

### Q10 If this site could be converted into public space, how would you like to see the public space used? (Here are some examples, but please make your own suggestions!)

Answered: 2,253 Skipped: 161

ANSWER CHOICES	RESPONSES	
A community hall/other indoor space	16.25%	366
Space to throw a frisbee	39.01%	879
Gardens	81.76%	1,842
BBQs	53.31%	1,201
A public pool	30.00%	676
A spot to have a picnic	72.17%	1,626
A basketball court or other sports space	18.51%	417
A City Hopper ferry stop	34.18%	770
Total Respondents: 2,253		

#	OTHER SUGGESTIONS (PLEASE LEAVE ANY OTHER IDEAS)	DATE
1	Incorporate a few café's/restaurants	5/7/2019 4:22 PM
2	bar/restaurant area	5/7/2019 2:24 PM
3	Just a park. not too much concrete - lots of shade, native trees and areas for families, groups - green space	5/6/2019 1:54 PM
4	A City Hopper ferry stop would be a great facility, although it would be a considerable distance to the nearest existing stop. If the ferry stop is not feasible, then there may be space for some gardens. Either way, suitable trees could be planted, for aesthetics and shade.	5/6/2019 11:11 AM
5	Beach volleyball court	5/4/2019 10:22 AM

6	As per last response. As much green space as possible - and some habitat for local wildlife too - we're losing too much of it and the community misses it.	5/3/2019 5:39 PM
7	As others are saying, the last thing we need there is a tall high rise apartment tower. Too many of them already. Brisbane is not Chicago or Shanghai & I hope it will never have the population numbers of even present-day Sydney & Melbourne.	5/3/2019 4:46 PM
8	Build private apartments.	5/3/2019 2:17 PM
9	I would like to see more public spaces dedicated to providing nature spaces for meditation and landscaping design of international eco-tourism note and permanent displays of public art and sculpture built into these spaces. Our city is devoid of natural and built spaces which distinguish and showcase our extraordinarily talented artists and sculptors, architects lighting and landscape designers.	5/2/2019 7:16 PM
10	Public park with some shade trees.	5/2/2019 5:36 PM
11	There's little access to that area except by locals or by using public transport - either make it a green space for locals essentially or have it as a destination but parking etc would need to be considered	5/2/2019 5:09 PM
12	green space with cafes and restaurants	5/2/2019 5:00 PM
13	A native plant area - with interpretation- a mini botanical garden with local species. No barbeque - bring-yr-own picnic only.	5/2/2019 12:06 PM
14	Shady trees	5/2/2019 7:03 AM
15	Wildlife corridor	5/1/2019 6:53 PM
16	I don't think it should have been sold, but once it's out of public hands, buying it back will pass public funds into the hands of a private profiteer which I'm also against. If a bridge is built, the parklands on the south side of the river become more accessible.	5/1/2019 6:03 PM
17	Open space with grass and trees	5/1/2019 3:23 PM
18	Passive green space with large trees.	5/1/2019 2:06 PM
19	A cute little park (akin to New Farm Park but in the inner west) would be really fun!	5/1/2019 1:25 PM
20	This space was vacated on the premise of its being contaminated because of a cancer cluster. There has been no declaration of the space having been restored / decontaminated. Consequently, it should DEFINITELY NOT be used for public access but should be made into a dedicated green space with restrictions on public access	5/1/2019 12:08 PM
21	Outdoor gym equipment. Outdoor movies. Space where teachers can hire to host drop in exercise classes. Somewhere for wildlife to live.	5/1/2019 10:50 AM
22	A small forest to help replace what is being lost to developers around Brisbane. To provide food & water for native flora & fauna, to act as a small carbon sink & to help reverse some of the governments' & council destructive decisions. Locally,nationally& globally,we need to act in a more sustainable way to protect our □.Although small,in the grand scheme of things,what happens to this site,could have major implications for the future of Brisbane .	5/1/2019 10:14 AM
23	People living in our community will be healthier and happier and less stressed if they have somewhere to go so as to keep in touch with nature that has grass and trees and sunshine. (Not shadows from another highrise)	5/1/2019 10:04 AM
24	Nit keen on a swimming pool there - too much flooding around that area.	5/1/2019 9:48 AM
25	Southbank style greenspace	5/1/2019 9:40 AM
26	Public Arts space/ Social Enterprise Hub or start up business and community workspace?	5/1/2019 9:16 AM
27	Public free speech podium; Piazza; Local Community Markets; Pop-Up Friday night Eat vans.	5/1/2019 8:50 AM
28	And nature play areas such as in Melbourne.	5/1/2019 7:42 AM
29	Space for outdoor performances Outdoor tai chi, dance etc activities Community garden	5/1/2019 6:41 AM
30	Community kitchen for homeless people to be together and learn to cook	5/1/2019 12:41 AM
31	Affordable Community housing or overnight accommodation for homeless.	5/1/2019 12:39 AM
32	A multi-purpose community hall could be used for public meetings, educational talks, local history gatherings, low-key music events, fund-raising, arts and crafts markets, etc. An area could be set aside for a community garden, like the successful one at Seventeen Mile Rocks Park. Children's activities would also be beneficial.	4/30/2019 11:36 PM
33	Gardens with restaurants and bars, like Southbank.	4/30/2019 10:19 PM

34	Something similar to the market they have in Vancouver on their harbour. The Granville Island Public Market is the jewel in the Island's crown. An indoor market featuring a fascinating assortment of colourful food and produce stores, showcasing handcrafted products and the very finest in unique gifts. All fresh from the ocean, the oven or the field. The west end markets are overflowing on the other side of the river on weekends and it will enable people on the Toowong side of the Bridge opportunities to shop, there could be profits to be made for both government and private industry and provide a covered market place and tourist hub ( look up Granville Island Vancouver.)	4/30/2019 10:14 PM
35	Sovereign Womens Cultural Centre	4/30/2019 10:02 PM
36	Local flora and fauna area/sanctuary	4/30/2019 9:27 PM
37	A green space! With outdoor gym facilities, picnic facilities, disability friendly playground and equipment, whatever we can fit in for the people to enjoy	4/30/2019 9:20 PM
38	Anything that could be enjoyed by families, enhance the appearance of the area and create recreational / community interaction would be an asset.	4/30/2019 8:27 PM
39	Could connect with the walking and bike way to the city along the river.	4/30/2019 7:43 PM
40	There is insufficient public space remaining in Toowong with the density in the area increasing so dramatically	4/30/2019 7:29 PM
41	Toowong and the Brisbane river have a shortage of parks and public spaces - and an over abundance of cycling paths. Selling to development would clearly be a short term solution for funds, and not in the interest of the public or local community that is quickly dwindling as developers and workers move to Toowong.	4/30/2019 7:25 PM
42	Please just don't forget that there are residence either side of the building currently. We've had a lot of building in the past couple of years and it's not fun. I feel like I lost a lot of privacy whilst I've been living there	4/30/2019 7:19 PM
43	bridge	4/30/2019 6:32 PM
44	any, as long as the bridge is happening	4/30/2019 6:28 PM
45	Mirror what is at Orleigh Park for those of us in the West. It is too late to buy back, but any development should return amenity to the public.	4/30/2019 6:15 PM
46	Public hall should have a proper dance floor.	4/30/2019 6:04 PM
47	There are several so called parks in my area. But they're not designed to be garden parks with lovely trees and local native plants. Most are either empty spaces like Guyatt Park, or are used occasionally as athletic grounds, as is Perrin Park and Gailey Rd. These very occasional athletic/cricket/football uses could still exist along with areas of lovely parkland, with seats and plants and shade. It's sad we don't have gardens in these parks. They could very easily be called sportsgrounds. Sad. There's so much research about healthy places, healthy people. What about a community vegie garden - that would be marvellous. So easy to get started. The old CSIRO site off Meiers Rd will now have 50 big townhouses. This lovely place on the river needed to be saved - but the govnt wanted to sell it off. So there is now only a tiny sliver of space. Very sad.	4/30/2019 5:54 PM
48	Something a bit more imaginative please. These are all very pedestrian options. Why not task town planning with doing a good job on the co design instead of these low value public space ideas.	4/30/2019 5:41 PM
49	A new bridge across to West End would need to be integrated so as to leave plenty of open space as garden.	4/30/2019 5:34 PM
50	Natural area with trees to entice birds, butterflies, and small mammals to the area.	4/30/2019 4:59 PM
51	Electric vehicle chargers and connection to the public transport hub of toowong.	4/30/2019 4:44 PM
52	continue Riverwalk towards UQ, in an effort to continue off-street Riverwalk in Toowong. ABC site is a strategic location for Riverwalk	4/30/2019 4:08 PM
53	Underground parking to serve users of the space and CityCat commuters. The Regatta Citycat stop is vital but has no parking.	4/30/2019 3:58 PM
54	The lovely old house on the site could be put to use for exhibitions including a permanent exhibition dedicated to the stories of the Indigenous people of south-east QLD	4/30/2019 3:11 PM
55	Gardens that are directed towards inhabiting native wildlife with signs educating the community about the wildlife to gain respect and knowledge, a community garden with classes on inner city edible & native gardens/composting/bee hives. Brisbane is growing so fast with so many walks of life, it's be great to educate all on helping keep Brisbane green clean and sustainable for its future.	4/30/2019 2:40 PM

56	I would like to see the space be a biodiverse habitat and parkland. I would not want to see overly manicured gardens or lawn with no real biodiversity value or habitat for native fauna. A large chunk of wild space so close to the inner city would be a tremendous asset for Brisbane. I would love to see an indoor spot for community gatherings.	4/30/2019 2:25 PM
57	This area of Brisbane is becoming incredibly high density and multicultural, and backyards are increasingly either non-existent or tiny for most people. How amazing it would be to have community food gardens, especially giving people from other cultures the chance to grow traditional food plants and share this knowledge with the community. This could be the glue for the diverse group of residents, both old and new, in this area. Successful multiculturalism needs leadership that is proactive; it doesn't just happen without effort. Also, it would be wonderful especially for families so children have the opportunity to see how food grows - there is so much evidence that this is absolutely vital. There is an increasing older population in this area too, and community gardens would be terrific for them to access as well. Gardening and green space has major physical and mental health benefits for this group of people. Opportunities to acquire a large public space are surely limited, especially next to a major transport node such as Toowong which makes it accessible to so many, and this opportunity should not be wasted!	4/30/2019 2:01 PM
58	Just don't put in yet another building.	4/30/2019 1:51 PM
59	Gardens incorporating the bridge to west end as well as bike facilities. Art studios?	4/30/2019 1:51 PM
60	Soil testing for residual harmful chemicals a necessity	4/30/2019 1:42 PM
61	Green space, parkland, public pool (to replace the one that was once across the road!), anything other than yet another commercial development.	4/30/2019 1:41 PM
62	it has to be very green and shady and useful for kids to run around I am sick of all the tall apartment developments and no greenery so if we have apartment blocks where do kids go to play???????????????? on tiny balconies????????????	4/30/2019 1:32 PM
63	Open green space	4/30/2019 1:27 PM
64	Trees and gardens with undercover chairs tables and maybe BBQ	4/30/2019 1:25 PM
65	Should definitely be all native plants to provide refuge for native fauna. Could also include a section of edible native plants to promote community interaction with our native resources. Interpretive signage to educate visitors on the importance of preserving native plants and habitat in urban landscapes. Adding tips for growing native plants in the home and backyard would also be amazing.	4/30/2019 1:17 PM
66	Shade	4/30/2019 1:00 PM
67	All of the above plus some restaurants	4/30/2019 12:58 PM
68	Middenbury House would be an ideal centre for local history and indigenous groups to have a permanent display. Meeting rooms would be welcomed by these groups	4/30/2019 12:56 PM
69	Include an off lead dog area for the increasing number of residents who live in apartments.	4/30/2019 12:55 PM
70	Very special consideration - many options too numerous to list here - would involve many public meetings as a "Public" version similar to "Town Plan - Vision for Brisbane".	4/30/2019 12:55 PM
71	Nature playground Space for lunchtime, before and after work active and passive space. Eg. Yoga, catchup, PT. It'll be a great meeting space for those catching ferries, going to toowong train station, cyclist, crossing the bridge from west end. So many connections for people and places. It'll make westend more accessible for westsiders.	4/30/2019 12:22 PM
72	À very accessible green space could be created on an empty site at 160 Macquarie St, St Lucia. It is on the Toowong to UQ bike path, City Cat stop and Bus 412 are nearby. Smyth Creek is on one side, the River on the other plus a huge significant landscape tree. Ideal for FISHING and RECREATION.	4/30/2019 12:07 PM
73	Seek input from the traditional owners . From my perspective incorporate traditional owners ( theme influence ) as Toowong and Indooroopilly are all Asian oriented . A little balance would be welcomed.	4/30/2019 11:56 AM
74	Dog off leash park	4/30/2019 11:55 AM
75	Park with sculptures, fountains, outdoor libraries and reading places. A chilling place with a water view.	4/30/2019 11:46 AM
76	No single idea / use but a mixture of amenities. Much depends on the size of the area.	4/30/2019 11:42 AM
77	Think creative garden spaces a la Barcelona and Gaudi	4/30/2019 11:31 AM

