

Celebrating CHANGING THE CLIMATE IN CULLY

After a 4 month campaign, with help from many people, over 210 Cully homeowners have applied to Clean Energy Works Portland.

Here are some of the unique and exciting facts about the effort:

- ✓ Generous people and organizations volunteered 1,687 hours to the campaign.
- ✓ We had 89 separate outreach events and communications, including:
 - Our Ice Cream Social Kick-off event which gathered over 250 people including over 170 from the neighborhood;
 - We knocked on 2,503 doors and had 838 conversations;
 - We hosted 6 nights of phone banking and made 803 phone calls;
 - Neighbors and organizations hosted 9 house and community meetings.
- ✓ Partnering contractors were 100% union with healthcare and livable wages for all, 100% small and local companies and half were minority or women-owned companies.
- ✓ 15 new jobs were created adding \$420,000 in annual wages to the local economy! And Cully contractors expect to hire 11 more people.
- ✓ We estimate that 1 of every 9 eligible homes in Cully applied to add energy efficiency upgrades to their homes.
- ✓ 35% of applications came through Neighborhood Partner Organizations.
- ✓ By upgrading 100 Cully homes, we'll save 270 metric tons of CO2 each year.

Thank you to the many individuals, families, organizations, and businesses who contributed to Changing the Climate in Cully.
