Switch to Clean/Renewable Energy!
1. You will help fund the development of new green energy infrastructure in New England.
2. Switch through the MOF website and you’ll help us get 10,000 households in MA to show Governor Patrick how mothers' collective actions are the real power making a difference!
3. Tell a friend (or 2 or 5!) about this opportunity to make a small change and create a renewable energy future for their children

Get and wear a Mothers Out Front Tee-shirt. These shirts give us visibility at events and around town. They help engage new moms and supporters!

Every Mothers Out Front community is working toward our statewide goal of 10,000 households to switch to clean energy.

Each region has a Community Organizing Team that consists of specific leadership positions for outreach and effective action. Through face to face conversations over coffee and regular house parties, mothers are finding support and satisfaction in their ability to make a real difference NOW!

Mothers Out Front is following high-impact community organizing models, has – and continues to build upon – an impressive infrastructure, and is committed to developing the leadership and passion of its ever-growing base of volunteers as it expands into new communities. Online and in person trainings are ongoing and the opportunities to apply your skills and experience abound.