78	The gardens could promote experimental species. Would prefer interpreting "gardens" as mainly trees because, apart from the urgent need for more shade, trees will make a valuable contribution to the environment.	4/30/2019 11:31 AM
79	Not sure of dimensions of land - this would possibly effect potential usages	4/30/2019 11:26 AM
80	Fenced dog off-leash area Green space/public park with trees planted for future generations to enjoy shade in this lovely part of Brisbane	4/30/2019 11:21 AM
81	May be flooded so preferably not a use that will be disrupted too much by flood water. Playground equipment could also be useful.	4/30/2019 11:20 AM
82	It really depends on identified needs and the capacity of the site. It should not replicate existing facilities close by ie. swimming pool at Toowong Village? The use needs to augment community and existing useage along the river.	4/30/2019 11:13 AM
83	Try to resist the temptation to overdevelop the space. Leave it as gardens and open space as much as possible. There is no parking there, so I believe it would defeat,the purpose if much needed green space in Toowong becomes a hodge podge of recreational facilities.	4/30/2019 11:10 AM
84	skate park keeps teenagers occupied in healthy outlets. a small skate park and basketball court would promote healthy lifestyle. skaters would be able to use to bridge to get to the park. maybe safe bicycle lockers for those who cycle to toowong but have nowhere to lock their bikes.	4/30/2019 11:08 AM
85	There is a great need for adult playgrounds for adults with disability to move in and on safely... not just a Liberty swing. Adult size swings / hillocks to climb up and roll down.... adult climbing . Ask Flipside Circus for ideas... thee is one in Sydney/ norhtern Victoria.	4/30/2019 11:00 AM
86	And a bridge to west end	4/30/2019 10:54 AM
87	A public park or protected green space (e.g. purchased by Bushland levy)	4/30/2019 10:52 AM
88	Community farm	4/30/2019 10:50 AM
89	The Regatta ferry stop is close enough, so don't need one of those.	4/30/2019 10:47 AM
90	Green space with grass and trees.	4/30/2019 10:44 AM
91	I recommend that half the site be acquired for park development and the project be funded by the Commonwealth from the funds they received from the developers	4/30/2019 10:40 AM
92	A mixed use area would be great.	4/30/2019 10:38 AM
93	Aboriginal Cultural Centre and Gathering place with Aboriginal people managing the designated area	4/30/2019 10:38 AM
94	Please make something beautiful.	4/30/2019 10:37 AM
95	We want park space.....Never building again....too much on this street.. cause too ugly and bad traffics.... Just green park for evryone to sit on ground and enjoy with families members!!!	4/30/2019 10:32 AM
96	A community garden like on Southbank where BCC maintains and harvests but general people can have access to the grown produce and be part of the process of planting and learning about gardening.	4/30/2019 10:30 AM
97	And a bridge! A great place to watch the fireworks from. There is not enough green space in toowong with all the new apartments. Native flora should be planted to encourage native insects and birds.	4/30/2019 10:25 AM
98	I think combined commercial/public space would be ok - like Southbank - as long as pleasant public gardens/space	4/30/2019 10:24 AM
99	Underground tunnels should be built for public transport and east west motor vehicle traffic under the city.	4/29/2019 9:56 PM
100	Since the Toowong Pool closed the nearest is the UQ pool which is not as nice or as close as the Toowong pool was.	4/29/2019 7:49 PM
101	A parking station of two or three levels so as not to encroach on to much land space for people wanting to picnic or BBQ or just walk around or go for a ferry ride to the other side of the river.	4/29/2019 5:32 PM
102	A space to compliment the push for outdoor healthy activities	4/29/2019 11:54 AM
103	Indoor pool with park on top a bit like Barangaroo in Sydney, put the road to the uni underground pas the abc site and extend the park to join the Toowong shopping centre	4/29/2019 11:53 AM
104	The hall, public pool and basket ball court would be better suited to less high density/traffic area.The simplicity of the space with gardens and BBQ areas would be ideal.The more it is about green space the better for all of us.	4/29/2019 11:08 AM

105	If the bridge isn't built then a City Hopper ferry stop would be great.	4/29/2019 8:38 AM
106	skateboarding, parkour, pump track	4/29/2019 6:25 AM
107	Bridge	4/29/2019 6:03 AM
108	That side of the river has more than enough ferry stops. The West End side desperately needs another!	4/29/2019 5:54 AM
109	Outdoor roller rink and open sky cinema.	4/29/2019 5:19 AM
110	Don't know	4/29/2019 4:56 AM
111	A natural amphitheatre within a public park, for groups to congregate and practice public speaking/stand-up comedy, etc.	4/29/2019 2:55 AM
112	It needs a range of community facilities based upon demographic and proximity / access to existing facilities. The space should be green( reasonable amount of grass and vegetation) and open Not a plaza with hard surface and filled with stuff. The land should be rezoned and resumed- cheaper than private market.	4/29/2019 2:26 AM
113	A school	4/28/2019 10:26 PM
114	Child friendly, including playground equipment and safety fencing from both the river and Coro drive.	4/28/2019 8:32 PM
115	A city hopper ferry stop with parking. At present Residents in my area cannot use citycats during working hours as all parking at UQ, Guyatt Pk, Regatta and Park Rd is either taken by students or commuters or has a 2-hour limit which is quite restrictive given the length/speed of most citycat trips.	4/28/2019 6:02 PM
116	Markets Yoga Small amphitheater for street performers Interactive play area for children	4/28/2019 5:43 PM
117	Either a park similar to orleigh park on the west end side where people can have picnics/bbqs or the ampitheatre next to the goodwill bridge at southbank would be ideal	4/28/2019 12:59 PM
118	I like the covered but open spaces such as large gazebos that can be used for events (at a profit for council) or public meetings of various kinds	4/28/2019 1:31 AM
119	Water playground	4/27/2019 11:29 AM
120	Perhaps an amphitheatre?	4/27/2019 10:34 AM
121	Community Garden Part of the park, landscaping, should feature natives and Aboriginal culture	4/27/2019 10:10 AM
122	Tennis court, parklands, dog friendly	4/27/2019 9:46 AM
123	City Cycle station.	4/27/2019 9:39 AM
124	Not necessary as people could walk or cycle to the excellent park and facilities already be Int provided at West End.	4/27/2019 7:21 AM
125	Adult playground!! (Or child's playground big enough for adults)	4/26/2019 10:00 PM
126	Literally anything that isnt apartments. A park would mean many things to many people as there are less and less green spaces in the inner city suburbs	4/26/2019 9:30 PM
127	Kids play ground	4/26/2019 8:53 PM
128	Cycling paths, playgrounds	4/26/2019 8:30 PM
129	the river is the attraction. Make it a beautiful place to look at the river with the potential for coping with regualr flooding	4/26/2019 8:22 PM
130	Urban native forest park... like the forested areas of south bank	4/26/2019 8:14 PM
131	Green space is very important, there are already enough buildings	4/26/2019 7:34 PM
132	na	4/26/2019 5:18 PM
133	Dog park	4/26/2019 4:31 PM
134	There's enough ferry terminals on the Toowong side of the river.	4/26/2019 3:59 PM
135	Large trees	4/26/2019 2:40 PM
136	I imagine it could be like a mini Southbank parklands with some outdoor events and plenty of open recreational space	4/26/2019 2:28 PM
137	Greenspace or maybe a community garden or both.	4/26/2019 2:17 PM
138	A community music/theatre/reception venue and gardens, ponds trees and bbqs.	4/26/2019 11:01 AM

139	Outdoor table tennis tables such as at Guyatt Park. Attractive covered rotundas with seating and tables for family picnics in all weather. A big effort on the garden design including some big tree plantings. Name of park dedicated to ABC employees previously at the site.	4/26/2019 10:22 AM
140	I think there could be more facilities for the older generations. That's why a community centre would be great	4/26/2019 10:20 AM
141	Community gardens with edibles can be an excellent way to bring together members of the community, as shown by the Micah-funded projects in West End. I would love to see these spread, along with the excellent community composting hubs, into new green spaces to support our urban ecosystems and build community resilience and activation!	4/26/2019 9:33 AM
142	Landscape water features - garden pools, rock creeks, small water falls, small wetlands...	4/26/2019 8:57 AM
143	I assume there's other opportunities in Toowong for indoor space which would be suited to smaller sites, so I think using this site as outdoor green space with a garden, children's playground and grassy area would make the most of it. If there's some shelter from the road, it would be a great place for a picnic.	4/25/2019 10:07 AM
144	Mustn't be too costly. A green space for the folks who have moved into the many newly erected high rises in the vicinity	4/25/2019 9:13 AM
145	We desperately need a professional chamber music venue which is not too expensive to hire. The ABC space would be perfect as long as there was also some public space around it too.	4/24/2019 12:51 PM
146	My first job out of Uni was at the ABC at Toowong, working as a researcher on the 7.30 Report - so I know the site well! It's a magical place - as are all places on the Brisbane River - to watch the water flow by, take in the activity that's happening on the water, and enjoy the Queensland sunshine. It would be fantastic to see it transform into a shady park, with space for the community to relax or kick a ball, have a bbq or picnic, go for a swim in a public pool - and appreciate some beautiful public art!	4/24/2019 9:28 AM
147	More cycling routes through that area would be amazing. Less the less interaction I have with roads the better.	4/24/2019 9:19 AM
148	Native trees and shrubs gardens around site	4/24/2019 9:05 AM
149	A stage or raised platform would be excellent to incorporate- we're hard-pressed to find evening events that aren't held in local pubs and bars. A little community library would be lovely, too.	4/23/2019 11:39 PM
150	Improving the bikeways, as in this part is very narrow	4/22/2019 9:57 PM
151	Use the existing old house as the community hall.	4/21/2019 3:40 PM
152	The site is big enough for a new school which is desperately needed for the inner west area. It can be planned with pool & garden space that the school can share and bring top class learning opportunities for our kids. A series of raised 3 to 4 levels high buildings (address flood issues) with many open vintage points will allow local to still enjoy the river views. Th shared community garden will provide many opportunities to bring the local & school community together as well as many environmental and eco learning for the school kids. Our area is in deperate need of a new school. If the site is big enough, it can be a combined prep-12 school as Indooroopilly high school is also getting way too big & crowded along with our primary schools in Toowong, Ironside & Indooroopilly.	4/20/2019 9:01 AM
153	Any kind of public parkland that could be enjoyed by the community because there is a lack of public open space.	4/19/2019 6:53 PM
154	Playground for the littles	4/19/2019 10:49 AM
155	Open green space with or without BBQ area and play ground for kids.	4/19/2019 9:53 AM
156	Something in the style of South Bank parklands (on a much smaller scale) would be a great addition to Toowong which is currently an urban concrete mess (with the exception of Bicentennial Bikeway). Bicentennial Bikeway could be extended to this site with a river walk linking the Regatta ferry terminal end of the bikeway to the site.	4/19/2019 9:21 AM
157	I think a spot for outdoor movies with pop up food and drink tents for local vendors to make a profit would be good, maybe highlight local artists with weekend concerts	4/18/2019 5:36 PM
158	Outdoor movie theatre with food and drink tents.	4/18/2019 5:29 PM
159	Gardens, Playgrounds and BBQs	4/18/2019 11:21 AM
160	Parks, Gardens, Sport facilities and the Pedestrian and Cyclist Bridge	4/18/2019 10:08 AM
161	Include a small playground/ water playground	4/18/2019 8:01 AM
162	Pool / beach to replace the Toowong pool which was built in 1909 and demolished in 2001	4/17/2019 8:54 PM

163	I dont really care	4/17/2019 8:40 PM
164	Landing point for bridge and if possible most of the above	4/17/2019 8:20 PM
165	Something like River Quay would be nice.	4/17/2019 7:37 PM
166	Green space would be wonderful, as there is so much high-rise development already in the neighbourhood. Toowong needs a riverside park where the locals can have a picnic or BBQ by the river. I don't think sports space is appropriate, and nor would I like to see a community hall or other buildings. Let's just have a lovely park!	4/17/2019 11:33 AM
167	A mixed use public space. For example; Park sports facilities cafes and farmers markets	4/17/2019 1:14 AM
168	Bicycle path along the river all the way to UQ	4/16/2019 5:59 PM
169	An Epicurious style garden, along the lines of the one at South Bank, a scented garden, a garden illustrating how to best use native plants	4/16/2019 1:21 PM
170	Really need a pool in the area	4/16/2019 12:07 PM
171	Maintained public park on the river and a bridge over to West End. Put a cafe or two in the heritage building. Life could be so sweet.	4/16/2019 12:06 PM
172	Just a green space park. There are so many parks with playgrounds in the electorate it'd be nice to have a simple park filled with grass and trees only.	4/16/2019 10:06 AM
173	Road bridge	4/16/2019 8:09 AM
174	Trees	4/16/2019 7:18 AM
175	Outdoor performing space for local music (Amphitheatre, Stage etc. may not be viable due to the terrain).	4/15/2019 10:43 PM
176	Build a community garden where local residents could grow and harvest free-for-all produce. The heritage building could be used as a space for conducting workshops around gardening.	4/15/2019 9:41 PM
177	Epicurious garden An arboretum of native trees A boardwalk over the river at the park's edge Public mooring for visiting watercraft	4/15/2019 7:25 PM
178	Parking would have to be a consideration and as the site is prone to flooding this would need to be taken into account.	4/15/2019 3:21 PM
179	An outdoor theatre space (perhaps like the one in the Botanical Gardens) for community events, local musicians and acts to perform on. Sunday afternoon jazz performances, school recitals, local buskers.	4/15/2019 3:08 PM
180	From the Toowong site, a riverside walk and bike path to UQ would be ideal. (It is past private property but so is the New Farm walk and bike path.)	4/15/2019 11:37 AM
181	This side of Toowong is lacking green spaces and this park would be such a fantastic addition. Seeing how popular parks like Gyatt Park is, I can only imagine how popular this one would be.	4/14/2019 3:57 PM
182	Huts (connected to BBQ), music stand, general hut that can be hired to sell things like ice cream, fresh produce, cycle path	4/14/2019 3:45 PM
183	It would be wonderful to have a park on the river that rivalled New Farm park for picnics, bbq and birthday parties	4/13/2019 4:04 PM
184	Fenced off leash area for dogs!	4/13/2019 2:53 PM
185	Riverfront park!	4/13/2019 2:41 PM
186	Even partial purchase	4/13/2019 2:40 PM
187	Restaurant/Cafe	4/13/2019 8:33 AM
188	There are many young families and students living in small apartments in the inner west. It would great if there could be additional shaded, outdoor play equipment for local kids that don't have back yards. Or place or students where students can have bbq or picnic with friends, who wouldn't otherwise be able to socialise in their apartments. Combining this with a public swimming would greatly enrich people's quality of life.	4/12/2019 2:09 PM
189	playground, fishing wharf, outdoor music/performance venue like southbank	4/11/2019 2:42 PM
190	Any green space area or facility that is free for the community to use. There has been so much development in that vicinity that green space is vital to soften the concrete jungle feel. If it is linked up with a green bridge it will be a wonderful asset to that pocket of Toowong.	4/11/2019 1:50 PM
191	A garden to feature plant species indigenous to the banks of the Brisbane River. Built and commercial structures would reduce available space. Maximise accessibility for all members of the public.	4/11/2019 8:38 AM

