

2017 Metro Denver Homeless Initiative Continuum of Care (CoC) Scoring Criteria for Ranking Projects

Threshold Requirements

New Projects:

Agencies may apply for new projects as allowed by HUD in the FY 2017 CoC Program Registration Notice and Bonus Projects as defined in the FY 2017 Notice of Funding Availability (NOFA). With the exception of possible bonus funding, new projects will only be created by the reallocation of existing funds to new grants.

Renewal Projects:

All renewal projects will be scored based on successful housing and income/employment outcomes. To receive points in this section, the project must be able to produce, from HMIS, a HUD Annual Performance Report (APR) for the most recently completed operating year. MDHI, with input from the NOFA committee, reserves the right to make changes to the scoring criteria for ranking projects once the 2017 NOFA is released.

Safe Haven Project:

The CoC currently has one Safe Haven project. This project will be scored on two HUD measures: housing stability and total income. HUD expects that 60% or participants will remain in the program or exit to permanent housing during the operating year. For income, HUD expects 51% to maintain or increase income (from all sources) at the end of the operating year or program exit. If the project meets or exceeds these outcomes, this project will be ranked in Tier 1 to the extent possible.

All Projects:

1. Projects that are in their initial one year grant term will not participate in the ranking process and will be included in the CoC application for a second year of funding. To the extent possible, these projects will be ranked in Tier 1.
2. All renewal projects not in their first year will be ranked based on project outcomes, which are outlined below (see Scoring Elements). HMIS and CES projects are exempted. All project outcomes will be based on a two-year average using the Annual Performance Report (APR). Reports will be generated from the Homeless Management Information System (HMIS). Timeframes: APR outcomes will be based on the last two operating years.
3. Points Distribution
 - a. Projects with the highest performance are awarded maximum point value.
 - b. Projects performing at or above the community average but below the high performer(s) are awarded the 2nd highest point value.
 - c. Projects performing three times below the community high performer are awarded zero points. Point distribution is decided by the difference between the Community Average and the Community High Performance mark; for example, if there is a 3-point difference between the Community Average and the Community High Performance, then projects that score 9 points below the Community High Performance mark would receive 0 points (3 X 3 = 9 points).
 - d. Projects performing between the 2nd highest-point value and zero-point value will be awarded the third highest-point value.
4. This ranking tool aligns with HUD System Performance Measures. Information on those measures can be found here: <https://www.hudexchange.info/programs/coc/system-performance-measures/>
5. All agencies will be required to sign a Memorandum of Understanding (MOU) with the Metro Denver Homeless Initiative (MDHI) that clarifies program requirements/expectations around Coordinated Entry (OneHome) participation, Housing First approaches, and other key regional processes.
