Dear liberal friends,

First of all, thank you for the possibility of applying for reduced membership fee as that is exactly what we need. Also, thank you for your support in these difficult times for our mother party and the youth organization. This October we will have local elections and we will need all the money for the campaign. We will now answer your questions.

- 1) Our organization does not have a permanent office.
- 2) We do not have permanent staff.
- 3) Our organization does not have state funding.
- 4) None of the members are currently paying membership fees, but we hope that will change soon.
- 5) When it comes to the international work, we are as active as our financial conditions allow us. We have a good co-operation with many international organizations and we try to participate in as many events as possible.
- 6) The financial situation is bad because we had elections few months ago and our mother party is not able to help us. Unfortunately, our party suffered a great loss on the last local elections due to the powerful influenced local parties. It is mentioned already that we do not have our own money and the fees we pay are from the projects we do.

When I came in charge of this organization, we had best intentions in starting a few projects which would most definitely gain to our financial situation, but since we were not able to fulfill those projects this year because of the COVID-19, we would kindly like to ask you for symbolic fee of 10 euros. It is in our best interest to stay LYMEC's member, therefore we hope you won't reject our request. We will try our best to improve the situation in the organization in order to be able to pay full membership fees in the future.

Thank you in advance for considering this request.