192	Any opportunity to extend the bike path further around the bend to UQ / St Lucia? Is any of this possible as part of a smaller scale development to help off-set costs? A public pool would be awesome.	4/11/2019 7:17 AM
193	Primarily gardens and space for quiet reflection such as the community garden at SouthBank and the Japanese garden at Mt Coitha Botanic Gardens. Both attract visitors who quietly appreciate the space and sit in quiet reflection - respite from the city.	4/11/2019 7:04 AM
194	City Hopper should shuttle into Regatta CityCat stop.	4/10/2019 11:08 PM
195	Creative Space/Hub where artists can exhibit their work	4/10/2019 9:42 PM
196	Exercise equipment	4/10/2019 9:21 PM
197	There are a lot of young people in the Toowong/ West End area - they would use outdoor spaces such as basketball courts.	4/10/2019 5:46 PM
198	This could be a place to sit and view the city lights or observe movements on the river. It would be a great place for exercise groups to meet and for groups of friends to meet up if there are facilities to encourage this.	4/10/2019 3:39 PM
199	Green space! Trees, relaxing area, and a composting hub for toowong.	4/10/2019 3:06 PM
200	Why not put the school there?	4/10/2019 3:03 PM
201	Facilities like a pool or BBQs would need adequate parking, because usually they attract families who need cars to transport kids with bags and equipment etc. Picnic spot is a nice idea, but frankly it's a little too close to the main road - there are noise concerns and in general it would feel too busy. Gardens and a basketball court I like better, because walkers/runners/cyclists can stop there to enjoy the space casually between work and home. A ferry stop would be fantastic - Toowong is a huge transit hub for buses and trains, so if the ferry system is linked in it would be very useful.	4/10/2019 12:34 PM
202	A designated council booking, river front site could be created, perhaps with a gazebo/ rotunda to attract weddings and childrens birthdays etc, (much like New Farm Park Rotunda although it wouldn't need to be so big). Designated booking sites are currently cost incurring, with charges of around \$320 per 2 hour booking, which could help greatly towards the cost of maintaining the park (and possible bridge). Please note some permitted vehicle access would be needed for loading and unloading of hire equipment e.g. wedding chairs etc. If you would like to explore this idea further I would be very happy to discuss.	4/10/2019 11:53 AM
203	I don't live in Toowong so I think it should be up to local residents there who know best what they need in that area	4/9/2019 9:36 PM
204	It would be a fantastic multi purpose site. Great for a green bridge and so much more! Could this be a good spot for a small school??? Middenbury house could be converted into a community center that could be used for all manner of public purposes, it could even be rented out for a social enterprise that would service the community. Play groups, art classes, fitness classes and so much more.	4/9/2019 9:05 PM
205	How will those living in outer suburbs get any advantage from this park, it sounds like this is for inner city dwellers that already have numerous parks and open spaces.	4/9/2019 7:06 PM
206	A low cost hail and ride ferry service rather than a city hopper using the old cross river ferry boats would be more appropriate for Toowong	4/9/2019 5:10 PM
207	More green, outdoor space is needed around Brisbane!	4/9/2019 3:03 PM
208	Makes total sense to give West End a City Cat ferry stop...we were promised this when we bought in .west End	4/9/2019 4:06 AM
209	a landing site for new bridge to west end	4/9/2019 1:31 AM
210	Public space with a jump-off point for the pedestrian cycle bridge.	4/8/2019 9:51 PM
211	Habitat	4/8/2019 9:37 PM
212	Public use pleasant space could be part of the entrance to the cycle/footbridge as it is for the Southwest end of the Kurilpa Bridge.	4/8/2019 9:24 PM
213	Car parking access must also be considered. Very limited free parking, most is private (eg Toowong tower etc)	4/8/2019 9:06 PM

214	These questions are a bit leading, but I'll put it to one side. While I ticked the box "selling was a good idea", I did so in the knowledge that the ABC has just built an expensive new headquarters at Southbank. Money does not grow on trees. It would be wonderful if it did. And like everyone, I'd like something for nothing. (And yes, I am a strong supporters of tax reform so the wealthy pay more. But that's not happening). So in the context of a less-than-ideal world, yes, I think living within your means is a "good idea". I'd be interested if you'd asked "Was selling the ABC site at Toowong so they could build a one headquarters (without cancer clusters) at Southbank a good idea?", you might have got different replies.	4/8/2019 8:03 PM
215	Is this site still contaminated? This site would make a wonderful green space	4/8/2019 7:48 PM
216	Community art gallery. Adventure playground/nature play space. South bank's playgrounds are overrun and the city desperately needs more inner city spaces like this. Community groups need meeting rooms that have disabled access d d are fenced to keep small children safe.	4/8/2019 7:10 PM
217	Units	4/8/2019 7:06 PM
218	The area is not specially an area that would be well utilised as a park area I don't believe.	4/8/2019 6:47 PM
219	ferry stop not needed if bridge gives access to City Cat terminal	4/8/2019 6:34 PM
220	Trees.	4/8/2019 6:33 PM
221	None of the above. Coronation drive is far too busy to support green space in this area.	4/8/2019 6:23 PM
222	Skate park	4/8/2019 6:16 PM
223	A skate/BMX facility is very much needed in West End/South Brisbane	4/8/2019 5:37 PM
224	Car park	4/8/2019 5:35 PM
225	Share ride spot for students	4/8/2019 5:27 PM
226	-Community gardens (similar to Rocks Riverside Park in Seventeen Mile Rocks) - Water park for children -BBQs for community by the river	4/8/2019 1:37 PM
227	Cannabis Cafe. As the world prepares to end criminalization of cannabis consumers, as they once did with homosexuality, there is no place in the state for the stigmatized to legally gather. A cafe could be created at a distance, perhaps height, which could keep consumers away from they haters. there are hundreds of such places overseas from Amsterdam to Toronto and LA. People fondly recall their experiences at such places as memorable, even designing travel for that special purpose. Given UQ has been global center of anticannabis propaganda via prof W Hall misguing the WHO for decades, this would be a nice turn around now the rest of the world including the UN are seeing Cannabis consumers as people often self medicating a health problem. Given the high rate of stres, mental illness and substance in the community. The World Health Organizations prediction the burden of mental illness will double again ( antidepressant use doubled during the last decade also), it would be revolutionary to offer an alternative that the State Hospitals are refusing to support for therapeutic use, even with anxiety, depression and psychosis stemming from PTSD which psyche drugs can't treat without risk of substance abuse, suicide, and premature death. There could be State supply, a State farm, perhaps in conjunction with Ag dept of University, to help quality and affordability. The ABC via Health Journalist Dr Norman Swan has also dropped the ball on this one, making any new cannabis venture a landmark for such information which the public has prevented from even knowing..including that Cannabis may be used in psychosis (for relief), not cause it, indeed cannabis reduces mortality by over 50% in middle aged schizophrenics, as I show in attached letter re same <a href="https://docs.google.com/document/d/1vzxKnyiPmQdf82deXK4sjfPxQ_TXESCnyTINAKjLOdM/edit?usp=sharing">https://docs.google.com/document/d/1vzxKnyiPmQdf82deXK4sjfPxQ_TXESCnyTINAKjLOdM/edit?usp=sharing</a> How revolutionary would it be to create a peaceful and pleasant place for people to enjoy feeling good, free of physical and emotional pain, not in a closet of shame..we need some great leap forward with this, including fully legal. Thanks for your support wrt Cannabis. I wish I could be there, but I have tickets to see Nahko and Medicine for the People a fellow adoptee who has a greatv spiritual message about love from pain(healing) and is a fellow adoptee..I will be sending you postive energy from the Triffid that night..i know it's pipe dreams but may-be one day..by the way highly intelliegnnet people such as UQ graduates are prone to psychosis and have fled the persecution in Qld for using Cannabis for Northern NSW, I have met quite a few..lets help them closer to home, and many others who have a desperate desire for the relief cannabis gives but no place to go..of course other places may be more appropriate for this..I keep eyeing off the old Wesrc End Police Station in Boundary St, perhaps because it is similar in style to Australia's only Cannabis cafe, The Oasis in Nimbin. Brisbane needs an oasis or two for people with all sorts of problvems that Doctors and Hospitals are only willing to drug them, in my case almost to death, and others I have witnessed as Medical doctor and in my family.	4/7/2019 6:58 AM
228	a modern public park. No retail, especially not coffee.	4/5/2019 9:04 PM
229	Public housing	4/4/2019 8:57 PM

230	Space suitable for community theatre group rehearsals and similar	4/4/2019 6:24 PM
231	Unbroken Bikeway (not lane) connection to the Western Freeway Bikeway.	4/4/2019 5:06 PM
232	I am not sure if this specific site floods but keeping it as gardens (not infrastructure) would provide a low cost/maintenance space which also provides a green space for people to use and habitat for animals.	4/4/2019 3:06 PM
233	Active outdoor gym	4/4/2019 2:27 PM
234	Open parkland similar to Roma St and Southbank Parklands. Parkland that encourages people from all over and makes use of natural fauna and riverfront land. Something that could possibly become a tourist destination as well. Tourism in Toowong could increase retail demand that is desperately needed in the area.	4/4/2019 10:22 AM
235	A cross between a park and southbank. - space for people to relax and enjoy, come somewhere quiet away from hustle and bustle of city, open garden space - place for families: frisbee, BBQ's, sport courts, possibly a public pool - need to ensure that it is well maintained and not forgotten about	4/4/2019 10:06 AM
236	The community hall should house a community centre/hub so that there's always someone around which makes these spaces feel safer and therefore attract more visitors/users.	4/4/2019 9:34 AM
237	Clean up the river and include a river bath!	4/4/2019 8:55 AM
238	Footbridge	4/3/2019 7:52 PM
239	Native plants, community vegie/herb garden, make the most of the river views	4/3/2019 6:38 PM
240	I do like the idea of a community hall but would also favour a covered rotunda or bandstand large enough for community performers and creative groups to use as an outdoor stage, perhaps encircled by a grassed area, with also a ring of large trees for shade.	4/3/2019 4:09 PM
241	As long as it's got a cricket pitch	4/3/2019 2:51 PM
242	As little "grass" and European-style gardens as possible - involve First Nations peoples and cultivate a space that the land can sustain. A place with sparse bushland and perhaps picnic areas spread around would be lovely	4/3/2019 2:13 PM
243	Something similar to Gardens Point... Toowong is becoming more like a concrete jungle	4/3/2019 1:58 PM
244	Park and gardens	4/2/2019 1:39 PM
245	Challenging playgrounds that involve some risk taking suitable for all ages and abilities. Dog of leash area.	4/1/2019 7:51 PM
246	Lots of trees! Big trees! Fig trees! Also free public wifi and power points so people can do things like study outside. And a community garden, and public composting so that people who don't have their own backyards can dispose of their food waste in a sustainable way.	4/1/2019 6:35 PM
247	I don't think it should be converted to a public space	4/1/2019 5:15 PM
248	A semi open meeting/assembly area/amphitheatre for performances, public events, and perhaps with capacity for private hire for weddings, etc.	4/1/2019 2:48 PM
249	A public pool would be most appropriate since the loss of the historic Toowong Municipal Baths formerly located across the road from this site	4/1/2019 10:28 AM
250	Ferry Street in West End was called that because it is where the original ferry used to run to. At a minimum, I feel that the city hopper should be reinstated.	3/31/2019 6:16 PM
251	Dog park with separate fenced area for small dogs. (Public Hall will create too much noise & negative impacts for existing high density neighbourhood)	3/31/2019 9:30 AM
252	Leave it green. Nothing but seats and shade. The test plants	3/31/2019 7:34 AM
253	Skatepark Small community bouldering rockclimbing wall, much like in Melbourne along the Maribyrnong River Trail	3/30/2019 10:13 PM
254	It should be a combination of ideas but ultimately should come down to what the people in that area would use it for the most. You should definitely do a community consultation for it.	3/30/2019 2:17 PM
255	If the ABC buildings are still on the site, they could be converted to cohousing style mixed housing (i.e. rental units, some of them set aside for low income people, and some community spaces for the residents to share facilities (e.g. laundry, table tennis/pool table, Vegetable gardens, bbq space). Intending residents could take part in planning the design and layout of the complex, and the individual units. See online, the Nightingale method for cohousing in apartment buildings, and the Pinkarra cohousing development created by Fremantle City Council in the 1990s with resident participation.	3/30/2019 1:29 PM

256	Provide an improved bike path along Coro Drive to improve the substandard and unsafe existing path that runs along the Coro Drive facing side of the ABC site at present.	3/30/2019 5:58 AM
257	BBQs, kids play, preserve the old residence and restore its gardens close to it. Only provide disabled parking areas!	3/29/2019 7:06 PM
258	informal green space with minimal concrete. place to play and for simple enjoyments	3/29/2019 1:50 PM
259	Not sure at this stage, but this should be a public space for pedestrians and cyclists	3/29/2019 9:54 AM
260	Ideally, this includes: * meeting areas (tables and chairs with shelter, maybe a speaker's corner); * green spaces (picnic areas, shaded spaces, native species for forage-able food and education); and * facilities (well-maintained and eco-friendly toilets, showers, a basic camp kitchen, BBQs).	3/29/2019 9:40 AM
261	A hydro therapy pool is needed for the growing elderly residents in Toowong Area	3/29/2019 9:31 AM
262	For the public to enjoy the river views. Definitely a park. Picnic tables. Maybe a rotunda for outdoor weddings or something. A small cafe / bar. For the area set back from the river, a mini rainforest, for forest bathing. It's so far to go to the nearest rainforest. And in the world we are so lucky to live in an area that actually has / used to be rainforest. Reports by early European explorers such as Allan Cunningham and Oxley indicate rainforest once fringed the Brisbane River and its major tributaries, especially on the broader floodplains such as St Lucia and Seventeen Mile Rocks. The surrounding area of Toowong is dense with buildings so the ABC Park could be a good respite. You could also maybe put some small fun amenities like an outdoor table tennis table (like other brisbane parks); Some permanent furniture that you can lounge on (like the New York High Line). Etc.	3/29/2019 12:54 AM
263	I would need to think about this.	3/28/2019 6:37 PM
264	A city hopper ferry stop really goes against the idea of creating a free public space. No to that idea.	3/28/2019 1:25 PM
265	A space like New Farm Park which is well utilized by family and people of all ages. Spaces of this type enhance your life in so many ways. As people move into apartments and higher density housing becomes the new normal our green spaces will be very important to even the people who aren't thinking about these issues at the moment. Around the world you can visit many cities and you realize very quickly how much people treasure and love their green spaces complete with large trees and benches to enjoy these restorative oasises.	3/28/2019 12:59 PM
266	Ministadium for street artists	3/28/2019 12:47 PM
267	Riverside vegetation arboretum to represent vegetation before colonisation and do some carbon capture.	3/28/2019 12:38 PM
268	Outdoor speakers' area for community meetings. Indigenous art works.	3/28/2019 12:28 PM
269	Urban commons. A park area that can also be used for concerts and markets	3/28/2019 11:46 AM
270	It would be good to continue the bike path along the edge of the river all the way to the university of Queensland or at least up to Guyatt Park.	3/28/2019 11:08 AM
271	A sculpture garden an Bothe sides of the river.	3/28/2019 10:56 AM
272	I work in Toowong, and think this would be a really nice spot to sit and have lunch when I need to get out of the office, so some park/garden space and seating would be great.	3/28/2019 10:48 AM
273	Perhaps instead of an indoor hall, an open air but covered flexible space	3/28/2019 10:42 AM
274	Community garden	3/28/2019 10:38 AM
275	Children's play areas including water play area, especially if the public pool suggestion isn't viable.	3/28/2019 10:31 AM
276	Skate/bike skills park, exercise equipment, playground with climbing structure. We really need somewhere for young people and kids to stretch their legs and play with increasing numbers of children growing up in units around toowong,st lucia, milton, auchenflower areas. So important for them to have spaces for physical activity.	3/28/2019 10:27 AM
277	Re the ferry stop: i presume the only one around the area is at the Regatta Hotel area. They are costly to build but i think a new one could be warranted (not that I'd use it). Others would know more about this than I would. BBQs - very few if any people leave them as clean as (or in better condition) than when they commenced using them.	3/28/2019 7:37 AM
278	An area similar to the south bank area near the jetty would be amazing. And a source of economic benefit if it could be leased similar to South Bank Corporation leases	3/27/2019 9:12 PM

