

- ★ The Constitution of the United States of America was written to protect American citizens, not the artificial entities we call corporations.
- ★ Money is part of a system for economic exchange, it is not free speech.
- ★ The 2010 Supreme Court ruling in *Citizens United vs Federal Election Commission* defined money as free speech and corporations as citizens.
- ★ The ruling has now openly put our elections up for sale to the highest bidder, with disastrous results now unfolding in the presidential election of 2012.
- ★ The only remedy to this ruling is a constitutional amendment to clearly define personhood and money, helping return America to a government of the people, by the people and for the people. It will make your voice count.

Learn more, get involved and join us in making this Amendment a reality.
