

LEAGUE OF WOMEN VOTERS OF THURSTON COUNTY POSITION ON PORT DISTRICTS

PORT DISTRICTS
(adopted 1974, reviewed 2000)

We Support:

- Public port districts with emphasis on environmental values, coordinated planning and public accountability.
- Cooperation and coordinated comprehensive planning with a regional, state or international agency to facilitate orderly planning and public accountability.
- Enforcement of the Shoreline Management Act and other environmental regulations.
- Attention to community recreational needs.

Improved relations between public port districts and citizens by better publicity of port activities and plans, increased citizen involvement and input, and responsiveness to citizens concerns.

(Studied and written by Puget Sound league, an inter-League organization of the 1970-1980's, and subsequently incorporated into the League of Women voters of Washington's appropriate positions.)