279	The old Toowong library should be bought back by council and restored in sympathy with its original architectural vision and used as a community hall space, where community and arts groups could meet and have events	3/27/2019 8:37 PM
280	night lighting, power, water, bulletin board one side with a chalk board same as the model at paradise street to book the picnic table there - love this and wish it was in lots of other parks!	3/27/2019 7:55 PM
281	A landing / abutment / entry point for the cycle / pedestrian bridge	3/27/2019 6:55 PM
282	These are all very good suggestions.	3/27/2019 5:11 PM
283	A community pool is needed.	3/27/2019 5:07 PM
284	Any of the above ideas are great. Perhaps it could be a good spot for a community garden or dog park?	3/27/2019 4:06 PM
285	Green space.	3/27/2019 3:46 PM
286	combination of gardens ( green space ) and outdoor sport areas	3/27/2019 11:31 AM
287	Artspace	3/27/2019 11:22 AM
288	A community theatre!!!!/mixed use space but we really need more 100-200 seat black box theatres!	3/27/2019 11:09 AM
289	The Site is a Cancer farm, give it to the private developers. We'll take the 5km of Coro Dr river edge that is safe.	3/27/2019 9:46 AM
290	I hope that there should be City Hopper ferry station available in West End.	3/27/2019 9:02 AM
291	commercial and outdoor space.	3/27/2019 8:51 AM
292	The old house could be a marvellous community space. Not a good idea to create more buildings if this is to be open space. Look at what has happened to Southbank & the Mall, both once brilliant assets & now junked up with buildings.	3/27/2019 8:34 AM
293	Space for gardens, picnics and a good covered children's play area.	3/27/2019 8:21 AM
294	Children's playground	3/27/2019 4:23 AM
295	a bridge, west end and toowong are awash with some of the best parklands in the south east qld area	3/27/2019 1:03 AM
296	A new skate park, space for markets	3/26/2019 9:36 PM
297	The site was sold because of its connection with a cancer cluster affecting ABC staff. This is a residual issue for the land and needs to be considered when future uses are being considered.	3/26/2019 9:17 PM
298	All of the above. Just dont make it commercial. A green space where people can just be. A space to kick a footy have a barby and read a book in the shade of a tree.	3/26/2019 9:12 PM
299	I would suggest to look at some potential MVRDV projects of architecture urbanism; if the site must be developed, there needs to be elements of public, semi public and so forth. The idea of a swimming pool and outdoor auditorium would sit high on my mind.	3/26/2019 8:38 PM
300	A market space, expanding west end markets across a walking bridge as it is getting very crowded at Davies Park a beach volleyball court A water fountain to drown out traffic noise from nearby Coronation Drive Community garden	3/26/2019 8:26 PM
301	I run a small business where we run dance classes, we were without a venue for over 6 months because there was no suitable community space for hire. Small start up businesses also benefit from community halls because they don't have the cashflow to use dedicated business venues. These halls should not have wedding hire prices as their default price. It would be amazing if there was a small high rise/ multi level community hall space with rooftop garden and public pool.	3/26/2019 8:25 PM
302	Something akin to Bunyapa Park, not necessarily the same, but an open space for a wide array of uses or activities. Maybe a hard court area for futsal, basketball, bike polo etc.	3/26/2019 8:03 PM
303	Outdoor music venue, ziplines (lol), adult swings, terraces overlooking the river, plenty of shade (large figs, cool shade structures)	3/26/2019 6:50 PM
304	BUILD A REPLICIA OF THE GLOBE It would be the first *permanant* replica in the Southern Hemisphere. It can be used for entertainment & educational purposes especially if built in a similar way to the London version with a museum/community space under.	3/26/2019 6:14 PM
305	Green space corridor from toowong village down to river and along river bank with some parkland for picnics with views along the two reaches of the river.	3/26/2019 5:53 PM
306	Any facility that would benefit the general public.	3/26/2019 4:53 PM

307	Communal/flower garden so people can pluck some herbs and the bees have a place to pollinate	3/26/2019 4:41 PM
308	A City Hopper link along Riverside Drive as there is no other across river link between West End Orleigh Park and South Bank.	3/26/2019 4:10 PM
309	A park with toilet facilities is desperately needed in the Toowong area.	3/26/2019 1:10 PM
310	Toowong and moorlands park is <500m from the site.	3/26/2019 12:50 PM
311	Kids park	3/26/2019 11:50 AM
312	A family-friendly space with a pool and water play, community food garden to provide a place for people in surrounding units/small lots to compost and pick fresh herbs, nature play, skate park, and climbing frames and trees!	3/26/2019 11:42 AM
313	Green space, we desperately need more greennnnnn.	3/26/2019 11:42 AM
314	City cat terminal	3/26/2019 11:15 AM
315	Brisbane severely lacks green space. I have lived in Shanghai- A very populated city with high density living. Relatively, Shanghai has better supply of green, public space than Brisbane.	3/26/2019 11:09 AM
316	Perhaps pool and park - there used to be one nearby in Toowong	3/26/2019 10:09 AM
317	A park similar to Bunyip on Vulture St, West End, but with more shady trees.	3/26/2019 10:06 AM
318	Art work, Drinking Fountains, Bike/Scooter parking, Shade, paths for children to learn to ride scooters, bikes, etc. (like the bike park at Aura in Caloundra, adventure play ground (like Lions Park in Gladstone <a href="http://www.healthyactivebydesign.com.au/case-studies/lions-park">http://www.healthyactivebydesign.com.au/case-studies/lions-park</a> ) Rather than a pool incorporate some water fun activities like out at Yarrabilba <a href="http://www.healthyactivebydesign.com.au/case-studies/yarrabilbas-darlington-parklands">http://www.healthyactivebydesign.com.au/case-studies/yarrabilbas-darlington-parklands</a> Building in inter-generational elements would be great too. Don't build car parking into the plan to encourage getting there by active means, especially if the green bridge goes in and the space is connected to pathways that join up to other pathways from activity/transport centres/stations.	3/26/2019 9:52 AM
319	Hub for onwards travel between West End and Toowong - like a welcome to Toowong garden or a guide point for where to go for your onward journey.	3/26/2019 9:35 AM
320	The fact that a city hopper stop could be considered for this site just shows how much West End residents are being considered in this whole mess. Maybe the city hopper terminal should go from West End public jetty to either Milton or Regatta.	3/26/2019 9:30 AM
321	No sure of the area involved, but definitely a space to relax, play and enjoy peace and fun with family and friends.	3/26/2019 8:03 AM
322	A playground similar to Frew Park in Milton	3/26/2019 6:41 AM
323	As long as the land isn't contaminated and the cancer causing issue was the actual tower.	3/26/2019 5:18 AM
324	The main aim should be to connect this river edge with toowong shopping centre and the pedestrian zones around this hub. Subsequently the function of the public space should stimulate connection as well as dwelling along the river edge; activating our city's biggest asset!	3/26/2019 5:07 AM
325	Please, provide some place for our wildlife to refuge in! Leave the existing gum trees alone, and provide native plants/mangroves as habitat.	3/26/2019 12:36 AM
326	A bridge might really destroy the riverfront view and character of west end but a ferry terminal at the site of the current recreational jetty might allow for ferry access across the river between. CityCat > City Hopper here. I would support a green bridge if the design is nice, subtle and blends in with the gardens and parks of the west end. Perhaps a tunnel under the river would be more appropriate. but it would be more expensive and would have to be very generous in size to allow pedestrians to walk under the river feeling safe and not claustrophobic with cyclists and other pedestrians. more efforts would need to be made to make a tunnel feel safe at night compared to a bridge as well and that is one thing to consider.	3/25/2019 11:29 PM
327	Community vegetable garden	3/25/2019 11:21 PM
328	I think the money should go to the City Cat stop in West End ( bottom of Victoria St) then you could get it across to the Toowong stop. There would not be a need for foot bridge.	3/25/2019 10:37 PM
329	Low-cost public housing incorporating a Community hall. Open space/ community gardens.	3/25/2019 10:35 PM
330	A large underground parking facility, merged with a multi-modal passenger transfer facility, including a pedestrian tunnel that crosses over the railway level (but below the level of Benson Street) to integrate with Toowong Village. Also, the Toowong Citycat stop should be integrated via a tunnelled 2-way moving walkway (or tram shuttle).	3/25/2019 10:34 PM

331	Waterslide/s?	3/25/2019 10:01 PM
332	Community hall with shared vege gardens, bee hives, natural bio swales to aid storm water management and solar panel site.	3/25/2019 9:46 PM
333	Pet friendly park/garden with bike parking and a swimming pool	3/25/2019 9:41 PM
334	Community garden	3/25/2019 9:30 PM
335	A key priority should be extending public foreshore access on both sides of the river, since these linear parks are heavily used by walkers, bike riders etc. I would also really like to see public foreshore access extended east of the West End ferry wharf to Dutton Park. Some of this land is already in public ownership, already being used as a park, or belongs to Catholic Education Brisbane.	3/25/2019 8:42 PM
336	Bike skills park (eg <a href="https://www.youtube.com/watch?v=voj_KeA4FEA">https://www.youtube.com/watch?v=voj_KeA4FEA</a> ), large shelter to hold events or community workshops	3/25/2019 8:41 PM
337	NB City of Sydney purchased an approved DA to create Pirama Park in ULTIMO ... there is precedent	3/25/2019 8:36 PM
338	Similar to Flowstate on South bank - a leisure green space that provides accommodation for art / theatre exhibitions	3/25/2019 8:19 PM
339	The walking bridge from West End to toowong is the best idea for the space I feel, and some parkland as well if there is enough room. The walking bridge would really help to reduce transport issues between the areas.	3/25/2019 7:49 PM
340	Dog friendly space	3/25/2019 7:43 PM
341	an all weather outdoor commons space / village green for performers to use free of charge among other things which supplies amenities including power. & definitely a skatepark.	3/25/2019 6:58 PM
342	Awesome adventurous playground esp for older kids. Nature play style. Big logs and climbing opportunities. Skateboarding jumps/rails.	3/25/2019 6:50 PM
343	A place to buy coffee while enjoying the park.	3/25/2019 6:46 PM
344	Markets to replaced the old West End Markets. That would certainly lead to greater usage of the new footbridge.	3/25/2019 6:41 PM
345	Parklands	3/25/2019 6:40 PM
346	Open public space along the river should be preserved as much as possible.	3/25/2019 6:32 PM
347	PCYC for the kids as there is nothing for all the kids to do Int west end.	3/25/2019 6:26 PM
348	Community Theatre	3/25/2019 6:10 PM
349	Gardens surrounding the start of a walk/cycle bridge - not to be used for markets, traders, music venue or another other commercial purpose apart from a ferry stop.	3/25/2019 6:02 PM
350	Science education centre/greenspace with uni/museum input	3/25/2019 5:56 PM
351	Why should this site be turned into yet another public park that the tax payer has to pay for the maintenance and upkeep? The land has been sold! End of story!	3/25/2019 5:55 PM
352	Toowong and West End drastically needs space for greenery and public and family mingling. This is good way to achieve that.	3/25/2019 5:14 PM
353	foot bridge terminus	3/25/2019 5:00 PM
354	I'm fine with it being private as long as it doesn't affect Coro drive traffic too much.	3/25/2019 4:48 PM
355	Also consider redevelopment of the ABC site being restricted to part of the site and the remainder being used to extend the networks of public space, ped-bike links etc. A public access link through this site could put Toowong Village centre within walk-bike distance of high density apartments in West End riverside area.	3/25/2019 4:44 PM
356	Amphitheater	3/25/2019 4:38 PM
357	Small functions centre for local community groups, plus showers and toilets.	3/25/2019 4:37 PM
358	not sure	3/25/2019 4:33 PM
359	Nothing - don't care and not a real issue. As a "green" councillor you should be focused on real environmental issues. This space is a nothing issue when compared with what I've outlined about river crossings.	3/25/2019 4:29 PM
360	Would be lovely to have a south bank style beach here	3/25/2019 4:20 PM

