**Q2**

Respondent skipped this question

Party Affiliation

**Q3**

KS House

Office Sought

**Q4**

District

30

**Q5**

Yes

Incumbent?

**Q6**

Yes

Do you believe that scientific fact and the advice of health professionals should be paramount in decisions regarding public health crises like the COVID-19 pandemic?

---

**Q7**

Please expand on your answer to the question above.

I trust health experts, scientists, and healthcare workers with regard to addressing the COVID-19 pandemic, not politicians.

---

**Q8****No**

Do you believe that proof of citizenship should be required in order to register to vote?

---

**Q9**

Please expand on your answer to the question above.

This unconstitutional practice is unnecessary. When Kansans are registering to vote, they're already providing their government-issued ID or their social security number. We need to make it easier for Kansans to vote.

---

**Q10****No**

Do you believe that laws covering the sale of firearms are sufficient? If yes, why? If no, do you believe they should be made more strict, less strict, or kept as they are now?

---

**Q11**

Please expand on your answer to the question above.

Any firearm purchase should require a background check. If you can't pass a basic background check, you should not be able to purchase new weapons. We must also pass a red flag law to keep Kansans safe from those who are at-risk for harming themselves or others.

---

**Q12****No**

Do you support amending the Kansas Constitution to eliminate the protection for individual reproductive freedoms contained in the Kansas Constitution?

---

**Q13**

Please expand on your answer to the question above.

I swore an oath of office to uphold the Kansas Constitution, not to re-write it when the Legislature disagrees with a co-equal branch of government. I support the right to personal bodily autonomy.

---

**Q14****Yes**

Do you believe that diversity in representation is critical to effective governing? If yes, as an elected official what will you do to promote and engage leaders who more accurately reflect the diversity of members in our communities?

---

**Q15**

Please expand on your answer to the question above.

The people who make up our governing bodies should reflect their constituency. In Kansas, we lack young voices, LGBTQ voices, women, and people of color in our local, state, and federal governments.

---

**Q16****Yes**

Do you believe climate change is real and caused by human activity? If so, what policies should legislators pursue to improve climate resilience?

---

**Q17**

Please expand on your answer to the question above.

We should modernize our grid, enable regulation of micro-grids, capitalize on the solar and wind potential in Kansas, and create a comprehensive energy plan to lessen our dependency on fossil fuels.

---

**Q18****Yes**

Do you support amending the current Kansas Act Against Discrimination to include the same protections for sexual orientation and gender identity?

---

**Q19**

Please expand on your answer to the question above.

Discrimination of any kind is wrong. In Kansas, our LGBTQ neighbors should have the same healthcare, employment, housing, and public accommodation protections as every other Kansan.

---

**Q20****No**

Should public funding be available for private school tuition via tax credit scholarships, education savings accounts, vouchers or other methods? What is your opinion about the current funding for Kansas schools?

---

**Q21**

Please expand on your answer to the question above.

I do not support public dollars going to private schools, especially those who continue to discriminate against people like me. While our funding plan gets our public schools to full funding, adequate public school funding is not enough to build the future workforce of Kansas. We can, and should, do more.

---

**Q22****Yes**

Do you support Medicaid expansion at a time when pandemic-induced job loss has left thousands of Kansans without health care coverage?

---

**Q23**

Please expand on your answer to the question above.

Expanding Medicaid is sound, reasonable, and common-sense policy. There are more than 150,000 Kansans who would benefit from expanded healthcare coverage. This is the humane and Kansan step in the right direction.

---
