

House of Representatives

Supplementary Order Paper

Tuesday, 24 August 2021

Water Services Bill

Proposed amendment

Christopher Luxon, in Committee, to move the following amendment:

Clause 8

In *clause 8*, insert *new clause 8(f)*:

- (f) does not include a supplier who supplies drinking water to fewer than 30 end-point users.

Explanatory note

This Supplementary Order Paper would exempt water suppliers that supply fewer than 30 end-point users from the Water Services Bill. This will alleviate onerous and disproportionate obligations on small water suppliers, such as rural water schemes, holiday-home owners sharing a bore, subdivision water schemes, and some marae.
