Do you support setting a goal for Michigan to transition to 100% renewable electricity by 2050?	
Do you support setting a goal for Michigan to be carbon-neutral by 2050?	
You may elaborate on your position here:	As a candidate from Detroit, I ran on issues of social justice, jobs, lower auto insurance, health care, senior protections, clean water affordability and quality public education. I have a lot to learn about how Michigan will achieve 100% renewable electricity and what it will take for Michigan to become carbon-neutral by 2050.
Would you support state general funds or other state funding being directed to programs that support communities and workers most impacted by the climate crisis and the transition to renewables, including programs to retrain workers displaced by the transition off fossil fuels?	Yes
You may elaborate on your position here:	Who will be responsible to ensuring the creation and administration of these programs and ensuring that hard working Michiganders will be able to access these programs? In Detroit, transportation continues to be an impediment for many to access trainings and better job opportunities.
Do you support the decommissioning of the Line 5 oil pipeline in the Straits of Mackinac?	
Do you oppose the building of a Line 5 oil tunnel under the Great Lakes bottomlands?	

## Form Summary

You may elaborate on your position here:

Issues of water shut-offs, evictions, blight and poor performing public schools have been what voters in my district have as top of mind. This important issue is relatively new to me. I come from a union family and am aware of some of the implications decommissioning the line would have on working men and women in Michigan. I still need to learn more about the balance between safeguarding the fresh waters in our State and ensuring families are able to keep a roof over their heads, food on the table and opportunities for higher education for our young people.

Do you support lifting the cap on net metering to allow more residents and businesses to participate?

Yes

Do you support returning to net metering, and providing a fairer price to businesses and residents for the solar energy they generate?

You may elaborate on your position here:

Do you support policy that requires utilities to allow customers to build community renewable energy projects with fair rates?

You may elaborate on your position here:

Do you support policies to accelerate the adoption of electric vehicles (EVs), including EV infrastructure like charging stations?

Do you support policies and investments of state funds to help local communities and schools switch to electric transit and school buses?

Do you support policies and investing state funding to increase non-motorized transportation (like walking and biking) in Michigan communities, and to increase access to public transportation?

You may elaborate on your position here:

Have you signed the No Fossil Fuel Money Pledge?

You may elaborate on your position here:

LAST THING BEFORE YOU GO: Would like to sign up to receive email from Michigan Climate Action Network? We will keep you updated on news about the climate in Michigan, share actions you can take to move the needle, and occasional emails about events to attend.

Yes, Please
