

# Summary of Exhibits

## Exhibit B2

Exhibit B-2 lists voters whose ballots were received no later than November 5, including some received by November 3, which are also marked as “Received After Deadline.” A ballot that is received by November 3 must be counted. Moreover, it is implausible that a ballot received on November 4 or November 5 was not sent by November 3. Please re-review the ballot envelopes for any indicia of when the ballots were sent and, pursuant to Numbered Memo 2020-22, please “conduct research to determine whether there is information in BallotTrax that indicates the date [the ballot] was in the custody of the USPS” and “conduct research with the USPS or commercial carrier to determine the date it was in the custody of USPS or the commercial carrier.”

- CW912286 MORGAN JULIE BRUNSWICK 11/05/2020 RETURNED AFTER DEADLINE
  - Julie D Morgan
  - Postmark in Southport is 11/4/2020
  - Scan in Charlotte is 11/4/2020
  - IMB verified and still does not match the IMBs provided from the USPS raw data in Filezilla
  - Ticket to state: ballot that was hand delivered by a postal service employee. The ballot has a postal cancellation/postmark dated November 4. Someone wrote a note on the ballot “date of postage 11/3/20 PM”. I assume PM means postmaster? I have no way to know who wrote this note. Is this a board decision or a disapproval because it’s late?
  - The issue is, these hand delivered ballots are not being scanned in the postal system machines, therefore we cannot track via ballottrax when this ballot entered the mail stream – it’s still showing outbound.
  - Response from Allison: We are parsing the USPS and BT data and will have a spreadsheet so that you can research. Hold that until we get you what you need to double check. You can also reach out to the Postmaster to find out what happened and why it's postmarked the 4th if it was in their possession on the 3rd (or to confirm if it was not in their possession on the 3rd).
  - We would have no way to know which postmaster to reach out to.

# Summary of Exhibits

## Exhibit C

Exhibit C lists voters who told Democratic Party volunteers that they had submitted cure certifications. Based on a review of the data, these voters' ballots were not accepted. These ballots should count, provided that the voter submitted a valid cure certification.

- BRUNSWICK 600096625 DB267935 RETTEW MARIEL 9492 NIGHT HARBOR DR LELAND 28451
  - Our office sent the Absentee Cure Certification by mail and emailed the voter, to the email address on the Absentee Ballot Request form. Absentee Cure Certification created 10/27/2020, mailed 10/28/2020. Email sent to voter with Absentee Cure Certification on 10/28/2020, no bounce back. No returned Absentee Cure Certification to date.

*\*This document was created by the Brunswick County Board of Elections. It is an excerpt from the protest document explaining the exhibits as well as information only about Brunswick County voters.*

# Summary of Exhibits

## Exhibit D

Exhibit D lists voters who returned mail ballots, had those ballots listed as “Accepted” or “Accepted-Cured,” but had that status changed to a status that resulted in their mail ballot not being accepted. To the extent that these voters had their ballots approved by the County Board at a meeting and then had that approval rescinded, these voters’ ballots should be counted for the reasons described above.

# Summary of Exhibits

## Exhibit E1

Exhibit E-1 lists provisional voters who reside in and are registered to vote in your county, according to information reflected in the Provisional Ballot Application. These ballots should be approved and counted in all statewide races and any other races for which they are eligible. See Numbered Memo 2018-05 §§ 1 (“In determining whether to count a provisional ballot in full, in part, or not at all, county boards should be guided by the following ... 1. The applicant must be a registered voter in the county.”); 1.4 (“A registered voter who has moved within the same county but had not previously updated his or her registration may vote in the new precinct, the old precinct or a central location designated by the county board.”); 1.5 (“If a voter submits a Provisional Voting Application simply because he or she presented in a precinct other than his or her proper precinct, the county board should approve the application and count all votes cast in contests for which the voter is eligible.”); 1.6 (“If it can be determined after Election Day and before the canvass that the applicant had properly registered . . . before the voter registration deadline, the county board shall approve the application and count all votes cast in contests for which the voter is eligible.” (internal citation omitted)).

# Summary of Exhibits

## Exhibit E2

Exhibit E-2 lists voters who have maintained continuous residence in your county since registering to vote, even though they were removed from the voter rolls. These voters signed attestations, which were provided to your County Board. Some County Boards refused to consider this information, in contravention of Numbered Memos 2016-25 and 2018-5. Given this corrective information, these ballots should be approved and counted. See Numbered Memo 2018-05 § 1.3 (“If the voter has maintained continuous residence in the county, the voter remains eligible to vote ... The voter’s written or verbal affirmation regarding their continuous residency is sufficient to confirm ongoing eligibility, absent evidence to the contrary, and the county board must approve the provisional application.”); Numbered Memo 2016-25 (“Corrective information may be delivered by mail, email, facsimile, commercial carrier, or private carrier (including attorneys, campaign staff, relatives, etc.)”). If you need an additional copy of the attestation, Counsel can provide it.

# Summary of Exhibits

## Exhibit E4

Exhibit E-4 lists provisional voters who self-reported timely registering to vote or attempting to register with your County Board or another government agency. Given this corrective information, these ballots should be approved and counted. See Numbered Memo 2018-05 § 1.1 (“If . . . the provisional applicant made an attempt to register to vote at the DMV . . . on or before the voter registration deadline, the provisional application must be approved ...”); id. § 1.6 (requiring approval if the applicant “timely attempted to register before the voter registration deadline”). If you need information from another government agency to verify a provisional voter’s registration status, you should immediately obtain that information.

# Summary of Exhibits

## Exhibit E6

Exhibit E-6 lists voters who were required to cast provisional ballots during the one-stop absentee period, for reasons other than “ID-required” or “voter already voted.” These voters should have been provided an opportunity to register or re-register (to update an address). The failure to do so was an error of the election official, not the voter. And election official error is not a basis to reject an otherwise valid vote.
