

Main Street Alliance Omnibus
 Small Business Owner Survey
 August - September 2020

N= 600 small business owners
 N=100 OS among African American small business owners
 N=100 OS among Latinx and Asian small business owners
 Cap 25% self-employed

TOPLINES:

- A majority (60%) say they did not provide health insurance to any employees prior to the pandemic, and 57% currently do not provide health insurance to any employees.
-
- Small business owners are split over bringing a permanent end to the ACA – 44% favor it and 45% oppose it. However, 59% say that the information about the Trump Administration working to repeal the Affordable Care Act in the Supreme Court without alternative legislation raises doubts about President Trump.
-
- Over half strongly agree with statements about the rich getting richer while the rest of the country faces increased hardship (58%), prioritizing working people ahead of rich donors (55%), and being able to afford increased food stamps, unemployment insurance, and healthcare for average people who are struggling because of the pandemic (55%).
-
- Over half are very concerned about health care prices being too high (61%) and drug corporations overcharging for prescription drugs (59%).
-
- Over three-quarters (78%) say a COVID-19 vaccine will be helpful in terms of getting the economy running again. Two-thirds (66%) say a COVID-19 vaccine will be helpful in terms of getting their business back to normal.
-
- It is overwhelmingly important that COVID-19 vaccines and treatments, once developed, are safe and affordable for everyday working Americans (87% say important).

Q51. [FACT COALITION] Which statement comes closer to your own opinion, even if neither are exactly right? **[ROTATE]**
 Select one

Requiring multinational corporations to disclose their tax information would benefit small businesses because it is difficult for small businesses to compete with the most profitable corporations when they are able to rig the rules in their favor by not paying their fair share in taxes.

REDACTED

Requiring any business to disclose their tax information is an unnecessary burden and an infringement on companies' rights and privacy, and will harm their businesses because it will make them more vulnerable to competition. We should just enforce the existing laws we already have in place

d. The total wealth of U.S. billionaires increased by \$584 billion from March to June, while millions of Americans lost jobs and health insurance and 2 million people got sick. With cases of COVID-19 still rising, the U.S. Senate has refused to pass another relief package to address this health and economic crisis.

a. **[SSA]** Everyone deserves the best chance possible to live a healthy life. When someone is sick, they should not have to go bankrupt in order to afford the medicine they need to get well. But today, certain politicians divide us, hoping we'll look the other way while they rig the rules, giving prescription drug corporations and their CEOs monopoly power to set prices and profiteer on life-saving drugs even as people who cannot afford them get sicker. We need to put people's health above corporate profits, by re-writing the law to end monopoly control over prices so we can make drugs affordable.