361	publicly accessible open space, well lit, would be a good use .doesnt have to be grand. My favourite park in the neighbourhood is orleigh park. a bit of space, green , trees, place to play for the kids, free, keep it simple.	3/25/2019 4:15 PM
362	An outdoor community gathering space/ creative walkways with quiet areas here and there for contemplation looking at the river/ sculptures/outdoor art space. Definitely no pool or basketball court!	3/25/2019 4:14 PM
363	Masteplan process not this piecemeal approach.	3/25/2019 4:12 PM
364	Plus restaurant/cafe in heritage house	3/25/2019 4:12 PM
365	I'm very concerned about 'development' in green space. Green space should be exactly that. Plants - trees, grass, open space. We do not need concrete slabs and huts or bbqs or basketball rings. Open space is needed rather than all this artificial stuff. Orleigh park has too much of this and the proposals for the green space along Milton reach also have unnecessary built stuctures. What we need is trees for shade. Space for nature and place for natural play areas.PLEASE NO MORE BUILT STUCTURES IN OUR GREEN SPACES.	3/25/2019 4:04 PM
366	Weekly market stalls	3/25/2019 4:03 PM
367	NOT an overdeveloped southbank-style-theme-park but something more quiet and reflective, an escape from the surrounding overdevelopment.	3/25/2019 3:53 PM
368	Boardwalk / cycle track to UQ. Cyclist could avoid the roads into UQ on the river loop	3/25/2019 3:47 PM
369	Garden/parkland	3/25/2019 3:46 PM
370	A Pontoon that rowers can pull up at a coffee shop	3/25/2019 3:46 PM
371	Skatepark	3/25/2019 3:41 PM
372	Space along river fronts and other water bodies should always be public.	3/25/2019 3:36 PM
373	Water feature/play space for children.	3/25/2019 12:33 PM
374	It will be a difficult site to upgrade and incorporate into the surroundings. Perhaps a combo of infrastructure and private (eg. commercial) use to help fund the project	3/24/2019 9:47 AM
375	Raised Herb gardens and pond included in general gardens. All in all I think a 25m pool with gardens or just gardens with picnic areas on riverside if not much land would be left after pool and changing area.	3/23/2019 8:40 AM
376	I'm not sure of the size of the site so my top choice is green space - trees, gardens, and picnic suitable grass or even wooden low tables that double as seats (like japanese style tables). An adult suitable swing set - they use swings to ground people in mental health practises, so as well as it being fun for us all, it's a very cheap health initiative for the community! Also a basketball court would be rad if space allowed for that as it's a fun team fitness activity - could recycled materials be used for the court base rather than traditional cement?	3/22/2019 7:32 AM
377	Open space where you can sit, have a picnic, and enjoy the river.	3/21/2019 3:52 PM
378	keep the mangroves and as much remnant vegetation as possible.	3/21/2019 3:01 PM
379	Please by the land back for a Green area.	3/21/2019 12:28 PM
380	I do not think there is sufficient room for a pool or sporting facilities. It is more important to have green space and large shady trees for everyone to relax in. There are sporting facilities at UQ and the city cat opposite the Regatta Hotel.	3/21/2019 10:39 AM
381	Multi-use public space with minimal clearing to ensure biodiversity and sustainability. Maybe a PERMACULTURE garden, community garden (like Jane St in WE) would be amazing. Something to give back to the local community, that can be easily sustained. Community composting too (ugh, get it together BCC, the Tweed Council provides composting to residents!!!). I have a colleague involved in a project named 'Green the Street' that could offer plenty of advice and volunteer planting/maintenance too! Also, native bees! Hives! Public access honey! All that good stuff!!!!	3/21/2019 5:31 AM
382	Include public information boards about Brisbane/ the site's history and the ecology of the area (and why it is important that we take care of it).	3/20/2019 9:45 PM
383	A venue for the community to gather - an amphitheater would be a great asset for concerts, meetings along with a pool and a green space. A city hopper ferry stop would be a bonus!	3/20/2019 8:38 PM
384	Park and Ride	3/20/2019 7:53 PM
385	Any!! There aren't enough decent / shared open spaces in the area	3/20/2019 7:53 PM

386	To conserve/create green space I would like to see an elevated embarkation point on both sides of the river for the pedestrian/cycle bridge with multi-level green space for public use. Inspiration could be taken from the Urban Island Prototype, Seoul's Seoulo 7017 and Barcelona's Highline. Provision could be made for dedicated children's playgrounds, a skateboarding arena, outdoor gym, etc.	3/20/2019 5:35 PM
387	Brisbane river frontage has been sold for high density, luxury apartment living. What about the ordinary folk. Families, students, young people need a place to escape from the immense increase in population growth around this area and the reduction of park space. We need greenery, we need trees, we need outdoor spaces if this city is to maintain its livability. We are losing Mt Cootha to non residents and possibly destroying the habitat of the Mt Cootha owl colony. This is essential, not a luxury for this city. I was here when large parts of Brisbane was rural. While I know that money in the pocket is better for some than a healthy environment. We won't be able to turn back the tide if we kill off animal habitat and human need for a natural retreat.	3/20/2019 5:18 PM
388	Just some 'relaxing by the river' passive recreation space	3/20/2019 4:49 PM
389	restored to river bank with mangroves and wetlands for cleansing stormwater entering the river and flood management	3/20/2019 4:46 PM
390	A space for yoga, tai chi, qi gong, etc, away from active areas. Team sports are already well catered for locally. Plenty of shade trees - some mature ones from the beginning.	3/20/2019 4:45 PM
391	Multi-purpose public space. Available for markets, free concerts, rallies and the like. Perhaps a modest observation tower for city sight seeing.	3/20/2019 3:37 PM
392	Not sure - definitely community use. I haven't done a detailed study of the site.	3/20/2019 11:52 AM
393	Gardens first. Most other options are not really 'green' as recreational facilities are not often the same as green spaces. A ferry terminal is already a stone's throw away and would be a waste of good money. Some trees to offset the concrete horror now surrounding Toowong Tower would make for some balance.	3/19/2019 2:45 PM
394	Any of the above in preference to further unit towers!!!! A place where all these unit dwellers could enjoy some green space and generally relax.	3/19/2019 9:34 AM
395	Shaded space, but not indoor space. Not a pool - too much fencing and safety considerations. The Regatta ferry stop is close enough; a new one not needed	3/19/2019 9:09 AM
396	Children's playground, shady trees. Possibly public jetty for launching canoes etc - but vehicle access and parking could be too difficult.	3/19/2019 7:51 AM
397	Additional greenspace with trees and gardens would enhance the amenity of the area.	3/18/2019 4:23 PM
398	Toowong has lost a number of amenities, in particular green space - essential near the river . This is an opportunity to let the suburb again after massive over development.	3/18/2019 4:17 PM
399	A bigger library, a development centre with access to tools and equipment such as 3d printers, building tools, and so on.	3/18/2019 3:30 PM
400	Brilliant and gardens etc similar to Roma St Parklands .Couple of the buildings ie Middenbury will remain and let's remember the old ABC site for the many who worked there - apart from the tv building of course	3/18/2019 2:52 PM
401	we really miss the lovely little pool that used to be on Coro Drive between the former library and Toowong Village. Another pool would be great.	3/18/2019 11:30 AM
402	Water splash and play park area	3/18/2019 10:50 AM
403	nature refuge for city wildlife, and as a site to trial inner-city cohabitation	3/18/2019 9:51 AM
404	playground	3/18/2019 9:13 AM
405	Outdoor public space is important as breathing space for those living in all the new tower blocks in the area.	3/17/2019 4:34 PM
406	Community garden with weekend markets	3/17/2019 3:55 PM
407	A Regional Park	3/17/2019 2:53 PM
408	A dog enclosure a water course similar to that at Rocks river Gardens	3/17/2019 12:14 PM
409	A large open space for families to gather. Trees and a cycleway by the river from the Coronation Drive cycleway. Make it somewhere locals can meet, complain, discuss, relax. Some sort of a barrier between the park and the main road to isolate it from the traffic noise.	3/17/2019 12:02 PM

410	It would be neat if it could be a winding, green bridge like the High Line in Manhattan - with lots of native mini-gardens, little shade trees (if that's possible), little spots for picnics, and places to just sit and take in the views. It would be a lovely place to take friends from out of town and overseas, and would boost Brisbane's "cool!" factor. I would definitely throw my tax dollars at that!!!!	3/17/2019 10:40 AM
411	Not exactly connected by why doesn't the bike path continue along the river to this point and then on to UQ	3/16/2019 9:56 PM
412	Playground!	3/16/2019 8:31 PM
413	Water based sports and river access and marina	3/16/2019 8:12 PM
414	Green, green, green - it is a very tightly packed area green would keep us sane!	3/16/2019 5:52 PM
415	Creating habitat for local wildlife Encourage biodiversity Support indigenous historical and contemporary culture in Brisbane	3/16/2019 2:00 PM
416	Outdoor movie cinema overlooking the river	3/16/2019 1:19 PM
417	Plenty of open green space. No buildings or concrete areas, apart from around the BBQs and the pool (and only a pool if there is plenty of space left). Large shady trees. The Milton Tennis Courts were supposed to be open space but finished up largely built on. We have so few areas of trees left. It's time to replace a few of those cut down in recent times.	3/16/2019 12:22 PM
418	Children's playground	3/16/2019 12:16 PM
419	A wild garden where local flora and fauna have a chance to flourish. Plus a community garden would be good for all the apartment dwellers.	3/16/2019 12:09 PM
420	It should be a bridge that would benefit the whole community, or it should be apartments. That space is too small to be a park.	3/16/2019 9:53 AM
421	If a city hopper were put there and plied between Toowong, Westend, Park Road and North Key there would be no need for a bridge.	3/16/2019 8:00 AM
422	Don't need a ferry stop if you build a bridge. Ferry stop probably cheaper, already got stop at Regatta Hotel.	3/16/2019 6:42 AM
423	I would really like community food gardens and a public pool.	3/16/2019 12:28 AM
424	Outdoor cinema	3/15/2019 11:25 PM
425	The heritage building could possibly be adapted to a café/coffee shop or an old fashioned tea rooms using the rooms as they are.	3/15/2019 8:42 PM
426	More trees and spaces for modern art pieces. Maybe spaces for small business like food trucks	3/15/2019 8:30 PM
427	Bridge connection to existing public infrastructure.	3/15/2019 8:05 PM
428	Please use the lovely old building to make a restaurant with next to it a playground so parents can have a relaxed dinner :)	3/15/2019 7:03 PM
429	Children's play equipment	3/15/2019 5:33 PM
430	I cycle regularly between Chapel Hill, the cbd and West End so very keen for it to host one end of a bridge. Other uses I think should be identified following a good needs analysis looking at what is already available in the area. I'm ticking pool because just looking at the map of BCC pools there isn't another one for miles.	3/15/2019 4:49 PM
431	The people of Toowong have been so overrun by large concrete developments. I think they deserve open space for children and families to use. Maybe those locals should have a say in what they would like as well?	3/15/2019 4:25 PM
432	Riverwalk	3/15/2019 3:44 PM
433	Plenty of Trees	3/15/2019 3:35 PM
434	Recreation is the most important - with all the new apartments, there are too few places to go for a run or have an outdoor workout. Probably also need a dog park, so people don't feel a need to get in a car to walk their dog.	3/15/2019 2:54 PM
435	protect the riparian zone which is critical habitat for mangroves, curlews etc- UQ plans to develop its riparian zone, further fragmenting wildlife corridors A rainforest/ shade trees/ community garden Heritage residence on site to be offered to National trust to run tours or the local Toowong historical society for local history displays or even a cafe to fund the site if it is heritage friendly	3/15/2019 2:49 PM

436	Community garden - growing space or a specialized garden of Indigenous Plants ....Local indigenous groups could let everyone know what the original plants in this area were and what you could eat etc.	3/15/2019 1:43 PM
437	Open, free play park.	3/15/2019 12:01 PM
438	Potential rowing/kayak pontoon under bridge, or viewing platform for races.	3/15/2019 11:50 AM
439	There would be a community memory of the Toowong Baths that existed opposite the focus site and that can only be favourable especially in the promotion process. I'm not against a footbridge between Toowong and West End but a City Hopper would be cheaper and a great asset there.	3/15/2019 11:36 AM
440	This is a wonderful idea. One item, that no doubt would be already considered in the planning, is access to and from the site particularly across, under or over Coronation Drive. In a way it could be like a mini "SouthBank" precinct.	3/15/2019 11:23 AM
441	There is a beautiful, old Queenslander on the site and this could be the feature of a large greenspace, rather like Newstead House. Toowong, Taringa and Auchenflower are being totally overdeveloped. We are losing our Tin and Timber charm which makes Brisbane unique. Too many highrises planned with no parking, expecting residents to use bikes! As if! We all know that Aussies love cars and expect to use them. This is a nightmare for residents. What are you doing to curb this excessive over development? As for bikes! Have you ever tried to use the underpass near Wesley Hospital to get to walk along the banks of the Brisbane River? Pedestrians take their life in their own hands as cyclists speed past at an excessive pace, in spite of the 'lanes' supposedly devoted to them. Incredibly scary! So, NO, to a bridge for cyclists! I would not want another place for cyclists to whizz past me as I try to walk in areas they think solely belong to them. If they could be separated by concrete or wire lanes from walkers, that would be fine. I would love to walk to West End.	3/15/2019 10:36 AM
442	Outdoor stage	3/15/2019 10:07 AM
443	I'd rather a bridge than a Hopper spot; gardens, a public pool, and a cafe (in the original house that remains on the site) would make this a real Brisbane landmark, and complement all the many new appartments that have gone up, but not create a traffic problem	3/15/2019 9:52 AM
444	Have an exercise station there.	3/15/2019 9:45 AM
445	Green space, trees and natural shade	3/15/2019 9:31 AM
446	Location is perfect for a new park being riverfront on one side and the bike way on the other. A city hopper would be a good addition if a green bridge proves too expensive in the short term.	3/15/2019 8:40 AM
447	If not a public pool, a water play space would be great.	3/15/2019 7:52 AM
448	We have a massive shortage of safe play equipment for young children along the river corridor, particularly on the West End side. You have to go to either Southbank or Orleigh Park with 40 mins walk between them! All those young professionals being attracted to West End apartment living are having babies! Wake up to reality urban planners, and provide for your communities.	3/15/2019 7:37 AM
449	Public spaces around Sunland's development would be a good use for the land (as originally proposed).	3/15/2019 7:29 AM
450	Social Housing	3/15/2019 6:28 AM
451	This is prime riverside land – the northside has nothing in a central spot like this after the Botanic Gardens. Riverside land should be for the public to enjoy!	3/15/2019 12:27 AM
452	Shaded, fully fenced playground. Nature playground. Water park. Bike parking and access.	3/15/2019 12:26 AM
453	Kayak ramp please - access to river	3/15/2019 12:20 AM
454	A small lookout tower perhaps? Also an Aboriginal marker on site, with some of the history of the area.	3/15/2019 12:11 AM
455	A public park needs to have something distinctive to draw people. Perhaps a Garden of Contemplation or Sculpture Park to escape the bustle of busy Coronation Drive, with shade, seating, fragrant plants, rocks, winding paths, and surprising, stimulating pieces of sculpture, all of course framed by the view across the river. Something where people can delight in exploring or choose to sit quietly, that attracts all ages and abilities through its beauty and its appeal to all the senses, that excites and at the same time gives a sense of peace.	3/14/2019 11:52 PM
456	Community food garden	3/14/2019 11:25 PM
457	We need more green space and so does our wildlife! How about green space with a water feature, AND a community hall AND lots of nest boxes for birds and marsupials, and some beekeeping options and a community garden.	3/14/2019 11:16 PM

