduce burdensome student loan debt?

REPUBLICAN CANDIDATES

Kevin T. Caldwell

GOALS: To offer my fellow citizens (my country) the opportunity to have a Rep. who will perform their most basic duty, protecting you from those who would use your Government against you. To defend the ideas & principles that my father (Vietnam), my wife & I (Post 9/11) have served & sworn to protect. I am running because I understand that my freedom is directly related to yours.

IMMIGRATION: Secure our borders. End sanctuary cities for violent criminals. Protect Americans by ensuring those who come into our country mean its citizens no harm. After securing the nation, we must focus on dealing with those who have been in the country already.

HEALTH CARE: I would end the Affordable Care Act. We need to move this sector of our economy back to market-based solutions. We must allow the consumers to control the $3.6 trillion spent on health care, not Gov. officials & special interest. Like all resources, either we decide through our choices their cost & allocation or others decide for us.

ENVIRONMENT: No response received by deadline.

GUN SAFETY: No response received by deadline.

ECONOMY: No response received by deadline.

DISCRIMINATION: No response received by deadline.

STUDENT LOANS: No response received by deadline.
Chris P. Meyyur

**GOALS:** I care about our future as a nation. I run to act on the issues that will help the middle class and to end hostilities in Asia and bring troops home. Invest eight trillion dollars on domestic priorities. My priorities are bringing the cost of college education down and wipe out portions of student debt and bring tax burden of families making less than 300K. Strengthen public education.

**IMMIGRATION:** No change is needed.

**HEALTH CARE:** ACA needs to be revised and improved. My goal is bringing a third medical school to Maryland. I envision a large medical university and VA hospital closer to Fort Detrick and National Cancer Institute in Frederick. I will strive to remove various barriers to improve the healthcare delivery.

**ENVIRONMENT:** Clean air, land and water is essential for us and future generations to come. I will support following actions. Chesapeake Bay Regional Authority will be established to mitigate and clean our land and waterways and restore the ecosystems with 5 billion dollar investment over a decade.

**GUN SAFETY:** I am very sensitive on this topic as my son’s friend and his sister and mother were murdered by his father. Second Amendment Rights must be protected and so we need to come together with an understanding and consensus on measures to prevent mass killings.

**ECONOMY:** The worst case of income gap is homeless working people and homeless veterans. I will introduce variable minimum wage based on data points with the e-verifiable process.

**DISCRIMINATION:** There are 6 billion people live in the world and they are different in so many ways. We could solve the bias with mutual respect and understanding rather than by legal force. I will make Non Disclosure Agreement (NDA) waivered if aggrieved party decides so.

**STUDENT LOANS:** Will bring the cost of college education down and wipe out portions of student debt. Out of State tuition will be abolished across the board in Public Universities with federal reimbursement. Rural Americans will be recognized and designated as a diversity population for Affirmative Action in college admission. 529 plans will be federal and state tax exempt allowing parents to save tax free.

Neil C. Parrott

**GOALS:** Washington DC is a mess. District 6 needs a representative who lives in the District and who will work to improve our community and our country. I care about our nation and want to ensure that our children, that future generations, will have the same opportunities and freedoms that we enjoyed. Instead of playing political games, I’ll work for you to bring common-sense, practical solutions to D.C.

**IMMIGRATION:** Existing immigration laws need to be followed. Lack of immigration enforcement and a porous southern border have led to suffering from gangs like MS 13 who terrorize our District, opioid and fentanyl deaths, and increased human trafficking. Sanctuary cities need to be stopped, the border wall needs to be constructed, and companies who take advantage of illegal aliens should be heavily fined.

**HEALTH CARE:** The Affordable Care Act is anything but affordable. Since passing, health insurance, health care, and prescription drug costs skyrocketed. The quality of care has also degraded; when did you last see a real doctor instead of a PA? Our country can do better by repealing and replacing Obamacare by using free market solutions that will bring costs down and increase quality of care.

**ENVIRONMENT:** The primary world polluter is China. They dump over 96% more plastic into the ocean than the US and contribute the largest percentage of the world’s CO2. Given that, the US should not sacrifice our manufacturing jobs to countries that do not have effective environmental laws. Trade laws as a negotiating tactic to get China and other countries to pollute less.

**GUN SAFETY:** Access to firearms is guaranteed by the 2nd Amendment. Our country has a violence epidemic. A major cause of the problem is that we no longer adequately treat the mentally ill as we should. Instead, they often live untreated until they commit an act of violence. Jails have been turned into our new insane asylums. Our jails should be for the career criminals who terrorize our communities.

**ECONOMY:** The American experiment has worked and is working. Our economic system is based on the government valuing property rights and providing a fair playing field so that everyone has the chance to succeed. Our system allows people to pursue their own individual goals, where incentives are provided to invest, to take risks, to work hard, or to acquire new skills.

