<b>Do you support setting a goal for Michigan to transition to 100% renewable electricity by 2050?</b>	Yes
<b>Do you support setting a goal for Michigan to be carbon-neutral by 2050?</b>	Yes
<b>You may elaborate on your position here:</b>	I believe that as a country we can achieve carbon neutrality by the second half of the 21st century. Climate change has already affected the entire world with extreme weather conditions such as drought, heavy rain landslides and rising sea levels and loss of biodiversity. In order to limit global warming we have to establish a threshold with an intergovernmental Panel to guide us based on science.
<b>Would you support state general funds or other state funding being directed to programs that support communities and workers most impacted by the climate crisis and the transition to renewables, including programs to retrain workers displaced by the transition off fossil fuels?</b>	Yes
<b>You may elaborate on your position here:</b>	
<b>Do you support the decommissioning of the Line 5 oil pipeline in the Straits of Mackinac?</b>	Yes
<b>Do you oppose the building of a Line 5 oil tunnel under the Great Lakes bottomlands?</b>	Yes
<b>You may elaborate on your position here:</b>	I am opposed to building a pipeline under the straits of Mackinaw because it is literally serviceable and once there is a break for whatever reason years of damage can be done which cannot be resolved.