458	Free Art space	3/14/2019 11:08 PM
459	A bridge - not just a pedestrian/cycle bridge, but a vehicular bridge with lanes for cycles and pedestrians. We in the western suburbs need better access to South Brisbane. To cross the river we currently have to run the gauntlet of VERY busy Coronation Drive (or Milton Rd) to the city, OR the elderly Walter Taylor Bridge and the route around Tennyson and Yeronga. A bridge would improve access across the river and potentially take some traffic away from Coro Dve.	3/14/2019 10:49 PM
460	Probably not a pool, that would just be weird and also not very popular in winter.	3/14/2019 10:45 PM
461	Public and private buildings for Commercail use andmixed public use.	3/14/2019 9:57 PM
462	They are all great ideas. Perhaps the frisbee area could be used for Tai Chi or Pilates in the early morning, as Council does in other parks. A small play park area, so that all ages are catered for.	3/14/2019 9:43 PM
463	Riverwalk for pedestrians and cyclists, allowing cyclists and pedestrians to bypass the bottleneck/hill at Toowong and taking them more directly to UQ.	3/14/2019 9:08 PM
464	Memorial recognising traditional custodians. The bridge ideally if built will be in consultation with mob and their wishes.	3/14/2019 9:02 PM
465	End of a bridge.	3/14/2019 8:41 PM
466	Research shows to be sustainability we need to preserve average 50% greenspace but new devs have next to none. All devs should have at least 30% greenspace MANDATED (not guideline) and compliance enforced. So Toowong needs to provide that greenspace and the ABC site is ideal. It will tie in well with the new walking strategy being developed by TMR	3/14/2019 8:30 PM
467	Community gardens and options for food growing	3/14/2019 7:47 PM
468	None, this site is not safe and should not be used as a public space. Slap in the face to those who were devastated by this site.	3/14/2019 7:39 PM
469	Skatepark	3/14/2019 7:00 PM
470	The old ABC site would make a good viewing space for the fireworks displays from South Bank at Riverfire etc. Family gatherings could spread their picnic rugs there and spread the load for South Bank and Kangaroo Point cliffs	3/14/2019 6:13 PM
471	Walking paths with seating for people to stop and rest, or read and enjoy the gardens which could be created n the area. Most of the items suggested would be fine so that public can make use of outdoor areas with trees etc. Areas like these are diminishing which is rather alarming.	3/14/2019 5:57 PM
472	I am not a member of the Toowong community so I am not sure what they need. The above ideas seem fine to me. I think this space should be designed with and for the local residents.	3/14/2019 5:53 PM
473	any community facility..	3/14/2019 5:35 PM
474	A bridge to West End	3/14/2019 5:10 PM
475	Undertake an assessment of what park infrastructure is lacking in the local community. It should be a high amenity park like Free Park.	3/14/2019 5:08 PM
476	A park with grass and trees and an area for young children to play.	3/14/2019 4:56 PM
477	Table tennis table similar to the permanent one at West End. A designated space where artists can paint (i.e permanent easels) and the public can watch them and chat to them.	3/14/2019 4:50 PM
478	A space not unlike Newfarm Park with kiosk, parklands and barbecue facilities. Not another cyclist area. Something for families and visitors to Brisbane.	3/14/2019 4:33 PM
479	Performance Amphitheatre (like southbanks (smaller) or riverstage.	3/14/2019 4:28 PM
480	A community use for the heritage home on the site.	3/14/2019 4:22 PM
481	How awesome would it be to have a New Farm Park of the inner West! I would want to replicate all those facilities. It doesn't need a city hopper stop - the regatta is just down the road, just improve the footpath between the two.	3/14/2019 4:07 PM
482	We need more garden areas for children to play, perhaps a water feature as in 17 mile rocks park. We need more parking. What will happen to the Wooworthis site? The congestion on the road through Toowong can not be considered good town planning. Where are the so called signature buildings going. A levy from developers is a great idea	3/14/2019 4:05 PM
483	An indoor heated pool - sadly lacking in the western suburbs. Outdoor pools in our sunstate are a disaster for our skin. Plus an expansive native forest with local species. And there would need to be some car parking - maybe underground?	3/14/2019 4:04 PM
484	Some intelligent bike-parking would be an asset.	3/14/2019 3:35 PM

485	Kids' playground	3/14/2019 3:33 PM
486	Parkland that allows for groups but also planting of our lovely natives.	3/14/2019 3:32 PM
487	a good site for high rise apartments	3/14/2019 3:28 PM
488	Community Garden - food herbs water tank etc OR mini Botanical Gardens similar to Mt Cootha /City gardens	3/14/2019 3:16 PM
489	Use it for a better cycle connection from Regatta to UQ	3/14/2019 3:07 PM
490	A modified Southbank could be used as the blue print. The Toowong pool that used as kids was great. There's so much logic in your idea as Toowong becomes a concrete jungle. Developers of the future Woolworths site should be made to include more public space or offset that with a contribution to this project	3/14/2019 3:06 PM
491	Have the cityhopper stop adjacent to the bridge to create an interchange, and a high quality pedestrian and cycle link to toowong station	3/14/2019 3:06 PM
492	Definitely a dog park. There are many dogs in this area now and a doggie park next to the river would be ideal. There are more than enough playgrounds etc. No-one really cares about our beautiful animals - except of course the top people who own them.	3/14/2019 2:59 PM
493	With our country heating up, we need as much green space as we can get	3/14/2019 2:49 PM
494	Definitely a public pool. There are no pools in the western suburbs north of the river. That is from Milton to Bellbowrie. The nearest are Bellbowrie and the small Ithaca pool.	3/14/2019 2:48 PM
495	Information space showing the history of Toowong and the ABC site....a dog off leash area to get all the doggy loving people involved.	3/14/2019 2:45 PM
496	-Public toilets (nearest ones along the cycle route are Guyatt Park. Nothing towards the city until Brisbane Botanical gardens). - Solar powered sculptures and exhibits demonstrating how Solar Power can be used. Get AGL/Origin to fund these exhibits. - Recycling depot (similar to NOWRA in West End). The 10c refund is good but there are few places where you can get that refund. The 'bag' drop locations are useless (eg UQ) and I will never use them.	3/14/2019 2:11 PM
497	Years ago, the council sold off the public pool that was on the opposite side of the road at Toowong- a very retrograde step in my opinion. It is a wasted of water to have so many small private pools hardly used instead of public pools and where people can meet and mingle. It would be great of have a community vegetable garden. Parking wold be a problem so a bus stop and or ferry terminal would be needed near by and people encouraged to sue public transport by ensuring regular services.	3/14/2019 2:10 PM
498	Lots of trees for shade and water features for kids to play but definitely a public space especially with so many high rises around and generall lack of trees With our climate wouldn't it be pleasant to walk around the streets and parks under the shade of trees instead oh the hot bright sun. And with climate change shouldn't we be planting trillions of trees wherever possible especially our parks and streets	3/14/2019 2:04 PM
499	tbh there's already a park big enough to do things like throw frisbee on the other side of the river but ion live in toowong ;)	3/14/2019 1:47 PM
500	A public library integrated into a green landscape with artists and sculpturers invited to exhibit their works. A bike repair station too.	3/14/2019 1:35 PM
501	Art display (for statues/big works) Something that could be used by both locals as well as a visitor attraction	3/14/2019 1:18 PM
502	It's a large site it could encouncompas many activities it could be the best public space in Brisbane.	3/14/2019 1:14 PM
503	A swimming pool , community hall/markets, night food markets, green space for exercise/yoga/tai chi/ art groups to plein air, outdoor chess, basketball +skate park, etc would be inclusive of all ages and would encourage residents to exercise and relax in a lovely environment.	3/14/2019 12:51 PM
504	Plenty of native food trees for wildlife.	3/14/2019 12:50 PM
505	Also community arts space	3/14/2019 12:19 PM
506	A space like this could be multiple use ( recreational and a ferry stop) and the existing heritage building could be used as a community centre or leased for use for a cafe to be used by people using the green space.	3/14/2019 12:13 PM

507	Spaces should be dual purpose for the public so the combination of a foot bridge and ferry stop would align with green space for the community of Toowong and Brisbane to use and have direct access for recreational use to the river. There are an increasing number of children living in units in Toowong with little of no access to green recreational space in easy walking distance of their home.	3/14/2019 11:54 AM
508	This is a very small site and I am in favour of a plan that offers maximum flexibility and green space. Perhaps a small water park instead of a full sized swimming pool? Anzac Park nearby offers some facilities for organised sporting activities. A City Hopper stop if it does not take up too much space. Can City Hoppers be co located with exiting ferry stops?	3/14/2019 11:45 AM
509	Integrate with my earlier bridge suggestions so all devpts merge into one overall concept. Be sure any public pool has plenty of water fountains for young families like the beaut ones at Rocks Riverside Parkland.	3/14/2019 11:36 AM
510	Any opportunity to build a bridge in this area is worth investigating. I would also prefer a river crossing for traffic as well..	3/14/2019 11:28 AM
511	All of the above, as many as would fit in the space, but priority to a swimming pool	3/14/2019 11:28 AM
512	A personal recommendation is a small dirt loop for bikes & kids, similar to what can be found at Bowman park in Bardon or Teralba park in Mitchelton. These spaces are heavily utilized and cater for children of ALL ages, not just the 1-5 age group. Providing oportunities for older kids to get outside and have fun is vital in a urban environment, and this offers a low cost, low space requirement option to do so. As they say, idle hands are the devils plaything, so let's give them something they can do!	3/14/2019 11:27 AM
513	A space similar to South Bank would be ideal with a children's play park	3/14/2019 11:16 AM
514	Anything other than more hirise	3/14/2019 11:09 AM
515	Toowong History museum and cafe on the site.	3/14/2019 11:08 AM
516	The abutment for the footbridge. A memorial to breast cancer victims - that is the reason the ABC abandoned the site in the first place. What was the indigenous use of this site? - maybe an explanatory plaque?	3/14/2019 11:06 AM
517	A native garden and place for birds	3/14/2019 11:03 AM
518	Above all, there should be no large blocks of units. Keep it green.	3/14/2019 11:01 AM
519	It would be brilliant to have a public pool - the one that was previously across the road is sorely missed - but a outdoor amphitheatre for concerts/films/other performances would be excellent too, along with space for picnics etc.. Think of all the outdoor film nights the local and federal polliies could sponsor on summer evenings! ;) I visited Vancouver recently and was horrified how that city, reputed to be quite beautiful once upon a time, now had high rises all along the waterfront. I can see Brisbane going the same ugly, way in a decade or so, excluding people from enjoying the river and fostering isolation rather than a sense of community. Overall some space for recreation would make a major impact on the liveability of this area - especially crucial given the high density housing in this region.	3/14/2019 10:59 AM
520	I don't object to the other suggestions but would like to more space for informal activities I think Orleigh Park at West End is a great place for picnics young children walkers and lots more The Park at Noosaville is another good model	3/14/2019 10:57 AM
521	A variety of covered but not enclosed spaces with/without seating.	3/14/2019 10:56 AM
522	Take Frew Park reclamation by Council as a precedent- that happened due to public objections to a commercial development - it should never have become private property	3/14/2019 10:52 AM
523	A beautiful public park green space with bbq open gathering spaces for the community - make it very contemporary with latest innovations.	3/14/2019 10:39 AM
524	Lots of native trees and shrubs Discovery trail for kids An inventive playground	3/14/2019 10:38 AM
525	The site should have never been sold due to the cancer cluster there. As a former ABC employee I was horrified when the land was sold to have units built. The reason for the cancer cluster has never, as far as I understand, been determined and it was very shortsighted to sell the land for units. Middenbury house is already heritage listed so the land surrounding it should be restored to parkland for all to enjoy. Middenbury should be donated to the National Trust along with some funding for the house to be restored to its former glory and then opened to the public, for a small fee, to view. This in my view is a much better and more productive use of the land.	3/14/2019 10:37 AM

