

SHE`KAB IS A TRANSPORTATION SERVICE FOR WORKING WOMEN.

They are pioneering a safe, reliable and affordable- women run transportation service for working women.

She`Kab is a multi-dimensional platform where riders (registered women) are connected to reliable/registered drivers. These drivers are selected after a thorough background check. They operate by clustering registered riders according to their pick and drop off locations. They then assign them to specific drivers.

Currently, She`Kab caters to women working in the twin cities of Islamabad and Rawalpindi in Pakistan. Once you subscribe with their pick-up and drop-off locations (excluding street address/house number), as well as the time, She`Kab will contact you within 8-10 days for more details and connect you with the respective driver near you. Please note that you will be sharing the ride with 3 other women en route to a drop-off location in the same vicinity.

Contact: I-8 Markaz, Islamabad, 44000. Pakistan