**DISCRIMINATION:** Martin Luther King indicated that, “I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character.” It’s time for government policies to embrace this concept. For example, merit should be used to decide who receives government contracts and to decide who is accepted into AP classes.

**STUDENT LOANS:** Education. As a member of the Maryland House of Delegates, I manage a college scholarships program. When 1st year students apply, I ask them to read finance materials and to write a paper about the effect of college debt. Unfortunately, schools aren’t teaching our students proper financial literacy, and this year I’ve introduced a bill to require financial literacy to be a part of the curriculum.
GOALS: I’m running for reelection because we need people in Washington who think long-term and are committed to helping America’s most vulnerable. While we have made strides towards this goal, we must do more to end the opioid epidemic, reform our criminal justice system, and ensure every child receives a quality education. I’m committed to remaining in this fight for people.

IMMIGRATION: Immigrants are vital to maintaining the success and spirit of our nation. I support comprehensive immigration reform, and I was proud to help the House of Representatives pass H.R. 6, the Dream and Promise Act, which would protect our Dreamers and those granted Temporary Protected Status. I will continue to work against inhumane and cruel policies such as travel bans and family separation.

HEALTH CARE: The ACA helped millions of people access care, and it has played a crucial role as a step toward universal coverage. While we work to stop the Administration from sabotaging it, we also need to work to build a healthcare system that lives up to our values and guarantees healthcare as a human right. I support allowing every American to buy into Medicare, creating a universal background checks, closing the gun show loophole, banning bump stocks and military-style assault weapons. We also need to take the power back from the gun lobby.

ECONOMY: The Trump administration’s tax cuts for America’s most wealthy do nothing to improve the lives of working Americans. We need to reverse the Trump tax cuts and write a more equitable tax code to ensure that the wealthiest Americans pay their fair share. I was also proud to support the Raise the Wage Act in Congress, which would raise the minimum wage to $15 an hour.

DISCRIMINATION: I am a proud co-sponsor of the Equality Act, which provides non-discrimination protections for LGBTQ+ people in the areas of employment, housing, credit, and education among others. It’s time for the Senate to take a vote and ensure that we protect the rights of our minority communities.

STUDENT LOANS: I took out student loans to help finance my education, and as the only Member of Congress from Maryland serving on the Education and Labor Committee, I’m committed to reforming our education system and reducing student debt.

REPUBLICAN CANDIDATES

Gregory Thomas Coll

GOALS: I am happy to announce my run for U.S. Congress Maryland District 8 to represent the people. Work in Washington is at a standstill; I want to stop the distractions and keep focus on the key issues impacting Americans including employment, budget, healthcare, education, environment, military and defense, gun violence, and the national space policy.

IMMIGRATION: I want to promote and welcome legal immigration and put a stop to illegal border crossings. Passing legislation to up the legal immigration caps, and making it simpler for legal immigration processing is key; especially when the individuals have studied in the U.S. and have employment sponsored support. I want to attract the best people from around the world.

HEALTH CARE: No, I believe patients should come first in U.S. healthcare. Healthcare systems run by governments are inefficient, reduce standards of care, and diminish patient and physician relationships. Healthcare based in free market principals, promotes competition, drives down costs and gives the power to patients and physicians. Flexible Spending Accounts unspent money should roll over.

ENVIRONMENT: Our environment needs to be conserved and maintained for future generations. I, Gregory Coll want to study and address environmental concerns, stop pollution, and stop over-stressing our natural resources, especially marine resources like fisheries. I, Gregory Coll, believe climate change is real and needs to be addressed rationally and with an associated risk and return posture.

GUN SAFETY: I want to support local police stop criminal activity and crack down on illegal possession of fire arms, without sacrificing law abiding citizens’ rights to bear arms. For more information please visit www.gregorycoll.com.

ECONOMY: I believe in equal rights, equal justice, and equal opportunity for all, regardless of race, creed, sexual orientation, religion, or disability. Stopping bias based programs will help eliminate discrimination. For more information, please visit www.gregorycoll.com.

DISCRIMINATION: I believe that the cost of college education is on an increasing trajectory, has been rising ahead of inflation year after year, and needs to be more affordable for students. Cooperation between industry, government and higher education institutions will allow more resources for education and lower tuition for students, reducing student loan debt.

STUDENT LOANS: I believe that the cost of college education is on an increasing trajectory, has been rising ahead of inflation year after year, and needs to be more affordable for students. Cooperation between industry, government and higher education institutions will allow more resources for education and lower tuition for students, reducing student loan debt.
**GOALS:** This is my second time running for office in District 8. I received my B.M. from East Carolina University, and MBA from Strayer University. I am a single parent, I work over 40 hours per week for a small business in Montgomery County, I am an entrepreneur and classical singer. I have a passion to serve others, and help to make a difference where I can. I have been a teacher aide (or teacher aide) for a state or local government agency.