526	A playground for children like the wonderful playground in New Farm Park amongst the trees or the more recent playground at Frew Park in Milton. A coffee shop like at Frew Park or a coffee cart like at New Farm Park A covered venue for weddings that could be hired out by the Council/State Government Department A licensed venue with a regular restaurant and a venue for wedding receptions	3/14/2019 10:36 AM
527	Outdoor meeting space but primarily for people to meet in small groups and enjoy the outdoors	3/14/2019 10:34 AM
528	The biggest issue with turning the area into usable public space will be PARKING!! Lots of it, and FREE. It's no use having great facilities if the public can't readily access them. Solve this critical issue first.	3/14/2019 10:29 AM
529	Scenic lookout? Zipline (just joking)? Need to keep it largely open space.	3/14/2019 10:28 AM
530	Whatever is decided, how are people going to get there? Where will they park their cars?	3/14/2019 10:21 AM
531	A Western park like Southbank, Call it Westbank if you will.	3/14/2019 10:20 AM
532	Off lead dog park with space for separate puppy & small dog area (like at Anzac Park) This is a flood prone area and any use should keep that in mind - I have ticked yes for the pool, but do have reservations about potential clean up costs.	3/14/2019 10:17 AM
533	If there is a picnic spot where people linger for hours then there should also be public toilets. Some picnic spots at Mt Coot-tha have no toilet facilities and as a result their amenity is greatly reduced.	3/14/2019 10:16 AM
534	It is a beautiful spot by the river and it should be a beautiful park.	3/14/2019 10:13 AM
535	A cafe/restaurant	3/14/2019 10:05 AM
536	The gardens should be people friendly and have challenging playground equipment.	3/14/2019 9:58 AM
537	could be combined development with parklands and low rise apartments like Roma Street Parklands.	3/14/2019 9:54 AM
538	Trees and benches along the river front	3/14/2019 9:52 AM
539	Planting (gardens) really, really important in this age of diminishing natural environments. What about a meadow of native plants / grasses? How about some native bees? We need to connect the site with the river for the benefit of people and other creatures who could share the space.	3/14/2019 9:51 AM
540	Brisbane needs more free public open green space	3/14/2019 9:49 AM
541	Inner city green space provides great amenity value and is proven to promote physical and mental well being of urban residents	3/14/2019 9:48 AM
542	Cafe	3/14/2019 9:43 AM
543	Toowong needs more space to encourage community engagement and greenspace. Something like a community garden or simply a nice neat area for Barbeques and picnics would deffinetly be utilised by the residents.	3/14/2019 9:38 AM
544	A genuine park with lots of mature trees (CO2 absorption) but also space for children to play and families to picnic and BBQ. A relaxing place for mental health. NB My understanding is that there is arsenic in the ground due to a previous use. If so, this should be investigated to ensure a healthy location.	3/14/2019 9:37 AM
545	The pool idea is absolutely tops and it should be heated in winter, an ALL YEAR ROUND POOL. We lost the Toowong pool years ago and I still miss it. To attempt go to a public pool from most of the Western Suburbs is a joke.	3/14/2019 9:35 AM
546	Trees, grass and lots of shaded seating but open space in the middle for said frisbees. Toilets and perhaps a small commercial refreshment stand.	3/14/2019 9:33 AM
547	Parkland within a high rise precinct, provided the architecture is modern and appealing	3/14/2019 9:10 AM
548	A water park (like Southbank or Upper Kedron) with BBQs & open green space	3/14/2019 8:57 AM
549	Maybe an Indigenous Cultural Centre - Aboriginal art, dance etc.	3/14/2019 8:51 AM
550	A road/pedestrian/cycle low speed bridge	3/14/2019 8:45 AM
551	I am a fan of green spaces, whatever they are. As someone who lives in an apartment and will most likely do so for the rest of my life, I like having nearby parks I can walk to. While I am not likely to ever own a backyard of my own, all I need is a place I can go to feel the grass under my feet.	3/14/2019 8:42 AM

552	An amphitheatre on the river bank. A space that would allow a farmers market on occasion. A scented, textured garden for the disabled. Exercise equipment that could be used by all age groups (including the elderly) Leave as many existing trees as possible. Middenbury House would make a lovely kiosk/cafe.	3/14/2019 8:41 AM
553	Kite flying,	3/14/2019 8:37 AM
554	FIRST ! deep survey of land as it MAY have been a DUMP for " Sand Miners tailings" - radioactive !! I am aware of these places in Gold Coast , my dad in industry from 1946. Serious cancer issues coming from under buildings.	3/14/2019 8:34 AM
555	Must be predominantly green space, not concrete or other hard surfaces.	3/14/2019 8:33 AM
556	Any of the above!	3/14/2019 8:32 AM
557	public art and green space combined kayak hire river access ramp for kayaks/canoes	3/14/2019 8:28 AM
558	Access for parking and traffic via Cornation drive a big factor on how you can do that.	3/14/2019 8:28 AM
559	There is a need for the people who work in the Toowong commercial centre to have a "breathing space" that provides access to the river. Even though Toowong is located adjacent to the river, there is no access to the river because of past profit-driven over-development of the river banks cutting off access. People need to have an accessible park that provides a place of relaxation for the people who work and live in Toowong. A park that goes to the riverbank with grass, gardens and trees will provide a great enhancement of the Toowong city.	3/14/2019 8:27 AM
560	Bridge connecting West End and Toowong with recreational area on both ends would make our inner city precincts more liveable. Especially now when we a witnessing increasing construction of apartment building in the area.	3/14/2019 8:26 AM
561	No frisbees bruh. Wtf	3/14/2019 8:25 AM
562	Mix of greenery and shelter for shade, plus a connecting green bridge to West End.	3/14/2019 8:24 AM
563	Shared green space ! Trees, maybe even a water feature.	3/14/2019 8:16 AM
564	Bridge over the river	3/14/2019 8:10 AM
565	Cafe or riverfront dining	3/14/2019 8:09 AM
566	Eat Street type set up with gardens, playing areas	3/14/2019 8:04 AM
567	More trees. Tropical garden.	3/14/2019 8:02 AM
568	A park with old style pullup bars and parallel bars(not the new 'machine' style equipment that is being put in). Barbecues and trees are always nice too	3/14/2019 7:38 AM
569	Indigenous and post-colonial historical celebration installations. A community nutritional garden and an indigenous food "garden". A water-play park. Deep, tall peripheral planting along the Coro Drive side to shield, filter and protect the park users from the roadway and pollution. Preserve and enhance the old home on the site. Continue the elevated bridge to connect to Lissner St or Sylvan Road.	3/14/2019 7:31 AM
570	Plan would need to include car parking for limited mobility people and maybe 6 or so cars, a clear bike route at the perimeter to limit risk of collision between kids playing and bikes. Shade trees as well as grassed space. Design should limit damage from flooding and allow quick low cost rehabilitation. At least a full half court basketball court with lighting until say 9pm (could be solar). Consider whether something like the southbank green could work with a stepped seating area to allow outdoor movie screenings or other community events without having to add a building. Wi-Fi. Allocated areas for one or two coffee/snack carts to have short leases or even to rent for the weekend with water and power connections and bins. A bike rack.	3/14/2019 7:26 AM
571	Cafe.	3/14/2019 7:24 AM
572	Renovate the historic home and convert to cafe and community centre. It is reminiscent of Kenwood House in London - a beautiful community and concert facility.	3/14/2019 7:08 AM
573	Any chance we can get started on some community housing??	3/14/2019 6:07 AM
574	A small oval for casual sport and kids playground.	3/14/2019 4:46 AM
575	Would love to see a community learning space that could share knowledge on different topics about the natural environment and Indigenous history of the land it would sit on. A community garden that would incorporate both would be really great. Have also noticed from other parks in the area that fenced off dog zones seem to draw a lot of people to the park so it gets decent usage.	3/14/2019 1:38 AM
576	We need more open space, so much has been lost. there are ferry stops nearby. no wifi. we need trees, shade, grass etc	3/14/2019 12:59 AM

577	Seating, natural surroundings and spacious	3/13/2019 11:58 PM
578	Outdoor gym equipment, cafe on the West End side	3/13/2019 11:31 PM
579	Outdoor Rock-climbing wall	3/13/2019 11:10 PM
580	Somewhere to shelter from the rain	3/13/2019 11:08 PM
581	First nations cultural centre. Indoor or at least under cover play area, protected from the sun	3/13/2019 11:01 PM
582	Outdoor venue eg amphitheatre	3/13/2019 10:45 PM
583	Provide adequate shade for hot days. Please do not make it a very hot concrete jungle like King George Square. More grass is best instead.	3/13/2019 10:40 PM
584	A library - perhaps with some (indoor/outdoor shaded) study space for students	3/13/2019 10:15 PM
585	The ground is low lying - gardens / park space / picnic space best... eco-tourist spot.	3/13/2019 9:50 PM
586	Space for Community Yoga & outdoor gym equipment.	3/13/2019 9:49 PM
587	More ferry stops, more frequently. Do an express service from beyond UQ to the city, and the same for the other end.	3/13/2019 9:42 PM
588	Lots of trees to off-set all the traffic and development in the area. Adequate lighting so that it is safe at night.	3/13/2019 9:40 PM
589	Obviously the South Bank Pool is a fantastic asset for Brisbane and a similar water feature and space for performers and picnics would be brilliant.	3/13/2019 9:39 PM
590	A covered but open space for active lifestyle programs such as yoga or tai chi.	3/13/2019 9:29 PM
591	Sustainability hub dedicated to teaching people climate change adaption.	3/13/2019 9:27 PM
592	Really great public art! There are so many new apartments for students in Toowong. These young people need green space to relax and get together. I recommend a specific consultation with uni students re how they would use and activate the space.	3/13/2019 9:21 PM
593	Low income/student housing	3/13/2019 9:03 PM
594	Great to have an alluring place for people by the river. A mini South Bank for the inner West.	3/13/2019 9:02 PM
595	Public art, toilets	3/13/2019 8:56 PM
596	Not sure how big it is, but something similar to Orleigh Park with a public pool/water sprinkles for kids such as South Bank would be great. A community hall for events or playgroups, community exercise classes would be good as well.	3/13/2019 8:53 PM
597	Connect with the bike track network. Activate the riverfront to encourage picnics and lying down on grass and shaded areas (as an example, the riverfront mini-amphitheatre at Southbank's southern end is popular).	3/13/2019 8:51 PM
598	Good park for all ages.	3/13/2019 8:46 PM
599	WOO! Frisbee! :)	3/13/2019 8:43 PM
600	City cat stop and glider stop on the west end side	3/13/2019 8:42 PM
601	A green public space for the enjoyment of Brisbane residents is a great idea. This area is predominantly turning into high rise so this will be a great asset and act as a community hub	3/13/2019 8:38 PM
602	Park with shade, gardens, playground, bbq and exercise equipment (or at least a few of the above) as space permits	3/13/2019 8:36 PM
603	A public space for picnics, for food trucks and gardens perhaps if spade allows.	3/13/2019 8:34 PM
604	* Outdoor concert venue * public sports fields * kid mazes * outdoor gym * another precinct like Powerhouse in Newfarm ( as there is nothing like one in western suburbs) * market space * water park * outdoor cinema * dance hall	3/13/2019 8:19 PM
605	Bridge crossing to West End	3/13/2019 8:15 PM
606	Extend cycle way for bikes/runners	3/13/2019 8:07 PM
607	If not a green bridge.	3/13/2019 8:07 PM
608	I think it would be great to have a park with some water activities for kids, similar to South Bank or Rocks Riverside. Both of these places are very population with families so having a park like this that caters to Toowong and the surrounding neighbourhoods would be fantastic.	3/13/2019 7:51 PM
609	Some semi open shaded space, with some open area for play. There has been such an increase in density and units this space is very needed.	3/13/2019 7:36 PM

610	I can throw a disc a long way. We'd love a soccer field length. Our ultimate (disc sport) would make good use of this space as it would be between West End and Indro members.	3/13/2019 7:34 PM
611	Sharing library of some sort, like Brisbane tool library?	3/13/2019 7:29 PM
612	Gardens in particular, every suburb in Brisbane needs more green space with shade.	3/13/2019 7:28 PM
613	I wasn't actually opposed to the beautiful champagne towers proposal. They would have added some great design to the skyline. I think green space is a great idea but something of architectural difference would be nice also	3/13/2019 7:24 PM
614	would this be a good spot for a skate park?	3/13/2019 7:05 PM
615	And lots and Lots of trees.	3/13/2019 7:04 PM
616	Football field! 5 aside court's are small and versatile.	3/13/2019 7:03 PM
617	Tiered outdoor ampitheatre by the water for occasional shows (similar to at Southbank)	3/13/2019 6:53 PM
618	A playground, screening trees to divide and shelter it from Coronation Drive. Used for BCC free fitness classes and community activities. I'd also love to see a community garden collecting food scraps for compost from all the flats around that bend of the river. Potentially part of the site could be offered to the Mini Farm Project, who could come in with the expertise and organisation to grow food for the homeless, with the help of nearby residents.	3/13/2019 6:51 PM
619	trees	3/13/2019 6:42 PM
620	honestly anything community based would be great but something with greenery and self contained away from traffic would be super beneficial for the locals health and wellbeing.	3/13/2019 6:26 PM
621	Parklands with space for bbq's, gardens and sports	3/13/2019 6:20 PM
622	Middenbury to be converted into a cafe or microbrewery, the natural slope of the sloped part of the land to become an auditorium and the rest of it parkland.	3/13/2019 6:15 PM
623	playground	3/13/2019 5:53 PM
624	Toowong is short of public open space where you can sit without having to buy something. Toowong is also short of unstructured green space, there are playing fields but few spaces were people can sit and relax. A park here would allow people to sit and relax and enjoy the views of the river and the cool breeze which comes from the river. In our high rise neighborhoods we are losing vistas, places where you have an uninterrupted view for several kilometres. This park could be one of these places which allow you to stretch your legs and also your horizons. Access to the river would also be good.	3/13/2019 5:43 PM
625	one thing brisbane does NOT have enough of, given our climate, is splash/spray pads. these are alternatives to pools: kind of like a kid-friendly fountain, with water jets etc kids can run through. they don't need to be staffed, can run continuously during the day (or alternatively, turned off in drought conditions), and provide a space for families, esp those with young children, to cool off on hot days. this is SUCH a basic amenity: in toronto canada where i just came from they are in EVERY SINGLE neighbourhood, yet here in brisbane where we regularly suffer through heatwaves, we are forced to go find a public pool if we are not rich enough to have our own - when a simple splash pad would do the trick!!!! see more at <a href="https://www.toronto.ca/data/parks/prd/facilities/splash-pads/index.html">https://www.toronto.ca/data/parks/prd/facilities/splash-pads/index.html</a>	3/13/2019 5:38 PM
626	Not enough inner city public pools for somewhere as hot as Brisbane	3/13/2019 5:23 PM
627	25m Pool plus splash waterplay area for children, toddler pool or rock pools, water slides for kids. There has been much residential development in Toowong and a huge increase in children in the area without an increase in outdoor play facilities, and loss of play areas at Toowong school. Secure bike parking area for commuters, shoppers and swimmers.	3/13/2019 5:21 PM
628	Large trees providing shade which may be relocated from development sites where trees are being destroyed.	3/13/2019 5:15 PM
629	Something with trees. We need lots more trees in Brisbane.	3/13/2019 5:02 PM
630	A flat space for roller skating. Large Shaded area. Community garden.	3/13/2019 4:58 PM
631	Dog park	3/13/2019 4:54 PM
632	We don't have a pool in Toowong! What a great resource that would be, and with a bridge it would service the hill end of West End as well. Close to the city, well serviced by public transport it would be for more than just the citizens of Toowong.	3/13/2019 4:45 PM
633	Restaurant or cafe by the river	3/13/2019 4:29 PM
634	A free 'city' hopper between Toowong and West End or UQ and West End would be far less environmentally impactful than a bridge.	3/13/2019 4:22 PM

