Vice President Joe Biden

In 1972, at age 29, Joe Biden, became one of the youngest people ever elected to the United States Senate. He served as a senator from Delaware for 36 years, commuting to Washington via train almost every day. As Chairman or Ranking Member of the Senate Judiciary Committee for 17 years, then-Senator Biden was widely recognized for his work on criminal justice issues, including the landmark 1994 Crime Act and the Violence Against Women Act. As Chairman or Ranking Member of the Senate Foreign Relations Committee for 12 years, then-Senator Biden was at the forefront of issues and legislation related to terrorism, weapons of mass destruction, post-Cold War Europe, the Middle East, and Southwest Asia.

As the 47th Vice President of the United States, Biden continued his leadership on important issues facing the nation and represented America abroad, traveling over 1.2 million miles to more than 50 countries. Vice President Biden convened sessions of the President's Cabinet, led interagency efforts, and worked with Congress in his fight to raise the living standards of middle class Americans, reduce gun violence, address violence against women, and end cancer as we know it.

After leaving the White House in January, Vice President Biden continued his legacy of expanding opportunity for all, both in the United States and abroad, with the creation of the Biden Foundation, the Biden Cancer Initiative, the Penn Biden Center for Diplomacy and Global Engagement at the University of Pennsylvania, and the Biden Institute at the University of Delaware.

Joe Biden is running for president to restore the soul of America, rebuild the backbone of the country: the middle class, and demonstrate respected leadership on the world stage.