**IMMIGRATION:** My father’s family came to the United States, with a love for their country, yet still seeking more opportunities. My goal is to reduce the red tape and the amount of time it takes to process paperwork that will help immigrants become citizens of the United States. The entire process needs to become more efficient and effective regarding securing our boarders, and the road to U.S. Citizenship.

**HEALTH CARE:** I have seen both sides up close. When it was introduced the first time I did not have healthcare, and I went without it so my daughter could have it. I was grateful that I could finally be covered. Spend more on preventative health treatment, reduces the rising cost of prescription medications, eliminate negative predatory practices by insurance companies creates an increase in pricing.

**ENVIRONMENT:** Reducing pesticides that affect our health creating which impacts our health care costs, work together with other states to find effective ways to reduce global warming. This also includes the impact of technology, our carbon footprint and gaining a global perspective on how counties can work together to reduce negative environmental concerns.

**GUN SAFETY:** Working together with groups such as the NRA, state and local lawmakers. I out of 4 people will not know someone who has been affected by gun violence. We need to look at all of the loopholes that are already there and fix those. We need to have input from responsible gun owners and understand that we have to compromise in order to produce policies to reduce gun violence.

**ECONOMY:** Better paying jobs, paying people their worth, access to education and better paying jobs.

**DISCRIMINATION:** Educate businesses on what it looks like, and how it negatively affects, communities, workplaces, and services in our society. A person has no control over what race they are, what gender they are when born or their disability, but our initiatives need to be focused on being responsible regarding how we introduce policies and the steps we need to take.

**STUDENT LOANS:** Limiting funding for loans for students (only get what you need). Repaying loans while in school if possible. Creating opportunity for people to reduce student loans in a variety of areas, such as volunteering, assisting law makers, and offering creative incentives for students who make payments towards their loan debts. Pay loans back based on the income and household expenses.

---

**GOALS:** For a multitude of reasons but in district 8 we have real problems and we have elected officials who refuse to see or listen to their constituents.

**IMMIGRATION:** Sanctuary cities and the crime it gets implemented with due to the policies of the federal government are not followed. We see numerous times when rape and sex trafficking skyrocketed when a city becomes a sanctuary city now we have Sanctuary states trying to be an enacted. We should follow the federal law and anyone that breaks or prevents prevents a detainer hold should be placed under arrest.

**HEALTH CARE:** I agree with the Affordable Care Act.

**ENVIRONMENT:** I believe we do have a problem with the environment but I do not believe he have any answers to the problem. We need more subsidies for companies moving to Green energy and zero carbon emission.

**GUN SAFETY:** Gun violence as result of overexposure to media and psychological problems. But lets not get for the technology we have nowadays that we didn’t have before and how it results to bullying. Bullying is a huge factor in school shootings and if we can stop bullying we might be able to stop a lot of school shootings.

**ECONOMY:** We need to be able to give people the opportunity at a reasonable college or a reasonable loan to start a business. Not everyone is going to do well going to college some people would like to go to trade schools and we need to be able to give them that opportunity.

**DISCRIMINATION:** No response received by deadline.

**STUDENT LOANS:** I believe we need to have a cap on the percentage on loans especially if it’s not federally guaranteed loans. 6% to 8% on college loans and 3–4% on trade school loans.

---

**GOALS:** I am running because we need more women in Congress, as we are working on things get done and partisan issues become solved instead of becoming problem.

**IMMIGRATION:** I do not want to see sanctuary cities in Maryland, that violates federal laws and protect criminals and drug dealers instead of protecting local residents. I want to see comprehensive immigration reform that is fair to all immigrants applying to come to our country. I would like to see the immigration bill S.874 that Sen. Lindsey Graham introduced in 2019, law.

**HEALTH CARE:** We cannot throw the baby out with the bath water. I will vote to continue the ACA but work on how and what states do with federal funds to make healthcare more affordable on the exchanges in regards to Medicaid and Medicare and private insurance premiums.

**ENVIRONMENT:** I do not support federal regulations to address environment issues because all they do is create more regulations that interrupts business. We need to focus on the private sector to fill that role as stewards of the environment and invite the community they serve into the role of earth stewardship. The free market will then empower consumers and regulate companies privately.

**GUN SAFETY:** I support background checks for citizens purchasing firearms to separate lawful gun owning citizens from criminals who seek to do evil.

**ECONOMY:** I will continue to support the current White House policies that have led to more jobs than there are workers to fill them with policies like the opportunity zones and international trade initiatives that are bringing corporations back to the United States, thus raising income for all across gender and race.

