Do you support setting a goal for Michigan to transition to 100% renewable electricity by 2050?	Yes
Do you support setting a goal for Michigan to be carbon-neutral by 2050?	Yes
You may elaborate on your position here:	
Would you support state general funds or other state funding being directed to programs that support communities and workers most impacted by the climate crisis and the transition to renewables, including programs to retrain workers displaced by the transition off fossil fuels?	Yes
You may elaborate on your position here:	Any plan to reduce fossil fuel use must include provisions for displaced workers.
Do you support the decommissioning of the Line 5 oil pipeline in the Straits of Mackinac?	Yes
Do you oppose the building of a Line 5 oil tunnel under the Great Lakes bottomlands?	No
You may elaborate on your position here:	There are a lot of jobs tied up in maintaining the pipeline, plus the jobs that will be created by the construction of the tunnel. The deal will have to include guarantees of Enbridge being held accountable for any leaks; but the tunnel seems like a good compromise. The jobs are preserved and the safety of our Great Lakes are considered. I would be willing to have a conversation with your organization if you have information as to why the tunnel is not enough protection.
Do you support lifting the cap on net metering to allow more residents and businesses to participate?	Yes