635	Ferry stop would be even better	3/13/2019 3:51 PM
636	A space for community members to be able to access tools and other materials for bike repairs and other maintenance items.	3/13/2019 3:40 PM
637	I'd like to see a spot where people could spend a beautiful day out at no cost: a truly public free shaded pool (meaning not one like the BCC pools that charge entry), lots of shaded comfortable tables and benches where people could enjoy the view, a fenced children's playground with rubber matting (not bark since due to the fact that bark obscures dangerous items caregivers have to hover which impedes play) and a basketball court. Nothing for sale on the whole site and no entry fees.	3/13/2019 3:39 PM
638	Biodiverse native food forest, and space for getting locals involved in planting and maintaining the gardens. Native trees suitable for providing plenty of shade, and native species that provide habitat and food to wildlife. Composting facilities.	3/13/2019 3:36 PM
639	Outdoor climbing	3/13/2019 3:26 PM
640	Keep infrastructure minimal. Focus on creating beautiful gardens and spaces to relax. Maximise shade with big trees like those at Orleigh Park.	3/13/2019 3:24 PM
641	Urban public space. Plazas and a transition between the riverfront and the urban area of Toowong.	3/13/2019 3:16 PM
642	Even though I'm in favour of more green spaces, I'm also in favour of more commuter car parks.	3/13/2019 3:14 PM
643	Shade / seating with a view to the river / bins placed so they do not interrupt the view / shelter shed /	3/13/2019 3:13 PM
644	The ultimate community in Brisbane would love a space to play games and toss a frisbee near the heart of the city!	3/13/2019 3:04 PM
645	Outdoor gym	3/13/2019 3:02 PM
646	More public green space is needed.	3/13/2019 2:55 PM
647	A green space with plenty of trees for shade, probably need a few drinking fountains Bbqs (would be good but only if practical) City hopper + bus stop + pedestrian/cycle path for easy access	3/13/2019 2:46 PM
648	Outdoor exercise equipment	3/13/2019 2:44 PM
649	An interpretative centre highlighting the natural and Indigenous history of the Brisbane River.	3/13/2019 2:41 PM
650	Off leash dog area Community garden	3/13/2019 2:24 PM
651	I think this locale is very densely developed and has a very busy road . Open space is needed. The bike path to the University could be redirected through the former ABC site. This would reduce pedestrian bike use conflicts, as the footpath is very narrow.	3/13/2019 2:23 PM
652	Additional parking for Toowong station. As well as or instead of other answers I have selected.	3/13/2019 2:22 PM
653	Pet friendly!!	3/13/2019 2:22 PM
654	To replace to pool which the council sold previously.	3/13/2019 2:14 PM
655	Skate/bike activity centre	3/13/2019 2:01 PM
656	Access point to a pedestrian and cycle bridge!	3/13/2019 1:56 PM
657	Public 8-6 lane 25 m lap salt water chlorinated infinity lap pool 1.5m deep both sides by the waters edge. Open and heated all year round. Parkland and a cafe similar to Milton Green for events etc.....Connected with a pedestrian and cycling bridge to West End.	3/13/2019 1:53 PM
658	it is halfway between the city and Uni of Qld. A great area for casual cafes etc.	3/13/2019 1:52 PM
659	Green areas with room for independent restaurants and bars - Toowong's restaurant/bar scene really only caters for students with chain stores and pubs (with a few notable exceptions). Some independent restaurants/bars could draw on the increasing worker population during the week and the locals would love to have something like this to support on weekends.	3/13/2019 1:48 PM
660	A swimming pool is a great idea as there is a lack of public swimming pools in the western suburbs.	3/13/2019 1:46 PM
661	Playground for young children. Closest alternatives are Perrin Park, Guyatt Park or Toowong Park.	3/13/2019 1:29 PM

662	Mostly green space: trees, gardens and bench seating, an amenities block, sheltered picnic tables and children's playground with play equipment, including rocking horses on springs. Outdoor gym equipment for adults.	3/13/2019 1:19 PM
663	And a pedestrian/cycle bridge	3/13/2019 1:03 PM
664	Green space with a ferry access point would be fantastic! We have a gorgeous river that can connect us instead of separating us	3/13/2019 1:00 PM
665	Parkland and green space. Trees for shade along bike & Walkways	3/13/2019 12:55 PM
666	It would be really great to see this space celebrate the values of the historic house on this site and characterise the potential of this space based on its heritage quiriness. The use of the curtilage around the house with its veranda open spaces should be capitalised on (in a public interest way) and open spaces should have uses that are consistent with the Conservation Management Plan for this place (which may have to be updated if the site is not to be used for units. I am thinking of Glebe Harbour heritage houses/incinerator spaces that are scattered around the foreshore of the bay at Glebe, Sydney, which is owned by Sydney City Council. Could be worth contacting Clover Moore to see their perspective on Council management of the spaces (as a previous local and user of this great outdoor foreshore area I thought it was a huge positive for the inner city area. As many Toowong locals live in high rise it would be a wonderful opportunity to have an outdoor space with its own character defined by the historic house on the riverfront.	3/13/2019 12:55 PM
667	Park space that has riverside activation.	3/13/2019 12:52 PM
668	*space to kick a ball around, one of the most common activities I see at Roma Street Parklands on the lawn.	3/13/2019 12:31 PM
669	Bridge with green space or city hopper or another Cat dock	3/13/2019 12:25 PM
670	Gardens that specifically provide native habitat for birds and insects Also a pool and/or splash park, if that's still wanted in the Toowong area; at this rate South Bank can't cater for everyone in the inner city.	3/13/2019 12:25 PM
671	Dog park!	3/13/2019 11:37 AM
672	New school	3/13/2019 11:36 AM
673	Basketball court with lights would be awesome and some park area	3/13/2019 11:20 AM
674	An elevated bike & walking bridge should be the prime use. then other structures under or around that Something with shade. We also need a bike track along the river from Kayes rocks park to the Coronation drive bike track. BUT that area needs an SES (western group) HQ that doesn't flood regularly. BUT that would take up almost the whole site.	3/13/2019 11:11 AM
675	Outdoor games tables of normal size so people can bring their own playing pieces. - chess; 3 men's Morris; snakes and ladders. Social games for all ages. Handball grids; table tennis; hopscotch. All plants edible. Fruit trees; herbs; bush foods.	3/13/2019 11:10 AM
676	a public park that celebrates the river. There is too much privately owned river bank that blocks access by the public to the river.	3/13/2019 11:08 AM
677	Shaded areas from more trees!	3/13/2019 11:08 AM
678	Green bridge and green areas - possible community garden	3/13/2019 11:05 AM
679	Native tree filled/garden public space	3/13/2019 11:02 AM
680	Artists outdoor spaces, inclusive media, evolving spaces for all artforms of the community, including healthy food forestry, permacultural community gardening and living structures.	3/13/2019 11:00 AM
681	There are some cool multi-use facilities for kids/families around, with mini waterparks and unusual play areas. Water should be a big feature of a new park, with increasing hot weather. Should include good facilities for community meetings, gigs, theatre productions etc. There needs to be ongoing funding for staff to curate and run such facilities.	3/13/2019 10:56 AM
682	Trees and lots of them	3/13/2019 10:55 AM
683	Skate or bmx park, lots of shade, adventure playground catering for older kids too	3/13/2019 10:44 AM
684	The Gardens should focus on space for people to enjoy garden space with plenty of grassy areas and large trees to shade the gardens and people. Not too much concrete!	3/13/2019 10:39 AM
685	The house beside the brick building looks historic and if not, it's beautiful regardless. I'd like it restored and converted to a leased cafe and maybe venue space. I'd like the space around the house converted to a green space including park and picnic facilities, some from of garden, and additional recreational spaces for outdoor activity	3/13/2019 10:35 AM

686	A southbank like space, with food, green space. Somewhere that is inclusive for young and old, 0-99	3/13/2019 10:33 AM
687	Green space with lots of trees (improve air quality, lower local temp and enhance the areas aesthetic appeal)	3/13/2019 10:33 AM
688	Playgrounds for children.	3/13/2019 10:33 AM
689	Brisbane has suffered major loss of habitat, and most of our parks are bare grassy spaces. This site should be used for regenerated bushland, with paths for people to enjoy a shaded space that would also provide habitat for native species (birds, insects, reptiles, mammals). This would also provide a major educational opportunity for community volunteers to learn about replanting and the choice of appropriate plants for their own gardens, and a link to Indigenous groups to incorporate and educate people about bush tucker foods. The Mt Coot-tha Botanic Gardens are not far away, but much of that space is devoted to showing species from other parts of the globe, with Australian species tucked into a back corner and potentially soon impacted (though I hope it won't be built) by a disruptive zipline.	3/13/2019 10:30 AM
690	Nothing If it's too unsafe for ABC, how's it safe for anyone else.	3/13/2019 10:30 AM
691	And bike paths for young & old!	3/13/2019 10:19 AM
692	Given the spot is located next to an extremely busy road with a narrow walking and cycling path, the incentive for sports, such as basketball (as much as it kills me to write this), induces behaviours that could pose more of a threat to all uses of the adjoining public, ie objects interfering with cyclists/pedestrians and, consequently, motor vehicles.	3/13/2019 10:17 AM
693	I would like to see some more facilities in the area for homeless folk, but I don't know enough about 'how' such facilities would be planned etc.	3/13/2019 10:12 AM
694	A cafe in the old house on site	3/13/2019 10:11 AM
695	Outdoor bouldering public area like in Melbourne	3/13/2019 10:06 AM
696	Public toilets, shower and lockers.	3/13/2019 10:03 AM
697	Rock Climbing wall!	3/13/2019 9:59 AM
698	Riverfront active transport, active transport connection to Toowong station and the green bridge. Surplus can be sold to a developer.	3/13/2019 9:54 AM
699	Native plants to provide habitats	3/13/2019 9:52 AM
700	Toddler play area (fountains)	3/13/2019 9:48 AM
701	Honestly not sure... would need to take stock of what else is available in the area. If a bridge goes ahead, it changes things as suddenly facilities on the other side of the river become available.	3/13/2019 9:43 AM
702	Brisbane NEEDS more greenspace.	3/13/2019 9:42 AM
703	Trees!!! Community spaces are nothing in hot old Brisbane without trees.	3/13/2019 9:40 AM
704	Something for everyone. Young or old. Not specifically for one group eg sport	3/13/2019 9:35 AM
705	It is appropriate that the private sector takes on the health risks associated with this site.	3/13/2019 9:34 AM
706	Open green space for recreation / exercise / picnics & bbqs. If there is enough space a community hall or outdoor meeting space would be good.	3/13/2019 9:32 AM
707	A 400m all weather running track.	3/13/2019 9:32 AM
708	Dog park	3/13/2019 9:27 AM
709	Bicycle maintenance racks like I have seen on Grey St Southbank. Water bottle filling station (that you can get your bottle under rather than dribbly bubbler style) Frisbee Golf - raised basket chains for aiming a Frisbee into and parkour equipment like near Woody Point? (spelling?)	3/13/2019 9:26 AM
710	Green, green, green	3/13/2019 9:26 AM
711	A bikeway along the river to connect the bicentennial bikeway with a future St Lucia riverwalk	3/13/2019 9:17 AM
712	Will never happen but a swimming enclosure in the river (like Mowbray Park in the old days) would be sick. Maybe it's technically possible with some kind of water filtration system?	3/13/2019 9:15 AM
713	Trees trees trees trees. I like coronation drives native Australian trees, flowing that in to any green space would be ideal	3/13/2019 9:12 AM
714	All of the above! Green space is so very crowded with people on weekends. Clearly residents love it, so we need more!	3/13/2019 9:00 AM

715	We already have community halls/libraries etc, but we lack green space. Play areas for slightly older, children than what Orleigh Park caters for eg bicycle /mountain biking training track such as at Bowman Park. This age group (early to mid-primary)is often neglected.	3/13/2019 8:58 AM
716	I would like a bowling alley built. There is nothing in this local community like this. Something that everyone could have use of not just cyclists, children and pedestrians. Everyone!! There is enough green areas at the moment.	3/13/2019 8:57 AM
717	Bridge and park.	3/13/2019 8:44 AM
718	One of the great features of Springfield is their new Robelle Lagoon attached to their Robelle Domain Parkland. A water park like that in the inner west, complementing the South Bank "beach" would be a great feature.	3/13/2019 8:38 AM
719	Green space. Dog off leash area perhaps?	3/13/2019 8:24 AM
720	Nature play parkland for all ages	3/13/2019 8:17 AM
721	Assuming there is no issues from a health POV	3/13/2019 8:14 AM
722	A city hopper to the Tennis centre	3/13/2019 8:11 AM
723	Native gardens and green space with lots of shade proving trees.	3/13/2019 8:00 AM
724	Recreational use with plenty of cover available	3/13/2019 7:57 AM
725	A small coffee shop	3/13/2019 7:55 AM
726	Public or private housing and mixed use commercial real estate. That could include a ferry stop as well.	3/13/2019 7:52 AM
727	To recognise the memory of the ABC staff affected by the cancer cluster	3/13/2019 7:50 AM
728	This would be a great spot for a village square idea. A scenic picnic area with an indoor hall, space for a local history museum or room, maybe an amphitheater. It could be a recreational and meeting hub	3/13/2019 7:48 AM
729	Our parks are so popular - especially any with exercise equipment so more of that would definitely get used.	3/13/2019 7:46 AM
730	Community food garden/city farm and green space with trees planted - we will need to create tree shade.	3/13/2019 7:44 AM
731	Some kind of public art space for people to enjoy (like in many cities in Europe); suggest a competitor for artists to design some works to be displayed. There are too few opportunities for aspiring artists to promote their work in our city. And what about some kind of 'poet's corner' or 'speaker's corner' - for people to express themselves in the public domain to inform and entertain.	3/13/2019 7:32 AM
732	Shade trees. Outdoor gym. Playground.	3/13/2019 7:31 AM
733	Mainly some park land to give something back to nature.	3/13/2019 7:27 AM
734	A large outdoor park and an indoor sports centre like the one West End used to have that are now at Albion and Newmarket and will eventually be squeezed out of those spaces too.	3/13/2019 7:24 AM
735	As many trees and green things as possible please!	3/13/2019 7:14 AM
736	A community garden would also be great	3/12/2019 12:42 PM
