Community Power 2017 Minneapolis Candidate Questionnaire

Community Power invites all candidates to complete the following questionnaire to inform Minneapolis voters on positions shaping Minneapolis's energy future:

1. What role do you feel energy infrastructure, sourcing, and decision-making play in shaping livability, affordability, economic resilience and community health for Minneapolis residents and businesses? How do you propose to fulfill that role?

Energy efficiency has the potential to provide benefits at all levels of the economy and society:

- at the individual level impacting households.
- at the sectoral level impacting transportation, residential and the industrial sector;
- at the national level impacting the national budgets; and
- at the international level impacting surrounding nations.

2. Do you think Minneapolis is adequately prepared to respond to climate change? If yes, how? If no, what do you think Minneapolis should do to become prepared?

I plan to create, advocate and implement policies in favor of renewal resources to better our society. I believe if we continue to ignore the issue that we are only harming ourselves and the future generations to come.

3. Do you support a policy of 100% renewable electricity for city operations by 2021, 100% renewable electricity by 2030 for all Minneapolis energy users, and 100% renewable energy in all sectors (electricity, heating, transportation, industry) by 2050 for all Minneapolis energy users (check one)?

- Yes, by those timelines**
- Yes, by (define years) _____
- No

Feel free to provide a deeper explanation of your position:

I believe it is never too late to change for the better. But postponing may be too late. That is why we must act now in using renewable resources. At this time I better there is only a small proportion of the people who are aware of the need and therefore I plan to deliver a public speech addressing the issue.

4. What do you intend to do during your time in office to help achieve the Minneapolis Energy Vision (established by City Council in 2014) and the goals of the Minneapolis Clean Energy Partnership?

I plan to keep the environment and renewal resources on my agenda. In which I will make policies and advocate for awareness gain support to work with the people in bettering our environment.

5. Do you support securing universally-accessible financing that allows all Minneapolis energy users to make energy efficiency improvements and switch to clean energy with no upfront cost, no debt or credit checks, and monthly payments on utility bills that are overall lowered due to the energy saved?

- Yes
 No

Feel free to provide a deeper explanation of your position:

6. Do you support using the rooftops of Minneapolis public buildings to host community solar gardens that create access for low-income families as well as train and hire Minneapolis residents of color to install and maintain them?

- Yes
 No

Feel free to provide a deeper explanation of your position:

7. How would you advance equitable access to energy resources for renters and low-income families to ensure that all Minneapolis families have healthy, comfortable homes, affordable energy bills, and the choice to shift to clean and efficient energy?

I will create opportunities that will allow the people to have access to the resources they need.

8. Would you support an increase in utility franchise fees of 0.5% of Minneapolis energy sales to be re-invested in dedicated long-term funding for local energy solutions (**check all that apply**)?

- Yes
 No
 Dedicated funding could additionally/instead come from these sources:
 These specific energy solutions need this kind of long-term funding:

Feel free to provide a deeper explanation of your position:

9. How should the City of Minneapolis evaluate the effectiveness of the Minneapolis Clean Energy Partnership as its second two year work plan ends in late 2018? What criteria or thresholds would convince you that the Minneapolis Clean Energy Partnership is succeeding (and should be sustained and expanded) OR is failing (and the city should pursue a different route)?

Minneapolis Energy Options

By reviewing the benefits of the plans that were put in place. If there are more benefits in weight then I see it as success. If not then I will revise and implement a new agenda.

10. If Xcel Energy and/or CenterPoint Energy refused to agree to the measurable outcomes you defined in question 9, or failed to achieve them, would you support active exploration of other options by the City of Minneapolis, including: terminating the franchise agreement, securing Community Choice Aggregation, or pursuing energy municipalization (**check one**)?

- Yes
- Yes, under these conditions: if we can't come to an agreement.**
- No
