

2017 MainPAC Primary Recommendations

Vote August 1st!

These are the 2017 Primary recommendations of MainPAC, the political action committee of the MainStream Coalition, for candidate races in **Johnson**, **Wyandotte**, and **Douglas** counties in Kansas. They are arrived at through candidate surveys and research to determine how closely candidates align with the moderate, common sense values of most Kansans.

As always, we encourage voters to research candidates, meet them at

events, and ask questions. This ensures that both voters and candidates know what to expect if a candidate is elected. Then do more! Support your candidate! Volunteer, donate, tell your friends and family. Make sure your candidate is the one elected.

Primaries bring out the most ardent supporters of extremist candidates. Have your say in rejecting their policies. **Be sure to vote.**

A note about the races and candidates listed:

These are recommendations for races where there is a contested primary on August 1st, 2017. If your city or candidate is not listed, there may not be a primary contest. In cases where no recommendation has been made, it may be because candidates did not return our survey, or did not meet criteria for recommendation.

The candidates listed here are recommended by MainPAC. **Vote for these candidates on August 1st!**