**DISCRIMINATION:** I would review our current “Civil Rights Act of 1964.” However, the private sector has yet to catch up. Nonetheless, the consumer will decide the fate of companies whose policies are not aligned with the Civil Rights Act of 1964 by choosing where to buy and from whom.

**STUDENT LOANS:** I would support tax breaks for companies who support their employees after several years of vested interest in their employer.

---

**GOALS:** To reduce gridlock in Congress, I believe more moderates should be elected to the U.S. House of Representatives. As a moderate Republican, my campaign motto is Make America Fair To All (MAFTA). For example, I am proposing changes to make our taxes more fair by having social security retirement benefits tax free at age 70; and waiving the employ- ee social security payroll tax at age 70.

**IMMIGRATION:** The immigration system must be fair to those people who wait to enter the U.S. legally. I would provide a path to citizenship for the “dreamers” who came to the U.S. illegally as minors. However, for adults who entered the U.S. illegally as adults, they would only have a path to green card status but no path to citizenship, unless they honorably served in the U.S. military.

**HEALTH CARE:** I would add two public options to the Affordable Care Act. One option is to allow any U.S. citizen to purchase Medicare coverage. The other option is to allow any U.S. citizen to purchase Medicare coverage. These voluntary options provide more choices without taking away private insurance. Also, these public options do not create unfair taxes.

**ENVIRONMENT:** The federal government should provide tax and patent incentives for the discovery and use of new technologies to reduce global warming. High priority should be given to the generation of electricity and the development of new electric vehicles.

**GUN SAFETY:** I support a universal background check before a gun is purchased. Also, I support the fingerprint technology that only allows the gun owner to shoot the gun, to reduce accidental shootings; and to reduce gun thefts.

**ECONOMY:** I support a three-tier federal minimum wage system. A $20/hour minimum wage for organizations with annual revenue/budget of at least one million dollars. A $15/hour minimum wage for adults working for organizations with annual revenue/budget of at least one million dollars, but less than one billion dollars. An $8/hour minimum wage for minors and organizations under one million dollars.

**DISCRIMINATION:** I support adequate funding for the federal agencies to vigorously enforce the federal laws against the forms of discrimination mentioned in the question. Although not listed in the question, I also support vigorous enforcement of the federal laws against age discrimination.

**STUDENT LOANS:** I would change the $30 billion Pell Grant program, to increase the maximum annual benefit to $10,000. However, it would not be a free benefit. The student would need to perform voluntary services (such as a volunteer firefighter or teacher aide) for a state or local government agency.

**GOALS:** To provide the best possible constituent services to the people of Montgomery, Frederick and Carroll Counties; To restore the government as an instrument of the common good and social progress; And to defend the Constitution and Bill of Rights, strong democracy, and the rule of law.

**IMMIGRATION:** We need to end the cruel and inhumane treatment of children and families at our border and stop funding the president’s dangerous and provocative border wall; restore protections for refugees and asylum seekers; and pass HR 6, the Dream and Promise Act, to provide a pathway to citizenship for DREAMers and families that have lived here for years due to disaster or conflict in their home countries.

**HEALTH CARE:** I have consistently fought to defend the ACA and the lifesaving coverage it provides to millions of individuals with preexisting conditions. While I work to protect the ACA, I strongly support moving towards a single-payer universal healthcare system that does not exclude anyone and saves hundreds of billions of dollars spent on insurance bureaucracy.

**ENVIRONMENT:** We must reorganize the federal government to effectively confront this civilizational crisis. I support policies to transition to a green economy, invest in clean energy technologies and help fossil fuel industry workers retrain for new jobs. My colleagues and I are also working on a plan to revitalize America’s ailing infrastructure in a way that advances our urgent environmental goals.

**GUN SAFETY:** I support a universal background check; a ban on assault weapons and high-capacity magazines; and barring violently dangerous people from possessing or purchasing firearms; and will not rest until we hold the gun industry accountable for its role in deadly firearm-involved violence. I worked and voted to pass several bills out of the Judiciary Committee including HR 8, HR 1186, HR 1236 & HR 2708.

**DISCRIMINATION:** On the Judiciary and Oversight Committees I’m working to expand voting rights; protect freedom of religion while stopping the new argument that businesses have a religious right to discriminate against LGBTQ Americans; protect equal employment rights; stop sexual harassment; and include the disabled. We need strong laws to block violations of civil rights and civil liberties of the people.

**STUDENT LOANS:** I support efforts to provide relief to the millions of Americans struggling with student loan debt, including HR 2186, HR 770, HR 2648, and HR 1070. Also, as Representative of tens of thousands of dedicated public servants, I am working to defend and strengthen the Public Service Loan Forgiveness program.

