## About Jo:

Jo has lived in KC since 1968. She has worked at various companies mostly in the technical sector. Married twice, the mother of three daughters, and grandmother of six, she puts health, education, and surviving climate change high on her list of priorities.

A cancer survivor herself, with a grandson who survived an L1 break with consequential handicaps, gives her great insight into the need for Medicare for all.

She has marched against the Iraq war, with Occupy, and with Stand for 15 in KC. It is another of her priorities that justice be equally applied and crimes by the wealthy and powerful be checked and punished while non-violent crimes be reassessed and readdressed.
