

# 2020 General Election Kansas Endorsements Wyandotte County

## Our process

Endorsements are decided by a nonpartisan committee that deliberates over candidate surveys, available voting records, candidate interviews when needed, and other factors to determine how closely a candidate is aligned with the values of the Mainstream Coalition, and how well their fundraising, organization, and messaging would contribute to their success.

Endorsement in any given election does not imply or guarantee endorsement in any current or future election.

## Why are some people not on this list?

During the endorsement process, MainPAC actively solicits questionnaires from all candidates regardless of party affiliation. If your candidate or race is not listed, it could be for a variety of factors. The most likely is that the candidate did not return a survey, as it is MainPAC's policy that a candidate cannot be considered for endorsement unless they return a survey. See the Appendix (in the online endorsements at [mainpac.org](http://mainpac.org)) for a list of people invited to take the survey, and who submitted one.

## United States Federal Races
