

Strong Team. More Jobs. Better Economy.

Building Stronger Communities

National knows that our economy is first and foremost about people and their communities. We will invest in strengthening our community connections and social fabric. We will support our communities to build new enterprises and create local jobs.

A Greener, Smarter Future

National knows that New Zealanders want a cleaner and greener future and will make this an important part of our recovery. A National Government would also build on our digital successes to embed innovation throughout our economy as we focus on the jobs of tomorrow.

Responsible Economic Management

National has a proven track record of effective economic management in times of crisis. National will ensure taxpayer money is spent carefully and in ways that are linked to clear results. Responsible management of New Zealand's finances is essential to growing our economy and creating jobs.

Delivering Infrastructure

National has a strong track record of delivery on infrastructure for New Zealand. National will build the modern, world class infrastructure that our economy needs to succeed and create new jobs.

Reskilling and Retraining our Workforce

National will ensure that those displaced by the economic crisis can gain new skills to be a successful part of our workforce. We will deliver training systems that support New Zealanders into new jobs.
