

Will Vicent, CEM, LEED AP

Project Manager, Southern California Edison

Will Vicent is dedicated to reimagining our built environment into one that is more sustainable; more beautiful and more ecologically intelligent. Will is currently working with utilities, building developers, researchers and building designers to demonstrate real-world building solutions for energy efficiency (EE), demand response (DR), and distributed energy resources (DER).

He has been instrumental in the design, construction, and monitoring of verified Zero Net Energy (ZNE) buildings in both the residential and commercial sectors. His clients include Southern California Edison (SCE), the Los Angeles Community College District (LACCD) and various nationally-recognized building design firms.

Will has been invited to speak on building science topics at ASHRAE, USGBC, AEE, IBPSA, the White House, the DOE-Administered Solar Decathlon, and various universities. Will holds a Master's degree in building Science from the University of Southern California.
