

**2021 NEW JERSEY ASSEMBLY and SENATE
BEHAVIORAL HEALTH DISORDERS
PREVENTION, TREATMENT, and RECOVERY
CANDIDATE SURVEY**

I. General Views on Alcohol and Drug Disorders Policies to Address Stigma

Alcohol and drug disorders have only recently become recognized as chronic diseases, much like diabetes or hypertension. Yet the stigma associated with them continues to persist and often prevents people from seeking the treatment they need, contributing to disease severity and adding huge costs to public programs.

Indicate which principles (if any) you agree with regarding your general views of alcohol and drug addiction (Substance Use Disorder) and recovery policies to address behavioral health issues by placing a check mark next to the letter(s) that correspond with your opinions.

- a) Substance Use Disorders are preventable, treatable, chronic diseases and are as diagnosable/treatable as diabetes, asthma and hypertension.
- b) Addiction is a matter of will. Government assistance is warranted, but ultimately, recovery is the individual's choice.
- c) I would support sufficient funding to ensure that treatment and recovery services are available to those who need them.
- d) The criminal code (Title 2C) should be examined as to whether the state's drug laws ought to be re-worked
- e) Other _____

II. NJ Policy Perspective and the NJ Harm Reduction Coalition released a report over the summer, recommending the elimination of criminal penalties for low-level possession/use and sales of all drugs. Which best represents your view?

- a) I would support the decriminalization of all low-level drug use, possession and sales
- b) I would support the decriminalization of all low-level drug use/possession, but not sales
- c) I do not support the decriminalization of all possession/use of drugs
- d) Undecided, would like to learn more
- e) Other _____

I need a lot more information.

III. I would support any, or all, of the following initiatives if they could be demonstrated to get and keep people in long-term recovery.

- a) Continued criminal record expungement reform
- b) Tax credits for employers who hire people in recovery
- c) Enhanced financial aid and program assistance to communities disparately impacted by the War on Drugs
- d) Reduction of court-ordered fees and fines for individuals who successfully complete a treatment or diversion program
- e) Expanded use of peer recovery support services
- f) Other _____

IV. In the past year, drug overdoses have dramatically increased. Naloxone (brand name – NARCAN) is an opioid antidote that can reverse an overdose. I would support adequate government funding in order to expand the use of naloxone. Check all that apply:

- a) Mandating every pharmacy maintain a minimum supply of naloxone
- b) On public transportation
- c) In public libraries
- d) On college and university campuses
- e) In homeless shelters
- f) Authorize EMT's to dispense naloxone
- g) Mandate a supply of naloxone in other public spaces, e.g. stadiums, theaters, arenas, etc.
- h) Other _____

V. On an attached page, in seventy-five (75) words or less, please explain any other legislative priorities you will have regarding the prevention, treatment of and recovery from addictive illnesses if elected.

NCAAR for Behavioral Health

John Capizola Jr. (NJ State Assembly candidate for LD1)
Democratic Party

Candidate Survey Response to question V.

V. Three years ago, I lost my cousin/best friend to addiction. That changed me to my core. Being an educator, I see the direct results from giving young people tools they take advantage of when necessary. I will be committed to getting young students the essential education to help them make healthy choices and teach them preventive measures. I would also be committed to reaching individuals dealing with addiction and getting them the vital support they will need.
