

## No Human Being is Illegal

### Stop detentions and deportations

The North Carolina Green Party recognizes that immigrants and migrants strengthen our nation. We support full amnesty and a safe pathway to citizenship for all 11 million undocumented immigrants, as well as full civil rights for all migrants. We need to stop scapegoating immigrants who are being blamed for the systemic crimes of the rich.

#### **End Workplace and Home Raids**

The NC Green Party believes that immigrants should feel safe in their communities and workplaces. They should be able to live their lives free from institutionalized intimidation and violence, and should not be forced into hiding or subjected to constant fear and uncertainty while attempting to go to work, take children to school, or while simply being visible in their communities.

#### **Abolish ICE**

The creation of ICE (U.S. Immigration and Customs Enforcement) in 2003, and its placement under the Homeland Security umbrella, sent a message that immigrants are a threat to the United States, turning the Statue of Liberty on its head. The NC Green Party rejects this message and calls for the agency's abolition and the implementation of a human rights approach to immigration.

#### **No Wall**

While both corporate parties focus on border security and enforcement, the Green Party supports cancelling plans for the US-Mexico border wall. Not only will the wall be an environmental disaster affecting surrounding families, wildlife, and the Rio Grande ecosystem, but it's also a monument to racist, anti-immigrant attitudes toward ethnic minorities.

#### **No Family Separation**

Greens strongly condemn separating families at the border. "The forcible removal of children from their parents at the Southern border and housed in sub-standard conditions is no less than government sanctioned child abuse and neglect." –Gloria Mattera, GP National Co-chair and child life-development specialist

#### **Amnesty and Civil Rights**

While Democrats and Republicans prioritize immigration enforcement, NC Greens support amnesty for undocumented immigrants and a legal status that allows a path to residency and citizenship. The NC Green Party calls for racial and economic justice for documented and undocumented immigrants, as well as border passes and work permits for Canadian and Mexican citizens. We support extending to migrants the same civil rights and protections claimed by US citizens.

Immigrants and migrants strengthen our nation.  
We support amnesty and a safe pathway to citizenship,  
as well as full civil rights for all. We must stop scapegoating  
immigrants for the systemic crimes of the rich.
