

Adopted 1972, Amended 1973, 1982

STATEWIDE HIGH SPEED INTERNET

Support of government policies that promote broadband, wireless and other means of high speed internet deployment throughout the state; access to high-speed internet, without charge, through schools and libraries; state efforts to protect the open, neutral and nondiscriminatory nature of the internet; adequate protection, promotion and funding of community access television channels regardless of the provider of TV/video services to Tennessee residents; government provision of opportunities for citizen participation in decisions regarding community access.
