Position: Data Capacity Specialist  
Status: Exempt/Fulltime  
Reports to: Homeless Management Information System (HMIS) Project Manager  

Overview:  
Join the work to end homelessness in Metro Denver! The Metro Denver Homeless Initiative (MDHI) is a nonprofit organization with over 20 years of leadership in addressing homelessness in the seven-county region. The Data Capacity Specialist supports data-sharing and data exchange initiatives, data quality measurement and improvement, measurement of homeless project performance and system performance using HUD-aligned performance measures, report creation and presentation, compliance around data quality, security, privacy, and other important areas.

MDHI is an organization that values diversity and we encourage people from all backgrounds to join our team. As an employer we are committed to ensuring equity is applied to all employment policies, procedures, and decisions. This is consistent with the MDHI’s goal of achieving and ensuring diversity in the workplace and equity within the Metro Denver Continuum of Care.

Areas of Responsibility:

- Supporting MDHI’s coordinated entry team (OneHome) with ongoing data and reporting needs
- Assisting the OneHome Coordinated Entry team with routine data monitoring and quality assurance (ex: monitoring referrals, pulling data quality reports, reaching out to end users, etc.)
- Participating in and supporting MDHI Councils and Committees.
- Working with MDHI team members to deliver data products in report/presentation format (or verbally) to stakeholder specifications and timelines.
- Assisting with preparing high-quality and accurate data reports to the local, State, and Federal governments as well as other stakeholders, including Annual Performance Reports, Homelessness Data Exchange, System Performance Measures, Longitudinal Systems Analysis, Consolidated Annual Performance and Evaluation Report.
- Supporting the data quality within HMIS and working with end users and their supervisors to improve data quality by creating and sending monthly data quality reports.
- Testing features and functionality of the HMIS and writing clear and detailed accompanying notes.
- Understanding the business processes and needs of housing and service providers who are using HMIS, including the OneHome coordinated entry system.
- Becoming familiar with national HMIS Data Standards and local HMIS system setup.
- Liaising with HMIS throughout the state of Colorado to troubleshoot and investigate any software and process issues reported by end users and other stakeholders.
- Supporting the work of process improvement in conjunction with the Improvement Advisor and data team through development of standard documentation and assisting team members with achieving successful process improvements.
- Serving as back-up support to HMIS Training and Application Specialist on HMIS and OneHome trainings.
• Other duties as assigned.

Qualifications and Skills

Required:

• Ability to work with diverse teams representing various disciplines and all levels of staff.
• Understanding of systemic causes of homelessness through a JEDI (Justice, Equity, Diversity and Inclusion) lens.
