

MOTHERS OUT FRONT

MOBILIZING FOR A LIVABLE CLIMATE

Media Advisory

Mothers Out Front to launch **Switch the Source Now** campaign! Calling for a just transition from dirty fossil fuels to clean and renewable energy sources.

Mothers, grandmothers and their children will gather to let the Utilities know that we want them to **Build Clean**: withdraw your support for new fossil fuel infrastructure, use your power today for our children's health.

What: Rally to launch **Switch the Source Now** Campaign

Who: Mothers Out Front: Mobilizing for a Livable Climate

When: Wednesday, October 28th 4-6 p.m.

Where: Outside of South Station and the DPU

Why: Mothers want a healthy environment for their children today and a livable future for all children in the face of climate change, the most critical issue of our time. New pipelines lead to more health hazards from leaked methane and at the extraction sites. No more pipelines! The time is now to move to clean and renewable energy sources.
