Do you support setting a goal for Michigan to transition to 100% renewable electricity by 2050?	Yes
Do you support setting a goal for Michigan to be carbon-neutral by 2050?	
You may elaborate on your position here:	Honestly! I don't think anyone will realize it by 2030 after or even be around to notice any carbon climate changes due too' the significant pollution that It will' cause, that will break down the immune systems!' quick fast and in hurry! I am not agreeing or disagreeing on climate changes of renewable energy because we definitely need that change of Renewable energy and electricity however" anything has to do with carbon is not a good thing' my opinion.
Would you support state general funds or other state funding being directed to programs that support communities and workers most impacted by the climate crisis and the transition to renewables, including programs to retrain workers displaced by the transition off fossil fuels?	
You may elaborate on your position here:	I support all funding programs that is able to assist for a healthy life changing, inside outside our homes, to keep people safe in ways providing help too our U.S.A Citizens, ,breathe cleaner, clear fresher air, too cook and clean also dine in or out, and swimming out doors, at recreational parks, hotels, just to name a few things, that the climate change will impact in good ways to, also be able to accomplish if done professionally' of course! and creative safely..
Do you support the decommissioning of the Line 5 oil pipeline in the Straits of Mackinac?	No
Do you oppose the building of a Line 5 oil tunnel under the Great Lakes bottomlands?	

Form Summary

You may elaborate on your position here:	All I'm going to say is, think long and hard about the supporting of anything that is old as 67 years + of pipeline anywhere, that is moving products, of any kind regardless of the strength!, and the constant of passing, something through as if it was decade old of pipeline that' would be big difference. 'However we are Michiganders we want each resident of Michigan too remain safe and healthy first! also good intentions to create more jobs ! Under the safety net !CAUTION! that's is also followed by the Michigan Rules and Regulations.
Do you support lifting the cap on net metering to allow more residents and businesses to participate?	No
Do you support returning to net metering, and providing a fairer price to businesses and residents for the solar energy they generate?	
You may elaborate on your position here:	To solar interesting, and appealing, would you buy it or sell it! regardless of the price gouging up and down first time business always get it the hardest because of the new world of business association. being in low income program helps the new business grow further also helps the residents ease their mind a little with what they can afford, and to become a customer of the solar program.
Do you support policy that requires utilities to allow customers to build community renewable energy projects with fair rates?	
You may elaborate on your position here:	Solar, is very new too me and it sounds like great community builder for savings on electricity, however' I think I can speak for everyone on how /when to save money. I REPEAT! sometimes it is not always about the saving money! its about the quality of the products, is it worth your money or not! Legislative feels the same way.
Do you support policies to accelerate the adoption of electric vehicles (EVs), including EV infrastructure like charging stations?	No
Do you support policies and investments of state funds to help local communities and schools switch to electric transit and school buses?	Yes
Do you support policies and investing state funding to increase non-motorized transportation (like walking and biking) in Michigan communities, and to increase access to public transportation?	
You may elaborate on your position here:	If you are investing on increasing Michigan motorized then the price shall remains the same. citizens are or should have access to all at very low cost! unless their on bicycling, walks to the parks, and to the store of the choice maybe the doctors office! there is no need of increase from everyday living for elders and people with health issues, work related, public Transportation should not be more than McDonald's burger and Fries.

Form Summary

Have you signed the No Fossil Fuel Money Pledge?

No
