

Form Summary	
Candidate's Name	Alex Bronson
Completed by (if other than candidate)	
House District Number	24
Preferred Phone Number	989-494-7581
Preferred Email Address	voteab@alexbronson.com
Verify Email Address	voteab@alexbronson.com
Campaign Website	https://www.alexbronson.com
Upload a photo/headshot of the Candidate (optional)	DSC_0240_editedforsize.jpg
Do you support setting a goal for Michigan to transition to 100% renewable electricity by 2050?	Yes
Do you support setting a goal for Michigan to be carbon-neutral by 2050?	Yes
You may elaborate on your position here:	We need to switch to 100% renewable energy and become carbon-neutral as soon as we can, which would create more jobs and a cleaner environment.
Would you support state general funds or other state funding being directed to programs that support communities and workers most impacted by the climate crisis and the transition to renewables, including programs to retrain workers displaced by the transition off fossil fuels?	Yes
You may elaborate on your position here:	I want to make sure our environment is as safe and clean as possible for all residents of Michigan, while also making sure we keep energy jobs here. While we transition to these new energy jobs, we need to make sure we are supporting the communities that get impacted by these changes the most.
Do you support the decommissioning of the Line 5 oil pipeline in the Straits of Mackinac?	Yes
Do you oppose the building of a Line 5 oil tunnel under the Great Lakes bottomlands?	Yes
You may elaborate on your position here:	I have a lot of safety concerns when it comes to pipelines like Line 5 that run under the Straits of Mackinaw and have a huge risk of spilling oil that could devastate our freshwater economy in those regions. I support decommissioning this pipeline.

Form Summary

Do you support lifting the cap on net metering to allow more residents and businesses to participate?	Yes
Do you support returning to net metering, and providing a fairer price to businesses and residents for the solar energy they generate?	Yes
You may elaborate on your position here:	We need to support net metering if we want to get to 100% renewable energy as soon as possible. This is a good program that incentivizes people and businesses alike to participate in renewable energy generation.
Do you support policy that requires utilities to allow customers to build community renewable energy projects with fair rates?	Yes
You may elaborate on your position here:	No one should be limited in any capacity to produce their own power in their community. If a municipality or community wants to put aside money to produce community solar, they should be allowed to.
Do you support policies to accelerate the adoption of electric vehicles (EVs), including EV infrastructure like charging stations?	Yes
Do you support policies and investments of state funds to help local communities and schools switch to electric transit and school buses?	Yes
Do you support policies and investing state funding to increase non-motorized transportation (like walking and biking) in Michigan communities, and to increase access to public transportation?	Yes
You may elaborate on your position here:	If we want a cleaner environment, we need to start investing in electric cars and the infrastructure needed to facilitate that. We also need to start investing in better transportation infrastructure to be able to maintain these investments.
Have you signed the No Fossil Fuel Money Pledge?	Yes
You may elaborate on your position here:	I just signed the pledge the same time I took this questionnaire, so I'm not sure when you will see it from them.
LAST THING BEFORE YOU GO: Would like to sign up to receive email from Michigan Climate Action Network? We will keep you updated on news about the climate in Michigan, share actions you can take to move the needle, and occasional emails about events to attend.	Yes, Please