PARTY OFFICES

Delegates to the Republican National Convention

Maryland will send a total of 38 delegates to the Republican National Convention. Each of the Congressional Districts will elect three delegates and 3 alternates. The presidential contender receiving the greatest number of votes in each District will receive the votes of all three of that District’s delegates. Each voter may vote for up to three candidates for delegate and three candidates for alternate.

In addition to the 24 delegates elected by the voters, 11 at-large delegates will be selected at the Maryland GOP convention by members of the State Republican Central Committees or their proxies. The votes of at-large delegates will be allocated to the presidential contender receiving the greatest number of votes in the primary statewide. Finally, three party leaders (the National Committeeman, the National Committeewoman, and the chairman of Maryland’s Republican Party) will attend the convention and vote by virtue of their positions.

Congressional District 8
DELEGATE CANDIDATES:

Republicans may vote for no more than 3.

WENDEL R. BEITZEL (TRUMP)
QUALIFICATIONS: I was a Trump Delegate to the GOP national convention in Cleveland in 2016. Proudly cast my vote for Donald J. Trump to be the next president of the United States.
SELECTION CRITERIA: I supported President Trump to be president the first time and plan to do so in this upcoming election also.

Campaign Phone: (301) 909-8110
QUALIFICATIONS: I have been a very active member of the Republican party for the past four years taking on various leadership roles. I have been the 3rd Vice President for the Maryland Federation of Republican Women since 2017 and the currently the President of the Republican Club of Frederick County. I have proven I can represent the constituents of CD6 to work to re-elect President Donald Trump.

SELECTION CRITERIA: The most important factor for me is that a President, especially one up for re-election, has fulfilled or in full faith, attempted to fulfill what was promised when they initially ran for office. Donald Trump has proven he keeps his campaign promises in putting American citizens and legal immigrants first. He is working for the American people and not the special interest groups.

QUESTIONS
QUALIFICATIONS: How does your experience prepare you for the duties of this office?
SELECTION CRITERIA: What factors are most important in determining whom you will support for president?
Maryland will send a total of 119 delegates and eight alternates to the Democratic National Convention. Voters from each Congressional District will vote for seven to nine delegates per District, for a statewide total of 65 elected delegates. Male and female delegates will be selected separately. Congressional district-level delegates will be selected based on the proportion of the vote won by the presidential candidate to whom they are pledged.

In addition to the 65 delegates from the Congressional Districts, there will be 23 delegates who are automatic party leaders and elected officials (PLEO) based on the positions they hold. Finally, the Democratic State Central Committee will select 10 additional party leader (PLEO) delegates and 21 at-large delegates. Additional details about the delegate selection process are posted on the Maryland Democratic Party website.

**Congressional District 6**

**FEMALE DELEGATE CANDIDATES:**

Democrats may vote for no more than 3.

President. I look for the person that can bring balance back to the country, can represent the democratic values we hold dear. I also look for a person that I believe is electable country wide. I don’t believe it is enough to just be a nice person, the candidate for President has to be someone the country will unite behind.

**KAREN LEWIS YOUNG (BIDEN)**

**QUALIFICATIONS:** I have volunteered in 8 election campaigns (including 2 presidential elections) and ran for office 4 times. I served as President Pro Tem of the Board of Aldermen in the City of Frederick and I am in my second term in the MD House of Delegates representing district 3A. As a veteran member of the Health and Government Relations Committee, I have developed a strong knowledge of health care policy.

**SELECTION CRITERIA:** Electability, particularly in the swing states, is one of the most important factors to me. We need a candidate who has the best chance of defeating Donald Trump. In addition, the candidate's policies on health care, climate change, the economy, and foreign policy are very important. We need to restore the soul of America, and our reputation abroad, with a proven, experienced, consensus builder.

Delegates to the Democratic National Convention

Congressional District 6

MALE DELEGATE CANDIDATES:

Democrats may vote for no more than 4.

SELECTION CRITERIA: The level of detail in their policy proposals. Too many people make decisions based on what is being said without looking deeper into the proposal itself. I also charisma and age. They have to be able to inspire others and they shouldn’t be into their 80s and not capable of giving a 2nd term.

JERRY S. GARSON (UNCOMMITTED)
Campaign Twitter: twitter.com/jerry10401
Campaign Phone: (301) 765–9470
QUALIFICATIONS: I have worked for many Democratic Candidates over the last 30 years. I have also attended 8 conventions and have worked for the Democratic National Committee at 3 of these conventions. In addition I have attended the last four conventions as a guest. I have spent 4 years on the Montgomery County Board of Elections between 2007 and 2011 and for the last 16 months I was the President of the Board.

