## **Description and Usage of the Federal CMS (Centers for Medicare & Medicaid Services) Star Ratings Table of Nursing Homes in Monroe County, New York**

This Monroe County nursing home comparison table is a compilation of the January 1, 2020<sup>1</sup> U.S. Federal Government Centers for Medicare & Medicaid Services (CMS) Star Ratings obtained from [medicare.gov/nursinghomecompare](https://www.medicare.gov/nursinghomecompare). The table lists all 34 Medicaid/Medicare Certified nursing homes located in Monroe County, New York. The nursing homes are listed in the CMS website's descending "Overall Rating" order from 5-star ("Much Above Average") to 1-star ("Much Below Average"). It also lists the three component ratings (Health Inspections, Staffing, and Quality Measures) which comprise CMS' Overall Rating for each nursing home. The CMS Five-Star Quality Rating System Technical Users' Guide states *"There is considerable evidence of a relationship between nursing home staffing levels and resident outcomes. The CMS Staffing Study, among other research, found a clear association between nurse staffing ratios and nursing home quality of care."* In general, staffing levels and ratings are higher in nursing homes with higher Overall ratings, as you can observe in the table's Overall Rating and Staffing columns.

The Elder Justice Committee of Metro Justice encourages you to evaluate nursing homes within Monroe County by considering the ratings shown in the table, as well as other factors. Although we consider these ratings to be a valuable consumer resource for nursing home selection, we also feel that conducting your own due diligence is essential. We strongly recommend that you check the CMS source website for ratings updates, and that you visit your prospective nursing home choices several times to both observe staff interactions with residents, and to speak with residents and their family members about the facility before making your final decision.
