

July 25, 2017

United States Senate
Washington, D.C. 20510

Dear Senator,

We, the undersigned business owners, urge you to oppose the Motion to Proceed on any proposed legislation which slashes Medicaid's budget, destabilizes the private market, or threatens to take away quality, affordable health coverage from the millions of Americans insured through the Affordable Care Act (ACA), Medicaid, or Medicare.

The ACA works for small business owners through:

- **Stabilizing health care premiums**, helping us to better plan out our finances, manage our businesses, and invest money otherwise spent on health care costs into our company.
- **Expanding coverage to millions of Americans**, meaning more financial stability for our customers.
- **Fostering entrepreneurship among lower-income business owners** by creating new, portable insurance options for small business owners and eliminating the job-lock.

Repealing the ACA rolls back the most important protections, returns us to the time when small business owners paid more for less coverage, got charged twice as much in administrative costs as larger groups, and small business owners had no leverage and no real choices.

As small business owners, we experience these effects firsthand. Don't play politics with our livelihood. **We urge you to protect our businesses, communities, and economies, and to oppose the Motion to Proceed. Reject any plan to repeal the Affordable Care Act and dismantle our current health care system.**

Signed,

Main Street Alliance small business owners