SELECTION CRITERIA: I have worked for many Democratic Candidates and I have served on the Montgomery County Board of Elections and the Democratic National Committee. I am a Marylander and have been involved in politics for over 20 years.

LARRY KASECAMP (BIDEN)
Campaign Email: devangshah99@gmail.com
QUALIFICATIONS: Throughout my career, I have advocated for and connected with fellow Marylanders through being a Montgomery County–based immigration attorney for 27 years and Maryland Democratic Party Asian American and Pacific Islander Chair. I also co–founded the Maryland Democratic Business Council to promote the rights of small business owners across Maryland — all of which prepared me for this role.

SELECTION CRITERIA: Our next President must be someone with vast experience in leading for everyone rather than a select few in order to unify this nation in our desire for the United States to again be a place of opportunity for all. Our next President must also be dedicated to keeping the needs of the American people first.
and thus work across the aisle to create concrete policy change for those who need it most.

THOMAS G. SLATER (BIDEN)
Campaign Email: tgslawslate@comcast.net
Campaign Phone: (301) 682-5601
QUALIFICATIONS: I have been a long time activist supporting Democratic candidates and have attended every Democratic convention since 1972. I was a delegate for Ted Kennedy in 1980 and for Obama in 2012 and served on the Rules Committee at the 2008 convention for Barack Obama. When not serving as a delegate I have been a volunteer assisting delegates and alternates as well as the Maryland Democratic Party.

SELECTION CRITERIA: Obviously the person I support for president has to be committed to the basic principals of the Democratic Party. In addition, our candidate for president has to be one that can defeat Donald Trump. The Trump presidency is one of the greatest dangers to the republic that we as a nation have faced. If re-elected Trump may do irreparable damage to the United States as we know it.

MALE DELEGATE CANDIDATES:

LIAM F. BERRY-DROBNICH (SANDERS)
Campaign Twitter: twitter.com/Lfb313
Campaign Email: lfb313@gmail.com
QUALIFICATIONS: I have experience fighting for democratic causes like gun control and human rights. I spent the summer volunteering for Virginia state house races helping the Democrats gain control of the Virginia house. I was also in a program lead by Congressman Jamie Raskin over the summer which gave me valuable experience in advocacy. I believe I can be a powerful new progressive voice at the convention.

SELECTION CRITERIA: I support Senator Sanders for president because he has the best chance to defeat Trump. Bernie in my view is the only person in this race that will be able to form a coalition large enough to win. Bernie has strong appeal in states like Michigan and Wisconsin where we need to win. His honesty and consistency is very appealing to many Midwest voters. Bernie is the best chance of beating Trump.

QUALIFICATIONS: I am a longtime Democratic Precinct Chair in Silver Spring (@ Sligo Creek Elementary School), and a member of the District 20 Caucus and the Greater Silver Spring Democratic Club in the 8th Congressional District. I have proudly served as Chief of Staff for two Democratic elected officials — Montgomery County Councilmember—at-Large Duchy Trachtenberg & Maryland State Delegate Pamela Queen.

SELECTION CRITERIA: I support Joe Biden for President because he has the best chance to win the Presidency and bring our Nation together. With experience as Vice President for President Obama, he will be ready on Day One, with realistic plans for expanding health care, strengthening schools, fighting climate change, and promoting social justice. He will bring integrity, honesty and decency back to the White House.

**QUALIFICATIONS:** For 30 years I've brought people together to improve the lives of MD families as a state lawmaker, a county councilmember, an environmental advocate, and a community organizer. I've helped lead campaigns to elect Pres. Obama & other Democrats. I've built coalitions to raise the minimum wage, strengthen civil rights, fight climate change & to improve health care. I know how to organize to win.

**SELECTION CRITERIA:** I am uncommitted because the most important factor is that we support our nominee and defeat Donald Trump. We MUST defeat him to protect our democracy, our middle class & our environment. Our nominee needs to unite & inspire Democrats while attracting independents & disillusioned Republicans. If selected, I would support the candidate in the strongest position to take back the White House.

**SELECTION CRITERIA:** I support a candidate that builds a campaign around grassroots organizing and stands for all of the people. I believe that Bernie Sanders is the only candidate that will stand up to the large interest groups that control Washington. I support Bernie because he will protect the Latino community from Donald Trump and his threats of Deportation.

**SELECTION CRITERIA:** First and foremost, we must elect a Democrat in November. The current occupant of the White House is unfit for office and has done tremendous harm to the rule of law, the country and the world. Our nominee must protect our climate, end gun violence, and promote economic and social justice. My #1 priority is to support the Democratic nominee – whomever he or she is – and defeat the president!

in this position will be supported by the professional ex-
hood education in Carleton, MI and obtaining MS & BS

health and well being. We need to appropriately support

OES PTA.

