

Yes! Elected leaders, we need dedicated funding for Metro.

*We the undersigned urge our elected leaders to **create a dedicated, sustainable funding source for Metro!** We need a system that is reliable, safe and efficient. Any new funding source - whether a tax or a budget adjustment --must be collected equitably and aimed to improve the rider experience. **PLEASE ACT SOON.** A successful Metro system is better for riders, better for the environment, and crucial for the economy.*