Frederick Co. I have kids in FCPS where I am treasurer of

& policy as well as my experience as a business owner in

sizes and finding/retaining additional highly trained

mentors

4. FCPS has great programs in place for those that
are not college bound. They are working to expand these
programs which I believe is essential to support all
students within the County. I would like to see programs
strategically located to ensure that all members of the
community have access to these programs that are
already very robust. Expansion of additional certificates is
also of interest.

5. We have to comply with state & federal testing
requirements; however, I believe it is important to con-
tinually evaluate the use of the testing at FCPS & how it
is being used to ensure the whole child is being educated.
I don’t believe teaching “to the test” is the best way to
utilize the testing, but it takes strength and courage to
transform education when the stakes of funding are so
high.

6. Funding the space needed to support smaller class
sizes and finding/retaining additional highly trained
professionals isn’t always possible. While personalized
attention is extremely important at all ages, I believe it is
most important in younger aged classrooms (PreK–3rd)
as this is where large discrepancies are being overcome.
Followed by a continued staged implementation after the

3rd grade.

1. I am a graduate of public schools including my child-
hood education in Carleton, MI and obtaining MS & BS
degrees in Bioengineering from U. of Toledo. My success
in this position will be supported by the professional ex-
periences I’ve gained in the implementation of regulation
& policy as well as my experience as a business owner in
Frederick Co. I have kids in FCPS where I am treasurer of
OES PTA.

2. The health and well being of our students. Educa-
tor, Administrator, and support staff pay as well as their
health and well being. We need to appropriately support
the adults that are supporting the growth and develop-
ment of our children.

3. The diversity of the staff will not happen without
direct intentionality. Increasing diversity is harder than
other transformations due to barriers like unconscious
bias. Therefore, it is important to have a robust trans-
formation plan that will explicitly address the impact of
unconscious bias in decision making related to hiring. It
is important for our children to see themselves in their
mentors

4. FCPS has great programs in place for those that
are not college bound. They are working to expand these
programs which I believe is essential to support all
students within the County. I would like to see programs
strategically located to ensure that all members of the
community have access to these programs that are
already very robust. Expansion of additional certificates is
also of interest.

5. We have to comply with state & federal testing
requirements; however, I believe it is important to con-
tinually evaluate the use of the testing at FCPS & how it
is being used to ensure the whole child is being educated.
I don’t believe teaching “to the test” is the best way to
utilize the testing, but it takes strength and courage to
transform education when the stakes of funding are so
high.

6. Funding the space needed to support smaller class
sizes and finding/retaining additional highly trained
professionals isn’t always possible. While personalized
attention is extremely important at all ages, I believe it is
most important in younger aged classrooms (PreK–3rd)
as this is where large discrepancies are being overcome.
Followed by a continued staged implementation after the

3rd grade.

1. I am a retired Frederick County Public Schools teacher, serving 17 years. I was appointed to the Board of Education by the County Executive in January of 2019 to complete the term for Ken Kerr. In addition, I logged over 1000 hours as a parent volunteer with FCPS while my two children were in school and I served on many committees and as an officer in Parent/Teacher organizations. Some progress has been made, but we can do more. I think it is important for our increasingly diverse student population to be able to see themselves reflected more. I think it is important for our increasingly diverse
2. We should consider the whole student when allocating funds and developing services. We have focused a great deal on the academic student and increasing test scores but need to consider mental health issues and how student are coming to our classrooms. We need to look at the education we provide through an equity lens, ensuring that we put all of our students and schools on an equal field.
3. The Board and Human Resources are working to recruit a diverse population of teachers and administrators. Some progress has been made, but we can do more. I think it is important for our increasingly diverse student population to be able to see themselves reflected in the leadership in our schools. I think this will improve attitudes in learning for all our students.
4. We need to look to build our CTC program and perhaps have satellite campuses for Career and Technology Education throughout the county. Our programs at CTC are very successful; we just need to be able to make them available to more students.
5. I am not sure what standardized testing can tell us about the success of our schools. I would like to see us focus more on teacher-developed assessments and performance assessments.
6. I believe that smaller classes are better for both the students and the teachers. A smaller class size allows for greater one-to-one instruction between teacher and student.

1. For over 15 years, I have served as an educational leader in and out of the classroom. As an Science Educator w/FCPS I earned the Lions Club Teacher of the Year & Frederick Co. Character Counts Award. With Johns Hopkins Univ-APL I served as Asst. Director of the [MESA] program, providing growth opportunities in STEM for students in Maryland & the nation, earning awards for innovation and service.
2. Issues facing FCPS include: the need for increased funding to serve our growing community and the need for initiatives to promote active student engagement in order to improve student experiences and outcomes. To address these issues I would support funding increases and champion programs that actively connect our students’ learning to the world, empowering them to make an impact on the world now!
3. Diverse staffing is a powerful tool for success. When students have positive interactions with teachers from diverse backgrounds the students gain an appreciation for not only their content, but for the teacher; a lesson that imparts compassion for others. I would work with FCPS to increase the recruitment of diverse teachers from universities who have an established record of diverse candidates.
4. In supporting students who will be entering the workforce, military or a trade profession upon graduation, we should provide opportunities for them to obtain necessary skills & certifications that will make them valuable to employers. Building off the successful pattern of our CTC program, we should identify cost-effective options for professional coursework certifications in every school.
5. Assessment has a place in education. Yet at present, our subjects are subjected to an overabundance of standardized testing. While some exams provide students opportunities for scholarships and assess future readiness, there are some exams that bear no weight on a student’s given curriculum or forward progression towards graduation. We must be careful not to over burden our students with testing.
6. Smaller class sizes have continuously been linked to higher student achievement. It is important to consider other options before increasing class sizes, as doing so will negatively impact overall student wellness and success. As a member of the Board of Education, I will whole-heartedly support measures that ensure appropriate sized student to teacher ratios in classrooms. It is worth the investment.

1. I have lived in Frederick County since 1996 and have over 20 years of teaching experience as a respected professor and faculty leader at Frederick Community College where I focus on student success with special emphasis on underrepresented students in STEM fields. Also, I operate a farm and small business, am a parent to a FCPS 2nd grader, coach youth baseball, and am a volunteer firefighter/EMT.
2. First, big changes are coming at the state level. We need leaders to navigate those changes at the local level to ensure the best educational opportunities are available to all students in Frederick County. Second, we need to recruit and retain the highest quality teachers and staff. I will work with county and state legislators along with other stakeholders to ensure we have resources to do this.
3. We should allocate resources to attract and retain new hires by clearly articulating our commitment to diversity; having mentoring programs, great professional development and working conditions, student loan forgiveness programs; and more. An FCPS workforce that mirrors our local demographics will boost academic outcomes and success rates of ALL our students.
4. Expand workforce, apprentices, and trades programs! FCPS should be guided by the Livable Frederick Master Plan, which emphasizes preparing students for trades and careers that do not require a college degree. We need to increase enrollment capacity and physical space at the CTC, expand partnerships with businesses on apprenticeship programs, and explore more dual enrollment career programs at FCC.
5. Test data is useful for setting benchmarks, studying comparisons with others who take the same tests, and identifying problems or gaps. Testing data, however, should only be part of evaluating our students and programs. Test bias against poor test takers, English language learners, students with disabilities, and other disadvantaged students is a concern. Test data is just one tool in our toolbox.
6. Evidence suggests smaller class sizes lead to better outcomes especially for low-income students, English language learners, and earliest grades. However, blanket class size reduction may not be the most cost effective approach when spending educational dollars. More competitive salaries and better work environments should also be considered as ways to positively impact student outcomes.

1. For almost 30 years I have worked, coached, mentored, volunteered, and lobbied on behalf of young people. I have volunteered for the Make-A-Wish Foundation, Heartly House and Frederick Health Hospital. I served as an assistant boys’ basketball coach at Urbana and Oakdale High Schools for the past 13 years and I am currently the Board Chair for the Boys & Girls Club of Frederick County.
2. Socioeconomic Achievement Gap – We need to expand existing services such as CTC, LYNX and Social & Emotional Learning programs. We also need to identify students who need social & academic help sooner and get them the services they need. Teacher Salary – Attract and retain the best talent by increasing the teacher pay scale in order to make Frederick County competitive with our neighboring counties.
3. Expand our scope of teacher recruitment outside of our geographic area and build teacher recruitment teams which are made up of diverse members. We need to be prepared to offer contracts when outstanding talent is identified.
4. We need to offer entry level Career Tech Education at all of the county’s Middle and High Schools. Students need to be introduced early to career opportunities. Enlarge the current Career Tech Center in order to accommodate more students and expand programs through apprenticeships with local companies that allow students to graduate with trade certifications and matriculate into professions.
5. I believe that we have allowed current testing protocols to become the dominant force within our schools, at the detriment of our students and teachers. We have reduced imagination, creativity and critical thinking. While testing has a place in education and should be used to measure individual student progress, it should not be the dominant factor which drives our teaching and curriculum.
6. There are a number of studies that link smaller class size in K-8 classes to improved academic performance in the future. When students are provided more individualized attention earlier, it improves self confidence and sets a foundation that allows students to work independently in later grades. By focusing on students earlier, smaller class size provides a positive return on investment.
